

FILLMORE CENTRAL SCHOOL

Virtual Learning Request

If a family chooses to participate in virtual learning Fillmore CSD will provide each student with instruction, assignments, and assessments. Additionally, the District will provide each student a device and partner with community organizations to provide access to internet in various areas of the District. The District will also provide access to breakfast and lunch for virtual learning students. The family and student must recognize that virtual learning requires more self-direction than a traditional learning experience. It is expected that the family of each student choosing this option is making a long-term commitment and is responsible to ensure that their child has access to the internet in the home or at the various WiFi locations.

The following FCS students will be participating in the virtual education option in the 2020-2021 school year:

Student First and Last Name	Grade Level
_____	_____
_____	_____
_____	_____
_____	_____
_____	_____

Parent Name: _____

Parent phone number: _____

Parent email: _____

The signature below indicates that I am choosing the virtual learning option for my above listed child(ren).
