PHILOSOPHY OF EDUCATION

Our philosophy is based upon the recognition that education is a life-long process and does not terminate when the student leaves the formal process and does not cease when the student leaves the formal education provided by our School District.

The Board of Education should provide a comprehensive and academically challenging education for all students in an atmosphere that will stimulate and develop the student's intellectual, moral, social and physical development -- in order to prepare each student for responsible participation in the family, workplace and in the American democratic society.

Within the economic means of the District, it is the Board's responsibility to provide an opportunity for students to develop a mastery of the basic skills of learning, thinking and problem solving in the various areas of endeavor.

Finally, once given these opportunities for success, it will be up to the students to determine at what level they will attain their goals.

General Philosophy

Our goal at Fillmore Central School is to ensure that each child achieve skill levels that will enable each student to reach his/her full potential. It is our responsibility to empower our students to become independent learners and responsible, productive members of society. To this end, we, the entire community, are accountable.

SUBJECT: SCHOOL DISTRICT AND BOARD OF EDUCATION LEGAL STATUS AND AUTHORITY

The Constitution of New York State, as amended in 1894, instructs the Legislature to provide for a system of free common schools wherein all children of the State may be educated.

The State Legislature has implemented this constitutional mandate through the creation of school districts of various types. The Fillmore Central School District is governed by the laws set forth for Central School Districts in Education Law Article 37, and by laws relating to, or affecting, Union Free School Districts as set forth in Education Law Article 35 and Common School Districts as set forth in Education Law Article 33.

The School District constitutes a corporate entity that possesses all the usual powers of a corporation for public purposes, and in that name may sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized by law.

The Constitution of the State of New York places the responsibility for public education on the State Legislature, and directs the establishment of a State Department of Education for general supervision over the schools and headed by a Commissioner of Education. The New York State Constitution further provides that local public schools under the general supervision of the State Education Department shall be maintained, developed and operated by locally elected boards. Legally, local boards are instruments of the New York State Constitution, the New York Statutes and the regulations of the State Education Department and its Commissioner.

Board of Education Authority

As a body created under the Education Law of New York State, the Board of Education of the Fillmore Central School District has full authority, within the limitations of federal and state laws and the Regulations of the Commissioner of Education and interpretations of them, to carry out the will of the people of its District in matters of education.

In all cases where laws or regulations of the State Commissioner of Education do not provide, permit, or prohibit, the Board shall consider itself the agent responsible for establishing and appraising educational matters and activities.

Board members have no authority over school affairs as individuals. They have authority only when acting as a body duly called in session.

Education Law Sections 1604, 1701, 1709, 1804, 1805, 2502, 2503 and Articles 33, 35, 37, 51 and 53

SUBJECT: RESIGNATION AND DISMISSAL

Board members may resign at a District meeting of residents (i.e., the annual meeting, not a regular Board of Education meeting) or by filing a written resignation with the District Superintendent of the Supervisory District who must endorse his/her approval and file the resignation with the District Clerk.

Alternatively, a Board member may resign under Public Officers Law Section 31 by filing a written resignation with the District Clerk. The Clerk must then notify the School Board and the State Board of Elections.

A resignation may be withdrawn only with the consent of the person to whom the resignation was delivered (i.e., the District Clerk or BOCES District Superintendent). The School Board has no authority to act upon a request to withdraw a resignation.

The resignation shall take effect upon the date specified in the letter of resignation; however, if no effective date is specified, it shall take effect on the date of delivery to or filing with the District Clerk. If an effective date is specified in the letter of resignation, such date shall not be more than thirty (30) days subsequent to the date of its delivery or filing.

It shall be the duty of each member of the Board of Education to attend all meetings of the Board and, if any member shall refuse to attend three (3) consecutive meetings of the Board after having been regularly notified and a satisfactory cause for each non-attendance is not shown, the Board will proceed to declare that office vacant.

The Board of Education may also remove a Board member for misconduct relating to the exercise of authority as a Board member. A written copy of all charges made of such misconduct must be served upon the Board member at least ten (10) days before the time designated for a hearing on the charges; and the Board member shall be allowed a full and fair opportunity to refute such charges before removal.

In the event of death, resignation, removal from office or from the School District, or refusal to serve as a Board member, the District has the power and duty to fill the vacancy. If the Board chooses to fill the vacancy by appointment, the appointment requires a majority vote of the full Board and shall be only for a term ending with the next annual election of the School District.

The Board, at its own option, may instead call a special election within ninety (90) days to fill the unexpired term. If not filled by Board appointment or special election, the District Superintendent of the Supervisory District may appoint a competent person to fill the vacancy until the next annual election. Alternatively, the Commissioner of Education may order a special election for filling a vacancy. When such special election is ordered, the vacancy shall not be otherwise filled.

**SUBJECT: ATTENDANCE BY BOARD MEMBERS AT CONFERENCES,
CONVENTIONS AND WORKSHOPS**

The Board believes that continuing in-service training and development are important for its members. The Board, therefore, encourages the participation of all members at appropriate school board conferences, conventions and workshops which are believed to be of benefit to the School District. However, in order to control both the investment of time and funds necessary to implement this policy, the Board establishes the following guidelines:

- a) A calendar of school board conferences, conventions and workshops shall be maintained by the Board Clerk. The Board will periodically decide which meetings appear to be most likely to produce direct and indirect benefits to the School District. At least annually, the Board will identify those new ideas or procedures and/or cost benefits that can be ascribed to participation at such meetings.
- b) Funds for participation at such conferences, conventions, workshops and the like will be budgeted for on an annual basis. When funds are limited, the Board will designate which members are to participate at a given meeting.
- c) Reimbursement to Board members for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for expense reimbursement.
- d) When a conference, convention or workshop is not attended by the full Board, those who do participate will be requested to share information, recommendations and materials acquired at the meeting.

The authorization for Board members to attend a conference, convention, workshop and the like shall be by Board resolution adopted prior to such attendance. However, the Board, in its discretion, may delegate the power to authorize attendance at such conferences to the President of the Board of Education.

Where authorization has been delegated to the President of the Board, no expense or claim form shall be paid unless a travel order or similar document signed by the President is attached to such form, authorizing the claimant to attend the conference.

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING**General Criteria**

The availability of Internet access in the School District provides an opportunity for staff and students to access information and contribute to the School District's presence on the World Wide Web. The District/school/classroom websites must relate to curriculum or instructional matters, school authorized activities, or general information of interest to the public pertaining to the District or its schools. Staff and students are prohibited from publishing personal home pages or links to personal home pages as part of the District/school/classroom Web Page(s). Similarly, no individual or outside organization will be permitted to publish personal Web Pages as part of the District/school/classroom Web Page(s).

Internet access for the creation of Web Pages is provided by the District and all information must be reviewed by the Website Manager prior to publishing it on the Web. Personnel designing information for the Web Pages must familiarize themselves with and adhere to District standards and procedures. Failure to follow District standards or responsibilities may result in disciplinary sanctions in accordance with law and/or the applicable collective bargaining agreement.

The District shall provide general training on relevant legal considerations and compliance with applicable laws and regulations including copyright, intellectual property, and privacy of student records as well as relevant District procedures to those staff members and students who are allowed to develop or place material on the District/school/classroom Web Page(s).

Content Standards

- a) Approval for posting a Web Page must be obtained from the Website Manager or his/her designee(s). If at any time, the Website Manager/designee(s) believes the proposed material does not meet the standards approved by the District, it will not be published on the Web. Decisions regarding access to active Web Pages for editing content or organization will be the responsibility of the Website Manager/designee(s).
- b) A Web Page must be sponsored by a member of the District faculty, staff or administration who will be responsible for its content, design, currency and maintenance. The sponsor is responsible for ensuring that those constructing and maintaining the Web Page have the necessary technical training and that they fully understand and adhere to District policies and regulations. The Web Page must include the name of the sponsor.
- c) Staff or student work should be published only as it relates to a school/classroom authorized project or other school-related activity.
- d) The review of a Student Web Page (if considered a school-sponsored student publication) shall be subject to prior District review as would any other school-sponsored student publication.

(Continued)

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING (Cont'd.)

- e) An authorized teacher who is publishing the final Web Page(s) for himself/herself or for a student will edit and test the Page(s) for accuracy of links and check for conformance with District standards and practices.
- f) A disclaimer statement about the content of Web Pages must be part of individual sites:

Example: "The District has made every reasonable attempt to ensure that our Web Pages are educationally sound and do not contain links to questionable material or material that can be deemed in violation of the School District's Standards and Guidelines for Web Page Publishing Policy."
- g) Commercial advertising or marketing on the District/school/classroom Web Page(s) (or the use of school-affiliated Web Pages for the pursuit of personal or financial gain) shall be prohibited unless otherwise authorized in accordance with law and/or regulation. Decisions regarding website advertising must be consistent with existing District policies and practices on this matter. School-affiliated Web Pages may mention outside organizations only in the context of school programs that have a direct relationship to those organizations (e.g., sponsorship of an activity, student community service project).
- h) Web Pages may include faculty or staff names; however, other personal information about employees including, but not limited to, home telephone numbers, addresses, or other identifying information such as names of family members may be published only with the employee's written permission.
- i) All Web Pages must conform to the standards for appropriate use found in the District's Acceptable Use Policy(ies) and accompanying Regulations regarding standards of acceptable use; examples of inappropriate behavior; and compliance with applicable laws, privacy, and safety concerns.
- j) All Web Pages must be approved through the designated process before being posted to the District/school/classroom websites.
- k) All staff and/or students authorized to publish material on the District/school/classroom Web Page(s) shall acknowledge receipt of the District's Web Page Standards and agree to comply with same prior to posting any material on the Web.

Release of Student Education Records/Directory InformationRelease of Student Education Records

In accordance with the Family Educational Rights and Privacy Act (FERPA), unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable

(Continued)

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING (Cont'd.)

information contained in student education records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and
- b) Indicates such person's approval of the information contained in the electronic consent.

Student Directory Information

Per FERPA, Districts must publish an annual public notice informing parents or eligible students of their right to refuse the release of student directory information and indicating a time period for their response. Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

Parental/Eligible Student Consent Required and Privacy Concerns

Written parental/eligible student consent shall be obtained by the District before education records or personally identifiable information contained therein is released to any party unless:

- a) Such release is authorized by the Family Educational Rights and Privacy Act, or its implementing regulations;
- b) The information released is "directory information" as designated by the District in accordance with FERPA. The District shall provide parents and eligible students with annual notification of their rights under FERPA and designation of directory information (i.e., disclosure of personally identifiable information contained in student records);
- c) For anything not specifically designated as "directory information" by the District, the District must receive a "signed and dated written consent" from the parent/eligible student prior to releasing such information (unless otherwise authorized per FERPA);
- d) However, even if student photographs are designated as directory information per FERPA, due to privacy and safety concerns, **the District requires specific affirmative written parent/eligible student consent prior to posting student photographs on District/school/classroom Web Pages.** Whenever possible, group photographs of students and/or the use of photographs where the student is not easily identifiable is preferable to the use of individual student photographs for safety reasons;

(Continued)

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING (Cont'd.)

- e) Web Pages shall not include a student's full name, telephone number, address, email address or post such information of other family members or friends. Posting of student names will be limited to first name only. Permission forms from parents are strongly suggested;
- f) Online posting of school bus schedules and/or other specific activity schedules detailing dates/times/locations (e.g., field trips) is prohibited on school-affiliated websites as such information can pose risks of child abduction or other security concerns. Password protected websites may be authorized by the Superintendent/designee.

Use of Copyrighted Materials and "Fair Use" Exceptions/Intellectual Property and Works Made for HireCopyrighted Materials

All employees and students are prohibited from copying materials not specifically allowed by the copyright law, "Fair Use" guidelines, licenses or contractual agreements, or the permission of the copyright proprietor. Web Page publications must include a statement of copyright when appropriate and indicate that permission has been secured when including copyrighted materials or notice that such publication is in accordance with the "Fair Use" provisions of the Copyright Law.

Fair Use of Copyrighted Materials

Pursuant to Section 107 of the Copyright Law ("Fair Use" provisions), the use of copyrighted material for criticism, comment, news reporting, teaching, scholarship, or research may be permitted under certain circumstances.

However, any appropriation of someone else's work on the Internet is a potential copyright infringement. "Fair Use" provisions may not apply when a project created by a teacher or student is accessed by others over the Internet. If there is a possibility that school-affiliated Web Page(s), which incorporate copyrighted works under the "Fair Use" provisions, could later result in broader dissemination, it will be necessary to seek the permission of the copyright holder. The complex interplay between copyright law and the "Fair Use" provisions in educational multimedia projects should be considered in development of Web Page publishing standards and reviewed by school counsel prior to District implementation for compliance with applicable law and regulations.

- a) Unless otherwise noted, always assume that work on the web is copyrighted. It is NOT necessary that the copyright symbol -- © -- be displayed for the work to be protected by copyright laws.
- b) Proper attribution must always be given.

(Continued)

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING (Cont'd.)

- c) Obtaining permission(s) from the copyright holder(s) (whether text, graphics or music) should occur during the developmental process or project, rather than waiting to seek permission upon completion of the project.
- d) Unauthorized electronic transmission of copyrighted materials is illegal.

Intellectual Property/Works Made for Hire

All works completed by employees as part of their employment shall be considered "works made for hire" as described in the United States Code Annotated, Title 17, Copyrights to the extent permitted by law. This determination includes, but is not limited to, the following activities:

- a) Work prepared by an employee within the scope of his/her employment, whether tangible or intangible;
- b) Work specifically ordered or commissioned for use as a contribution to a collective work, as enumerated in law.

Any work created within the scope of such a relationship will be considered a work made for hire when a regular employment relationship exists.

Work covered under this policy is the property of the School District, not the creator of such work. The District shall own any and all rights to such works, or derivatives thereof, unless there is a written agreement to the contrary.

Student Free Speech Issues (School-sponsored Publications)

In general, School Districts can exercise editorial control over the style and content of student expression in school-sponsored publications, theatrical productions, and other expressive activities that students, parents and members of the public might reasonably perceive to bear the imprimatur of the school.

However, the school's actions in such a case must be reasonably related to legitimate pedagogical concerns and may not amount to viewpoint discrimination.

Consequences for Non-Compliance

Web Pages that do not comply with the above criteria are subject to revocation of approval and removal from the District/school/classroom websites.

(Continued)

SUBJECT: SCHOOL DISTRICT STANDARDS AND GUIDELINES FOR WEB PAGE PUBLISHING (Cont'd.)

Staff

Faculty or staff posting non-approved or inappropriate material on a school-affiliated website is subject to the imposition of discipline, including possible suspension or revocation of access to the District's computer network, in accordance with law and applicable collective bargaining agreements. In the case that a violation may constitute a criminal offense, it will be reported to the appropriate authorities.

Students

Students posting non-approved or inappropriate material on a school-affiliated website are subject to the imposition of discipline, including possible suspension or revocation of access to the District's computer network, in accordance with applicable due process procedures and the District Code of Conduct. In the case that a violation may constitute a criminal offense, it will be reported to the appropriate authorities.

Oversight

The Superintendent of Schools or his/her designee shall have the authority to approve or deny the posting of any proposed Web Pages on school-affiliated websites based upon compliance with the terms and conditions set forth in this policy as well as applicable District practices and procedures.

The Superintendent's approval shall be required for the flag to be flown at half-staff upon any other occasion. SUBJECT: SCHOOL VOLUNTEERS

The Board recognizes the need to develop a school volunteer program to support District instructional programs and extracurricular activities. The purpose of the volunteer program will be to:

- a) Assist employees in providing more individualization and enrichment of instruction;
- b) Build an understanding of school programs among interested citizens, thus stimulating widespread involvement in a total educational process;
- c) Strengthen school/community relations through positive participation.

Volunteers are persons who are willing to donate their time and energies to assist Principals, teachers, and other school personnel in implementing various phases of school programs. Volunteers shall serve in that capacity without compensation or employee benefits except for liability protection under the District's insurance program.

An application shall be filled out by each prospective volunteer and forwarded to the District Office for evaluation. The Building Principal will forward his/her decisions concerning selection, placement and replacement of volunteers to the Superintendent for final evaluation. Following approval from the Superintendent of Schools, volunteers selected for work in the District shall be placed on the list of approved volunteers. However, the Superintendent retains the right to approve or reject any volunteer applications submitted for consideration.

The Superintendent is authorized to establish and require suitable training to assure that volunteers have sufficient knowledge of their appropriate duties.

At all times, volunteers should be under the direct supervision of a school administrator or classroom teacher. Volunteers' duties should be specifically outlined. Volunteers may be involved in many facets of school operations, from mentor/tutor relationships to clerical tasks. School personnel who are responsible for tasks or projects that will make use of volunteers will identify appropriate tasks and time schedules for such activities as well as make provisions for adequate supervision, training and evaluation.

Volunteers are not to perform instructional or other work that should properly be performed by certified or licensed personnel.

Administrative regulations will be developed to implement the terms of this policy.

Former students shall not be allowed to visit the school or other students for social purposes during the school hours unless specific permission is granted by the Principal.

SUBJECT: PUBLIC COMPLAINTS

Complaints by citizens regarding any facet of the school operation often can be handled more satisfactorily by the administrative officer in charge of the unit closest to the source of the complaint. In most instances, therefore, complaints will be made to the Building Principal and/or his/her assistant if the matter cannot be resolved by the teacher, coach, or other school employee.

If the complaint and related concerns are not resolved at this level to the satisfaction of the complainant, the complaint may be carried to the Superintendent and/or one (1) of his/her assistants. SUBJECT: SOLICITATION OF CHARITABLE DONATIONS**School Children**

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

However, this policy does not prevent the following types of fund raising activities:

- a) Fund raising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;
- b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited as the purchaser will receive consideration - the concert or social event - for the funds expended;
- c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money.

The Board of Education shall ultimately decide which organizations, groups, etc. can solicit charitable donations and for what purposes, as long as the activities comply with the terms of this policy and the Rules of the Board of Regents.

Regulations shall be developed by the administration to implement this policy.

School Personnel

Soliciting of funds from school personnel by persons or organizations representing public or private organizations shall be prohibited. The Superintendent of Schools shall have the authority to make exceptions to this policy in cases where such solicitation is considered to be in the District's best interest. The Board of Education shall be notified of these instances.

Distribution of information about worthwhile area charities may be made through the Office of the Superintendent of Schools as a service to School District personnel.

SUBJECT: ADVERTISING IN THE SCHOOLS

Neither the facilities, the staff, nor the students of the School District shall be employed in any manner for advertising or otherwise promoting the interests of any commercial, political, or other non-school agency, individual or organization, except that:

- a) Schools may cooperate in furthering the work of any non-profit, community-wide, social service agency, provided that such cooperation does not restrict or impair the educational program of the schools or conflict with the Rules of the Board of Regents Section 19.6;
- b) The schools may use films or other educational materials bearing only simple mention of the producing firm;
- c) The Superintendent of Schools may, at his/her discretion, announce or authorize to be announced, any lecture or other community activity of particular educational merit;
- d) The schools may, upon approval of the Superintendent of Schools, cooperate with any agency in promoting activities in the general public interest that are non-partisan and non-controversial, and that promote the education and other best interests of the students.

No materials of a commercial nature shall be distributed through the children in attendance in the Fillmore Central School District except as authorized by law or the Commissioner's Regulations.

SUBJECT: USE OF SCHOOL FACILITIES, MATERIALS AND EQUIPMENT**School Facilities**

It shall be the policy of the Board to encourage the greatest possible use of school facilities for community-wide activities. This is meant to include use by recognized civic, social and fraternal and religious organizations in accordance with law. Groups wishing to use the school facilities must secure written permission from the Superintendent and abide by the rules and regulations established for such use including restrictions on alcohol, tobacco and drug use. The Superintendent, at his/her discretion, may consult with the Board of Education. Monthly reports may be made to the Board regarding community use of the school facilities.

Sunday Functions

Any school related activities of students on Sunday are strongly discouraged. Approval for any Sunday related activities must be granted directly by the Superintendent or his/her designee. Sunday activities will not be mandatory.

Adult Education

Fillmore Central School may be used as a satellite center for Community Adult Education sponsored by Cattaraugus-Allegany County BOCES. All regulations and procedures regarding course offerings, registration fees, etc. are established by BOCES.

Materials and Equipment

Except when used in connection with or when rented under provisions of Education Law Section 414, school-owned materials or equipment may be used by members of the community or by District employees and/or students for school related purposes only. Private and/or personal use of school-owned materials and equipment is strictly prohibited. The loan of equipment and materials for public purposes that serve the welfare of the community is allowed, as long as the equipment is not needed at that time for school purposes and that the proposed use will not disrupt normal school operations.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment and loaned to students when the material and equipment is to be used in connection with their studies or extracurricular activities. Community members will be allowed to use school-owned materials and equipment only for educational purposes that relate to school operations. The Board will also allow the loan of equipment to local governments and other entities that benefit the welfare of the surrounding community. The Board supports such inter-municipal cooperation as it saves taxpayer monies and is a more efficient use of scarce or costly equipment and resources.

The School District is committed to the prevention of violence against any individual or property in the schools, on school property or at school activities whether such acts and/or threats of violence are made by students, staff, or others. Threats of violence against students, school personnel and/or school property will not be tolerated whether or not such threats occur on school grounds or during the school day.

Any person who commits an act or threatens an act of violence, including bomb threats, whether made orally, in writing, by email, or by any other electronic format, shall be subject to appropriate discipline in accordance with applicable law, District policies and regulations, as well as the *Code of Conduct on School Property* and collective bargaining agreements, as may be necessary.

While acknowledging an individual's constitutional rights, including applicable due process rights, the District refuses to condone acts and/or threats of violence which threaten the safety and well-being of staff, students, visitors and/or the school environment. SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT

The Board of Education affirms its commitment to nondiscrimination and recognizes its responsibility to provide an environment that is free of harassment and intimidation as required by Federal and state law. Harassment is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of discrimination and harassment on the basis of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, veteran status, disability, use of a recognized guide dog, hearing dog or service dog, or domestic violence victim status by employees, school volunteers, students, and non-employees such as contractors and vendors as well as any third parties who are participating in, observing, or otherwise engaging in activities subject to the supervision and control of the District.

Sexual orientation is defined as heterosexuality, homosexuality, bisexuality, or asexuality, whether actual or perceived.

The Board also prohibits harassment based on an individual's opposition to discrimination or participation in a related investigation or complaint proceeding under the anti-discrimination statutes. This policy of nondiscrimination and anti-harassment will be enforced on School District premises and in school buildings; and at all school-sponsored events, programs and activities, including those that take place at locations off school premises and in another state.

It is intended that this policy apply to the dealings between or among employees with employees; employees with students; students with students; employees/students with vendors/contractors and others who do business with the School District, as well as school volunteers, visitors, guests and other third parties. All of these persons are hereinafter referred to collectively as "the named group."

For purposes of this policy, harassment shall mean communication (verbal, written or graphic) and/or physical conduct based on an individual's actual or perceived race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, veteran status, disability, use of a recognized guide dog, hearing dog or service dog or domestic violence victim status that:

- a) Has the purpose or effect of substantially or unreasonably interfering with an individual's work performance or is used as a basis for employment decisions (including terms and conditions of employment) affecting such individual; and/or creates an intimidating, hostile or offensive work environment;
- b) Has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creates an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit;
- c) Otherwise adversely affects the employment and/or educational opportunities and benefits provided by the District.

(Continued)

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)**Complaints and Grievances by Employees**

In accordance with the provisions of General Municipal Law and the collective bargaining agreements, all District personnel shall have the opportunity to present their complaints or grievances free from interference, coercion, restraint, discrimination or reprisal. The District shall provide at least two (2) procedural stages and an appellate stage for the settlement of any grievance.

Complaints or grievances not covered under employee contracts shall be handled and resolved, whenever possible, as close to their origin as possible. The Superintendent is responsible for implementing regulations for the redress of complaints or grievances through proper administrative channels.

Complaints and Grievances by Students

While students have the responsibility to abide by the policies and regulations of the District, they shall also be afforded opportunity to present complaints and grievances free from interference, coercion, restraint, discrimination or reprisal.

Administration shall be responsible for establishing rules and regulations for the redress of complaints or grievances through proper administration channels. In addition, the administration shall be responsible for developing an appeals process, ensuring that students have full understanding and access to these regulations and procedure, and providing prompt consideration and determination of student complaints and grievances.

Investigation of Complaints and Grievances

The School District will act to promptly investigate all complaints, either verbal or written, formal or informal, of allegations of harassment based on any of the characteristics described above; and will promptly take appropriate action to protect individuals from further harassment. The District will designate, at a minimum, two (2) Compliance Officers, one of each gender.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any employee, student, or other member of the above named group who believes he/she has been a victim of harassment in the school environment and/or at programs, activities and events under the control and supervision of the District, as well as any individual who is aware of and/or who has knowledge of, or witnesses any possible occurrence of harassment, immediately report such alleged harassment; such report shall be directed to or forwarded to the District's designated Compliance Officer(s) through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged harassment will also be promptly investigated in accordance with the terms of this policy. In the event that the Compliance Officer is the alleged offender, the report will be directed to the next level of supervisory authority.

(Continued)

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a prompt, equitable and thorough investigation of the charges. However, even in the absence of an informal/formal complaint, if the District has knowledge of any occurrence of harassment, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis. The Superintendent will inform the Board of Education of investigations involving findings of discrimination or harassment.

Based upon the results of this investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate disciplinary measures will be applied, up to and including suspension, in accordance with applicable laws and/or regulations, District policy and regulation, and the District Code of Conduct. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations and/or the Code of Conduct, will be subject to appropriate sanctions as warranted and in compliance with law. The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of harassment. Follow-up inquiries shall be made to ensure that harassment has not resumed and that all those involved in the investigation of the harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Compliance Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

(Continued)

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that harassment did not occur.

Knowingly Makes False Accusations

Employees and/or students who *knowingly* make false accusations against another individual as to allegations of discrimination or harassment may also face appropriate disciplinary action.

Privacy Rights

As part of any investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Civil Rights Compliance Officer (Title IX/Section 504/ADA Compliance Officer)

The Civil Rights Compliance Officer is the High School Principal. The Civil Rights Compliance Officer shall be appointed by the Board and shall be responsible for providing information, including complaint procedures, and for handling complaints relative to civil rights (e.g., Title IX of the Education Amendments of 1972, Section 504 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act of 1990) for any student, parent, employee or employment applicant.

Prior to the beginning of each school year, the District shall issue an appropriate public announcement which advises students, parents/guardians, employees and the general public of the District's established grievance procedures for resolving complaints of discrimination based on sex or disability. Included in such announcement will be the name, address and telephone number of the Civil Rights Compliance Officer.

The Civil Rights Compliance Officer shall also be responsible for handling complaints and grievances regarding discrimination based on race, color, creed, religion, national origin, political affiliation, sexual orientation, age, military status, veteran status, marital status, predisposing genetic characteristics, use of a recognized guide dog, hearing dog or service dog, or domestic violence victim status.

Development and Dissemination of Administrative Regulations

Regulations will be developed for reporting, investigating, and remedying allegations of harassment based on the characteristics described above. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable Compliance Officer(s). Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

(Continued)

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT (Cont'd.)

The Superintendent/designee(s) will affirmatively discuss the topic of harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for the investigation of harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on anti-harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

This policy should not be read to abrogate other District policies and/or regulations or the District Code of Conduct prohibiting other forms of unlawful discrimination, inappropriate behavior, and/or hate crimes within this District. It is the intent of the District that all such policies and/or regulations be read consistently to provide the highest level of protection from unlawful discrimination in the provision of employment/educational services and opportunities. However, different treatment of any member of the above named group which has a legitimate, legal and nondiscriminatory reason shall not be considered a violation of District policy.

SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, Principals, Directors, Coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Program managers will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the Principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior year's submitted budget.

In accordance with Commissioner's Regulations, the budget will be presented in three (3) components which are to be voted upon as one (1) proposition. The law prescribes the types of items to be included in each component and further prescribes that all relevant costs be included in the component.

- a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;
- b) A capital component which shall include, but need not be limited to, all transportation capital, debt service, and lease expenditures; costs resulting from judgments and tax certiorari proceedings or the payment of awards from court judgments, administrative orders or settled or compromised claims; and all facilities costs of the School District, including facilities lease

expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and

- c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and all compensation, including salaries and benefits of all school administration and supervisors, business administrators, superintendents of schools and deputy, assistant, associate or other superintendents under all existing employment contracts or collective bargaining, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Additionally, the Board of Education shall append to the proposed budget the following documents:

- a) A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any Assistant or Associate Superintendent of Schools in the ensuing school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- b) A list of all other school administrators and supervisors, if any, whose annual salary for the coming school year will be at or above that designated in law for such reporting purposes, with the title of their positions and annual salary identified;
- c) A School District Report Card, prepared pursuant to Commissioner's Regulations, which includes measures of the academic performance of the School District, on a school by school basis, and measures of the fiscal performance of the District;
- d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading Property Tax Report Card); and
- e) A Tax Exemption Report prepared in accordance with law (see subheading Tax Exemption Report).

The Board shall attest that unexpended surplus funds (i.e., operating funds in excess of the current school year budget, not including funds properly retained under other sections of law) have been applied in determining the amount of the school tax levy. Surplus funds shall mean any operating funds in excess of four percent (4%).

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

District funds may be expended to inform the public regarding the annual budget and to present the annual budget to District voters; however, such funds shall not be utilized to promote either a favorable or negative opinion of the proposed budget.

Property Tax Report Card

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

The Property Tax Report Card shall include:

- a) The amount of total spending and total estimated school tax levy that would result from adoption of the proposed budget, and the percentage increase or decrease in total spending and total school tax levy from the School District budget for the preceding school year; and
- b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and
- c) The percentage increase in the average of the Consumer Price Indexes from January first of the prior school year to January first of the current school year as defined in Education Law; and
- d) The projected amount of the adjusted unrestricted fund balance that will be retained if the proposed budget is adopted; the projected amount of the adjusted restricted fund balance; the projected amount of the assigned appropriated fund balance; the percentage of the proposed budget that the adjusted unrestricted fund balance represents; the actual adjusted unrestricted fund balance retained in the School District budget for the preceding school year; and the percentage of the School District budget for the preceding school year that the actual adjusted unrestricted fund balance represents; and
- e) The District's school tax levy limit calculation. The District will submit its school tax levy limit calculation to the Office of the State Comptroller, NYSED and the Office of Taxation and Finance by March 1 annually. If a voter override of the tax levy limit is necessary, the budget vote must be approved by sixty percent (60%) of the District's qualified voters present and voting.

(Continued)

SUBJECT: BUDGET PLANNING AND DEVELOPMENT (Cont'd.)

A copy of the Property Tax Report Card prepared for the Annual District Meeting shall be submitted to the State Education Department in the manner prescribed by the Department by the end of the business day next following approval of the Property Tax Report Card by the Board of Education, but no later than twenty-four (24) days prior to the statewide uniform voting day (i.e., the third Tuesday in May).

The State Education Department shall compile such data for all school districts whose budgets are subject to a vote of the qualified voters, and shall make such compilation available electronically at least ten (10) days prior to the statewide uniform voting day.

Tax Exemption Report

A Tax Exemption Report shall be annexed to any tentative or preliminary budget and shall become part of the final budget. This report shall be on the form as prescribed by the State Board of Real Property Services and shall show the following:

- a) How much of the total assessed value of the final assessment roll(s) used in the budgetary process is exempt from taxation;
- b) Every type of exemption granted as identified by statutory authority;
- c) The cumulative impact of each type of exemption expressed either as a dollar amount of assessed value or as a percentage of the total assessed value on the roll;
- d) The cumulative amount expected to be received from recipients of each type of exemption as payments in lieu of taxes or other payments for municipal services; however, individual recipients are not to be named; and
- e) The cumulative impact of all exemptions granted.

Notice of this report shall be included in any notice of the preparation of the budget required by law and shall be posted on any bulletin board maintained by the District for public notices as well as on any website maintained by the District.

SUBJECT: BUDGET ADOPTION

The Board of Education shall review the recommended budget of the Superintendent of Schools and shall seek public input and feedback regarding the recommended budget including, but not limited to, holding a public budget hearing not less than seven (7) nor more than fourteen (14) days prior to the Annual District Meeting and Election at which the budget vote is to occur. The Board may modify the recommended budget of the Superintendent prior to its submission to District voters. Final authorization of the proposed budget is dependent upon voter approval unless a contingency budget is adopted by the Board.

In the event the original proposed budget is not approved at the Annual District Meeting and Election, the Board may resubmit the original proposed budget or a revised budget for voter approval, or individual propositions may be placed before District voters, at a special meeting held on the third Tuesday of June. If the voters fail to approve the second budget submittal, or budget proposition(s), or if the Board elects not to put the proposed budget to a public vote a second time, the Board must adopt a contingency budget with a tax levy that is no greater than the prior year's levy.

The School District budget for any school year, or any part of such budget, or any proposition(s) involving the expenditure of money for that school year, shall not be submitted for a vote of the qualified District voters more than twice.

- b) Under his/her direction the District shall maintain such records of accounting control as are required by the New York State Uniform System of Accounts for School Districts, the Board of Education, and such other procedures as are deemed necessary and shall keep the various operational units informed through periodic reports as to the status of their individual budgets.
- c) Board approval is required prior to the expenditure of District funds.

SUBJECT: CONTINGENCY BUDGET

The School District budget for any school year or any part of such budget, or any proposition involving the expenditure of money for such school year, shall not be submitted for a vote of the qualified voters of the District more than twice in any school year.

If the original proposed budget is not approved by District voters at the Annual District Meeting and Election, the Board has the option of either resubmitting the original or revised budget for voter approval at a special meeting held at a later date; or the Board may, at that point, adopt a contingency budget. If the Board decides to submit either the original or a revised budget to the voters for a second time, and the voters do not approve the second budget submittal, the Board must adopt a contingency budget and the tax levy cannot exceed the total tax levy of the prior year (0% levy growth).

The administrative component of the contingency budget shall not comprise a greater percentage of the contingency budget exclusive of the capital component than the lesser of:

- a) The percentage the administrative component had comprised in the prior year budget exclusive of the capital component; or

- a) Investments shall be made in a manner so as to safeguard the funds of the School District.
- b) Bank deposits shall be made in a manner so as to safeguard the funds of the School District.
- c) Investments shall be sufficiently liquid so as to allow funds to be available as needed to meet the obligations of the School District.
- d) Funds shall be invested in such a way as to earn the maximum yield possible given the first three (3) investment objectives.

Authorization

The authority to deposit and invest funds is delegated to the School Business Manager. These functions shall be performed in accordance with the applicable sections of the General Municipal Law and the Local Finance Law of the State of New York.

The School Business Manager may invest funds in the following eligible investments:

- a) Obligations of the State of New York.
- b) Obligations of the United States Government, or any obligations for which principal and interest are fully guaranteed by the United States Government.
- c) Time Deposit Accounts placed in a commercial bank authorized to do business in the State of New York, providing the account is collateralized as required by law. SUBJECT: ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE SCHOOL DISTRICT

The Board may accept gifts, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the School District, provided that such acceptance is in accordance with existing laws and regulations. However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District.

The Board of Education will not formally consider the acceptance of gifts or grants until and unless it receives the offer in writing from the donor/grantor. Any such gifts or grants donated to the Board and accepted on behalf of the School District must be by official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent of Schools to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with School District funds.

Gifts and/or grants of money to the District shall be annually accounted for under the trust and agency account in the bank designated by the Board of Education.

All gifts, grants and/or bequests shall become School District property. A letter of appreciation, signed by the President of the Board and the Superintendent, may be sent to a donor/grantor in recognition of his/her contribution to the School District.

Gift Giving

The Board of Education recognizes that gift giving, especially during the holiday season, may be a common practice for many District employees. While the giving or exchanging of gifts may be acceptable among staff members, the Board strongly encourages District employees and students to show appreciation through written notes or greeting cards.

The Board of Education authorizes the Purchasing Agent to expend school funds as appropriated by approved operational and capital budgets, and by the adoption of special resolutions. He/she will make expenditures in accordance with applicable law and in a manner that will achieve the maximum benefit from each dollar expended.

All claims shall be properly audited before payment by the Claims Auditor who shall attest to the existence of evidence of indebtedness to support the claim.

Complete records of all expenditures shall be maintained for future analysis and reporting within the time frame required by the Records Disposition Law or regulation.

Adopted: 6/19/14

SUBJECT: USE OF THE DISTRICT CREDIT CARD

The School District may issue a credit card or cards in its name for the use of its officers and designated employees for authorized, reimbursable, school business related expenses. The maximum credit limit on each card shall be as designated by the Board of Education. However, authorized personnel must submit purchase orders for those school business related expenses, such as tuition charges for attendance at conferences, travel expenses, and lodging, where costs may be fairly and accurately estimated prior to the actual incurring of expenses.

Only those officers and District personnel designated by the Board of Education shall be authorized for the use of a District credit card.

Expenses incurred on each credit card shall be paid in such a manner as to avoid interest charges. The credit card(s) shall be locked in a secure place in the Superintendent's Office.

SUBJECT: REIMBURSEMENT FOR MEALS/REFRESHMENTS**Travel Outside of District/Emergency Meetings**

School District officials and employees are entitled to reimbursement for necessary expenses incurred in the performance of their official duties. However, it is the position of the New York State Comptroller's Office that meals of public officers and employees generally should not be reimbursed or paid by the District unless the officer or employee is traveling outside his/her regular work area on official business for an extended period of time, or where events prevent them from taking off during mealtime for food consumption because of a pressing need to complete business. All requests for reimbursement must document who attended the meetings and how the meetings fit these conditions.

Staff/Board Meetings and District Events

However, the Board of Education recognizes that at certain times it may be appropriate to provide meals and/or refreshments at District meetings and/or events which are being held for an educational purpose. Prior approval of the Superintendent/designee must be obtained for food and beverages provided at meetings or activities which will be charged to the District.

Any such expenditures must be appropriately documented with an itemized receipt and information showing the date and purpose of the meeting, food served, who attended the meetings and why the attendees needed food and/or refreshments to conduct School District business. These requirements must be met for meals/refreshments provided by the school lunch fund or local vendors, charged to District credit cards and/or reimbursed to a School District official.

In no case will the costs for meals exceed the current Federal per diem meal rates for the geographic area.

Adopted: 6/19/14

SUBJECT: PURCHASING

The District's purchasing activities will be part of the responsibilities of the Business Office, under the general supervision of the Purchasing Agent designated by the Board of Education. The purchasing process should enhance school operations and educational programs through the procurement of goods and services deemed necessary to meet District needs.

Competitive Bids and Quotations

As required by law, the Superintendent will follow normal bidding procedures in all cases where needed quantities of like items will total the maximum level allowed by law during the fiscal year, (similarly for public works-construction, repair, etc.) and in such other cases that seem to be to the financial advantage of the School District.

A bid bond may be required if considered advisable.

No bid for supplies shall be accepted that does not conform to specifications furnished unless specifications are waived by Board action. Contracts shall be awarded to the lowest responsible bidder who meets specifications. However, the Board may choose to reject any bid.

Rules shall be developed by the administration for the competitive purchasing of goods and services.

The Superintendent may authorize purchases within the approved budget without bidding if required by emergencies and are legally permitted.

The Superintendent is authorized to enter into cooperative bidding for various needs of the School District.

Request for Proposal Process for the Independent Auditor

In accordance with law, no audit engagement shall be for a term longer than five (5) consecutive years. The District may, however, permit an independent auditor engaged under an existing contract for such services to submit a proposal for such services in response to a request for competitive proposals or be awarded a contract to provide such services under a request for proposal process.

Procurement of Goods and Services

The Board of Education recognizes its responsibility to ensure the development of procedures for the procurement of goods and services not required by law to be made pursuant to competitive bidding requirements. These goods and services must be procured in a manner so as to:

- a) Assure the prudent and economical use of public moneys in the best interest of the taxpayer;

(Continued)

SUBJECT: PURCHASING (Cont'd.)

- b) Facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances; and
- c) Guard against favoritism, improvidence, extravagance, fraud and corruption.

These procedures shall contain, at a minimum, provisions which:

- a) Prescribe a process for determining whether a procurement of goods and services is subject to competitive bidding and if it is not, documenting the basis for such determination;
- b) With certain exceptions (purchases pursuant to General Municipal Law, Article 5-A; State Finance Law, Section 162; State Correction Law, Section 184; or those circumstances or types of procurements set forth in (f) of this section), provide that alternative proposals or quotations for goods and services shall be secured by use of written request for proposals, written quotations, verbal quotations or any other method of procurement which furthers the purposes of General Municipal Law Section 104-b;
- c) Set forth when each method of procurement will be utilized;
- d) Require adequate documentation of actions taken with each method of procurement;
- e) Require justification and documentation of any contract awarded to other than the lowest responsible dollar offer, stating the reasons;
- f) Set forth any circumstances when, or the types of procurement for which, the solicitation of alternative proposals or quotations will not be in the best interest of the District; and
- g) Identify the individual or individuals responsible for purchasing and their respective titles. Such information shall be updated biennially.

Any unintentional failure to fully comply with these provisions shall not be grounds to void action taken or give rise to a cause of action against the District or any District employee.

The Board of Education shall solicit comments concerning the District's policies and procedures from those employees involved in the procurement process. All policies and procedures regarding the procurement of goods and services shall be reviewed annually by the Board.

Best Value

Effective January 27, 2012, General Municipal Law (GML) Section 103 was amended to permit a school district or BOCES to award purchase contracts in excess of \$20,000 on the basis of "best value", rather than on the basis of the lowest responsible bid. The Board of Education must adopt a

(Continued)

SUBJECT: PURCHASING (Cont'd.)

resolution at a public meeting authorizing the award of bids based on "best value." The Board of Education may also approve "best value" bid award recommendations on an individual bid basis at a scheduled public meeting. A best value award is one that optimizes quality, cost and efficiency, typically applies to complex services and technology contracts, and is quantifiable whenever possible.

"Piggybacking" Law - Exception to Competitive Bidding

On August 1, 2012, General Municipal Law (GML) Section 103 was amended to allow school districts to purchase certain goods and services (apparatus, materials, equipment and supplies) through the use of contracts let by the United States or any agency thereof, any state, and any county, political subdivision or district of any state. The amendment authorizes school districts and BOCES to "piggyback" on contracts let by outside governmental agencies in a manner that constitutes competitive bidding "consistent with state law."

This "piggybacking" is permitted on contracts issued by other governmental entities, provided that the original contract:

- a) Has been let by the United States or any agency thereof, any state (including New York State) or any other political subdivision or district therein;
- b) Was made available for use by other governmental entities and agreeable with the contract holder; and
- c) Was let in a manner that constitutes competitive bidding consistent with New York State law and is not in conflict with other New York State laws.

The "piggybacking" amendment and the "best value" amendment may not be combined to authorize a municipality to "piggyback" onto a cooperative contract which was awarded on the basis of "best value." In other words, while a school district or BOCES may authorize the award of contracts on the basis of "best value", it may not "piggyback" onto a purchasing contract awarded by another agency on the basis of "best value."

Alternative Formats for Instructional Materials

Preference in the purchase of instructional materials will be given to vendors who agree to provide materials in a usable alternative format (i.e., any medium or format, other than a traditional print textbook, for presentation of instructional materials that is needed as an accommodation for each student with a disability, including students requiring Section 504 Accommodation Plans, enrolled in the School District). Alternative formats include, but are not limited to, Braille, large print, open and closed captioned, audio, or an electronic file in an approved format as defined in Commissioner's Regulations.

(Continued)

SUBJECT: PURCHASING (Cont'd.)

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. Each school district has the option of participating in the National Instructional Materials Access Center (NIMAC). Whether a district does or does not participate in NIMAC, the district will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards. The New York State Education Department (NYSED) recommends that school districts choose to participate in NIMAC, because this national effort to centralize the distribution of instructional materials in alternate formats will help guarantee timely provision of such materials to students.

For school districts, Boards of Cooperative Educational Services (BOCES), State-operated schools, State-supported schools and approved private schools that choose to participate in NIMAC, contracts with publishers executed on and after December 3, 2006 for textbooks and other printed core materials must include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

For more information regarding NIMAC including model contract language, Steps for Coordinating with NIMAC and an IDEA Part B Assurances Application, see website: <http://www.vesid.nysed.gov/specialed/publications/persprep/NIMAS.pdf>

Geographic Preference in Procuring Local Agricultural Products

Schools participating in Child Nutrition Programs such as the National School Lunch Program, School Breakfast Program and/or Special Milk Program are encouraged to purchase unprocessed locally grown and locally raised agricultural products. A school district may apply an optional geographic preference in the procurement of such products by defining the local area where this option will be applied. The intent of this preference is to supply wholesome unprocessed agricultural products that are fresh and delivered close to the source.

A geographic preference established for a specific area adds additional points or credits to bids received in response to a solicitation, but does not provide a set-aside for bidders located in a specific area, nor does it preclude a bidder from outside a specified geographic area from competing for and possibly being awarded a specific contract.

Computer Software Purchases

Software programs designated for use by students in conjunction with computers of the District shall meet the following criteria:

- a) A computer program which a student is required to use as a learning aid in a particular class; and

(Continued)

SUBJECT: PURCHASING (Cont'd.)

- b) Any content-based instructional materials in an electronic format that are aligned with State Standards which are accessed or delivered through the Internet and based on a subscription model. Such electronic format materials may include a variety of media assets and learning tools including video, audio, images, teacher guides, and student access capabilities as such terms are defined in Commissioner's Regulations.

Environmentally Sensitive Cleaning and Maintenance Products

In accordance with Commissioner's Regulations, State Finance Law and Education Law, effective with the 2006-2007 school year, the District shall follow guidelines, specifications and sample lists when purchasing cleaning and maintenance products for use in its facilities. Such facilities include any building or facility used for instructional purposes and the surrounding grounds or other sites used for playgrounds, athletics or other instruction.

Environmentally sensitive cleaning and maintenance products are those which minimize adverse impacts on health and the environment. Such products reduce as much as possible exposures of children and school staff to potentially harmful chemicals and substances used in the cleaning and maintenance of school facilities. The District shall identify and procure environmentally sensitive cleaning and maintenance products which are available in the form, function and utility generally used. Coordinated procurement of such products as specified by the Office of General Services (OGS) may be done through central state purchasing contracts to ensure that the District can procure these products on a competitive basis.

The District shall notify their personnel of the availability of such guidelines, specifications and sample product lists.

Apparel and Sports Equipment PurchasesCompetitive Bidding Purchases

The Board of Education will only accept bids from "responsible bidders." A determination that a bidder on a contract for the purchase of apparel or sports equipment, is not a "responsible bidder" shall be based upon either or both of the following considerations:

- a) The labor standards applicable to the manufacture of the apparel or sports equipment including, but not limited to, employee compensation, working conditions, employee rights to form unions, and the use of child labor; or
- b) The bidder's failure to provide information sufficient for the Board of Education to determine the labor standards applicable to the manufacture of the apparel or sports equipment.

(Continued)

SUBJECT: PURCHASING (Cont'd.)**Non-Competitive Bidding Purchases**

The Board's internal policies and procedures governing procurement of apparel or sports equipment, where such procurement is not required to be made pursuant to competitive bidding requirements, shall prohibit the purchase of apparel or sports equipment, from any vendor based upon either or both of the following considerations:

- a) The labor standards applicable to the manufacture of the apparel or sports equipment including, but not limited to, employee compensation, working conditions, employee rights to form unions, and the use of child labor; or
- b) The bidder's failure to provide information sufficient for the Board of Education to determine the labor standards applicable to the manufacture of the apparel or sports equipment.

Contracts for Goods and Services

No contracts for goods and services shall be made by individuals or organizations in the school that involve expenditures without first securing approval for such contract from the Purchasing Agent.

No Board member or employee of the School District shall have an interest in any contract entered into by the Board or the School District.

Upon the adoption of a resolution by a vote of at least three-fifths (3/5) of all Board members stating that for reasons of efficiency or economy there is need for standardization, purchase contracts for a particular type or kind of equipment, materials or supplies of more than twenty thousand dollars (\$20,000) may be awarded by the Board to the lowest responsible bidder furnishing the required security after advertisement for sealed bids in the manner provided in law.

Online banking will only take place on secure District computers located inside the Treasurer's or Business Office.

Electronic Transactions and Wire Transfers

At least two (2) individuals will be involved in each transaction. All extraclassroom activity funds shall be handled in accordance with the financial procedures illustrated by Finance Pamphlet No. 2, the Safeguarding, Accounting and Auditing of Extraclassroom Activity Funds, 2008, published by the New York State Education Department. All commitments and contracts shall be the sole responsibility of the extraclassroom activity club giving rise to the transaction, regardless of a change in advisors, membership or officers.

These include expenditures for administration, instruction, attendance, health services, student transportation services, plant operation and maintenance, fixed charges, and net expenditures to cover deficits for food services and student body activities.

The SEA shall not consider the following expenditures in determining an LEA's compliance with the maintenance of effort requirements:

The Fillmore Central School District's governance and control environment will include the following:

- a) The District's code of ethics addresses conflict of interest transactions with Board members and employees. Transactions that are less-than-arm's length are prohibited. Less-than-arm's length is a relationship between the District and employees or vendors who are related to District officials or Board members.

- k) The District requires all staff to take leave time during which time another staff member performs the duties of the staff on leave. Staff may also schedule transactions and other responsibilities to occur electronically before taking a leave.

The Board will review all audit recommendations developed by the Superintendent, in consultation with the Audit Committee, and respond appropriately. Audit reports and the accompanying management letters will be made available for public inspection. Notice of the availability of audit reports will be published in the District's official newspaper or one having general circulation in the District. General Municipal Law Section 33(2)(e) and 35(1)(2)

Adopted: 6/19/14

SUBJECT: ALLEGATIONS OF FRAUD**Reporting and Investigations of Allegations of Fraud**

All Board members and officers, District employees and third party consultants are required to abide by the District's policies, administrative regulations and procedures in the conduct of their duties. Further, all applicable federal and/or state laws and regulations must be adhered to in the course of District operations and practices. Any individual who has reason to believe that financial improprieties or wrongful conduct is occurring within the School System is to disclose such information according to the reporting procedures established by the District. The reporting procedures will follow the chain of command as established within the department or school building or as enumerated in the District's Organizational Chart. In the event that the allegations of financial improprieties/fraud and/or wrongful conduct concern the investigating official, the report shall be made to the next level of supervisory authority. If the chain of supervisory command is not sufficient to ensure impartial, independent investigation, allegations of financial improprieties/fraud and/or wrongful conduct will be reported as applicable, to the Internal Auditor (if available), or the External (Independent) Auditor, or the School Attorney, or the Board of Education. The District's prohibition of wrongful conduct, including fraud, will be publicized within the District as deemed appropriate; and written notification will be provided to all employees with fiscal accounting/oversight and/or financial duties including the handling of money.

Upon receipt of an allegation of financial improprieties/fraud and/or wrongful conduct, the Board or designated employee(s) will conduct a thorough investigation of the charges. However, even in the absence of a report of suspected wrongful conduct, if the District has knowledge of, or reason to know of, any occurrence of financial improprieties/fraud and/or wrongful conduct, the District will investigate such conduct promptly and thoroughly. To the extent possible, within legal constraints, all reports will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges and/or to notify law enforcement officials as warranted, and any disclosure will be provided on a "need to know" basis. Written records of the allegation, and resulting investigation and outcome will be maintained in accordance with law.

Based upon the results of this investigation, if the District determines that a school official has engaged in financial improprieties/fraudulent and/or wrongful actions, appropriate disciplinary measures will be applied, up to and including termination of employment, in accordance with legal guidelines, District policy and regulation, and any applicable collective bargaining agreement. Third parties who are found to have engaged in financial improprieties/fraud and/or wrongful conduct will be subject to appropriate sanctions as warranted and in compliance with law. *The application of such disciplinary measures by the District does not preclude the filing of civil and/or criminal charges as may be warranted. Rather, when school officials receive a complaint or report of alleged financial improprieties/fraud and/or wrongful conduct that may be criminal in nature, law authorities should be immediately notified.*

An appeal procedure will also be provided, as applicable, to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable investigating officer(s).

SUBJECT: ALLEGATIONS OF FRAUD (Cont'd.)**Protection of School Employees who Report Information Regarding Illegal or Inappropriate Financial Practices**

Any employee of the School District who has reasonable cause to believe that the fiscal practices or actions of an employee or officer of the District violates any local, state, federal law or rule and regulation relating to the financial practices of the District, and who in good faith reports such information to an official of the District, or to the Office of the State Comptroller, the Commissioner of Education, or to law enforcement authorities, shall have immunity from any civil liability that may arise from the making of such report. It is expected that the program shall include periodic preventive maintenance activities, long-range maintenance schedules and emergency repair procedures. It is further expected that all maintenance work will be carried out in a manner that will cause the least interference with the educational program.

Construction and Remodeling of School Facilities

All capital projects and maintenance must assure compliance with the requirements of the New York State Uniform Fire Prevention and Building Code, the Manual of Planning Standards and the Regulations of the Commissioner of Education. All new buildings must be formally submitted no matter the size or cost. SUBJECT: PEST MANAGEMENT AND PESTICIDE USE

The Board of Education is committed to maintaining the integrity of school buildings and grounds while protecting the health and safety of students and staff and maintaining a productive learning environment.

Structural and landscape pests can pose significant problems for people and property. Weeds and infestations can destroy playing fields and playgrounds and more importantly, cause severe allergic reactions. Pesticides can pose risks to people, property, and the environment. It is therefore the policy of the School District to incorporate Integrated Pest Management (IPM) procedures for control of weeds, structural and landscape pests. The objective of this program is to provide necessary pest control while using the least toxic approach to all pests, weeds and infestations.

Pest/Pesticide Management Plan

The District will manage weeds and pests to:

- a) Reduce any potential human health hazard or threat to public safety.
- b) Prevent loss or damage to school structures or property.
- c) Prevent pests from spreading into the community, or to plant and animal populations beyond the site.
- d) Enhance the quality of life for students, staff, and others.

Integrated Pest Management (IPM) Coordinator

An IPM Coordinator will be appointed by the Superintendent of Schools. The Coordinator will be responsible for implementing the IPM policy and plan. The Coordinator's responsibilities will include the following:

- a) Recording all pest sightings by school staff and students.
- b) Recording all pesticide use and utilizing the least toxic approach.
- c) Meeting with a local pest control expert, such as a pesticide contractor to share information on what pest problems are present in the school.
- d) Assuring that all of the expert's recommendations on maintenance and sanitation are carried out where feasible.

(Continued)

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE (Cont'd.)

- e) Assuring that pesticide use is done when school is not in session or when the area can be completely secured against access by school staff and students for a standard seventy-two (72) hours, or as required by the pesticide being used.
- f) Evaluating the school's progress in the IPM plan.
- g) Notifying parents, staff and neighbors of any applications of pesticides forty-eight (48) hours before they occur. The IPM Coordinator will serve as the District's Pesticide Representative.

Pesticide Use on Common Areas

Pesticides will not be used on playgrounds, turf, athletic or playing fields, in effect, all lawn areas of the school. In these common areas where children gather and play, pesticide alternatives will be used whenever possible and effective. The prohibition does not apply to indoor use or the application to building structures.

An exception may be made for emergency applications of pesticide only when approved in advance by the School Board. The Board may consult with the local Health Department on public health related emergency determinations. They may also consult with the Department of Environmental Conservation (DEC) for environmental emergency determinations. Emergency determinations should only be sought for one-time pesticide application in a specific situation, which presents a true emergency. The guidance document from DEC provides clarification on emergency determinations. It can be found at:

http://www.dec.ny.gov/docs/materials_minerals_pdf/guidancech85.pdf

Some types of pesticides and alternatives, those deemed safe in federal regulation, may be allowable on playing fields and playgrounds in certain circumstances. The District will develop regulations governing the use of pesticides and their alternatives on school grounds.

Fertilizer Use

New requirements and restrictions regarding the use of phosphorus fertilizers on school grounds have been developed. Chapter 205 of the Laws of 2010 dictates the requirements which must be adhered to regarding grounds maintenance starting on January 1, 2012:

- a) Fertilizer use is prohibited between December 1 and April 1 annually.
- b) The use of fertilizers is prohibited within twenty (20) feet of any surface water except:

(Continued)

SUBJECT: PEST MANAGEMENT AND PESTICIDE USE (Cont'd.)

1. Where a continuous natural vegetation buffer, at least ten (10) feet wide, separates lawn and water.
 2. Where a spreader guard, deflector shield or drop spreader is used, then the application may not occur within three (3) feet of any surface water.
- c) The use of phosphorus fertilizers are prohibited on lawns or other non-agricultural turf with the following exceptions:
1. The use of phosphorus fertilizers are needed to establish a new lawn; or
 2. A soil test shows that phosphorus fertilizers are needed for growth.
- d) Fertilizer cannot be used on any impervious surfaces and if such an application occurs, it must be cleaned immediately and legally applied or placed in an appropriate container.

Notification

The District's IPM Coordinator or designated Pesticide Representative will give prior written notice of all pesticide applications to anyone who has asked to receive such notice. The District will also notify parents, students and staff of periodic pesticide applications. The District will maintain a list of those people who wish to receive forty-eight (48) hour notice before pesticide applications and will ensure that a system is developed to deliver such notice in a timely fashion to all affected. The notification system may be by mail or email, and will ensure that a back-up method is available to notify those for whom the regular system is unworkable. The name and contact information for the District Pesticide Representative will be made available to all requesting it.

Sample forms for forty-eight (48) hour prior notification can be obtained at:

http://www.emsc.nysed.gov/facplan/documents/PesticideNeighborNotificationGuidelineforSchools_091001.pdf

The District must also provide additional written notification to all parents and staff three (3) times per year to inform them of any pesticide applications that have occurred: within ten (10) days of the end of the school year, within two (2) school days of the end of winter recess and within two (2) days of the end of spring recess.

Recordkeeping

Records of pesticide use will be maintained on site for three (3) years. Records will be completed on the day of pesticide use. In addition, pest surveillance records will be maintained to help verify the need for pesticide treatments. Annual reports of any applications must be sent to DEC.

SUBJECT: SMOKING/TOBACCO USE**School Grounds**

Tobacco use shall not be permitted and no person shall use tobacco on school grounds or within one hundred (100) feet of the entrances, exits, or outdoor areas of any public or private elementary or secondary schools. However, this shall not apply to smoking in a residence, or within the real property boundary lines of such residential real property. For purposes of this policy, "school grounds" means any building, structure, and surrounding outdoor grounds, including entrances or exits, contained within the District's preschool, nursery school, elementary or secondary school's legally defined property boundaries as registered in the County Clerk's Office; as well as all District vehicles, including vehicles used to transport children or school personnel.

For purposes of this policy, tobacco is defined to include any lighted or unlighted cigarette, cigar, cigarillo, pipe, bidi, clove cigarette, spit/spitless tobacco and any other smoking or tobacco product, (smokeless, dip, chew, snus and/or snuff) in any form.

The use of e-cigarettes and any other products containing nicotine, except for current FDA-approved smoking cessation products, are also prohibited.

Off-School Grounds

Tobacco use is prohibited by students at any school-sponsored event or activity off school grounds.

Posting/Notification of Policy

In compliance with the New York State Clean Indoor Air Act, the District will prominently post its Smoking/Tobacco Use policy and signs prohibiting **all** forms of tobacco products in District buildings and other appropriate locations; and will supply a copy upon request to any current or prospective employee. The District will also designate a school official to tell individuals who smoke in a non-smoking area that they are in violation of the New York State Public Health Law, Education Law, the federal Pro-Children Act of 1994 and District policy.

The District shall also ensure that this policy is communicated to staff, students, parents/guardians, volunteers, and visitors as deemed appropriate in order to orient all persons to the District's "No Smoking" Policy and environment.

Prohibition of Tobacco Promotional Items/Tobacco Advertising

Tobacco promotional items (e.g., brand names, logos and other identifiers) are prohibited:

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS

The Board of Education recognizes the importance of energy conservation and is committed to the analysis, development, and initiation of conservation measures throughout the District for the purpose of reducing energy consumption, particularly in these times of declining levels of natural energy resources and increasing cost of these resources. The Board maintains an aggressive and responsible program to reduce consumption of energy by its facilities and to provide education to both staff and students on the conservation of energy.

The District is committed to an energy conservation program that addresses not only capital-related energy projects but ongoing, day-to-day energy related issues as well. All staff are urged to participate actively in a program of energy conservation by assisting in the efforts to eliminate the wasteful use of energy in the operation of the District's buildings. Cooperation will be required of each employee and each student to achieve a meaningful energy conservation program that results in a more efficient use of energy resources. Involvement of staff and students is essential to a successful program of energy conservation.

Energy Manager

The Director of Facilities and Operations is designated as the Energy Manager of the District and he/she shall report directly to the Board of Education and the Superintendent, or their designee, on matters pertaining to energy conservation.

Energy Conservation Task Force

The Board of Education further directs the Superintendent to establish an energy conservation task force consisting of at least two (2) Board members, the Superintendent, the School Business Manager, the Director of Facilities and Operations, and such other individual(s) as may be deemed necessary. The duties of this task force will include, but are not limited to, the following:

- a) Analyzing the District's energy consumption patterns and cost data;
- b) Selecting and recommending to the Board an energy audit or technical assistance study to determine where the District can save;
- c) Consider financing energy improvements with an energy performance contract. A technical assistance study can evaluate a proposed performance contract before the District enters into an agreement;
- d) Consider cost savings from cooperative purchasing arrangements with other municipalities and school districts;
- e) Work with outside consultants and/or staff members to recommend and evaluate energy saving ideas including, but not limited to, technology power management, lighting changes, HVAC changes; and

(Continued)

SUBJECT: ENERGY CONSERVATION AND RECYCLING IN THE SCHOOLS (Cont'd.)

- f) Evaluate and make recommendations about the energy efficiency of District buildings through periodic building inspections and surveys.

Progress reports on the implementation of energy conservation measures will be made to the Board at least annually.

Minimum Indoor Air Temperature

The District will comply with the Property Maintenance Code of New York State, part of the New York State Uniform Fire Prevention and Building Code, which requires that indoor occupiable work spaces be maintained at a minimum temperature of sixty-five (65) degrees from September 14 to May 31 during the period the spaces are occupied. There are exceptions for areas of vigorous physical activities such as gymnasiums as well as processing spaces such as coolers or freezers. However, by law, code or regulation there is no maximum temperature specified. Ventilation requirements only require fresh air, not cool air-conditioning.

Long-Range Considerations

The energy conservation program is an important factor to be considered in planning effective use of school facilities, new construction, remodeling or rehabilitation programs, and modernization projects.

Recycling

The Board is committed to protecting and improving the environment by recycling commonly used materials, waste prevention strategies and purchasing recycled products when feasible. The Superintendent will create a task force charged with developing a program for the source separation and segregation of recyclable or reusable materials in the District. This District-wide recycling plan shall include:

- a) A conservation education program to teach students about their social responsibility for preserving our resources, and involvement of all students and personnel in a comprehensive effort to reduce, reuse and recycle waste materials;
- b) A concerted effort to purchase recycled and biodegradable items;
- c) Separation of waste into appropriate categories for the purposes of recycling; and
- d) A cooperative effort with community recycling programs.

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST)**School Food Service Program (Lunch and Breakfast)**

The Board has entered into an agreement with the New York State Education Department to participate in the National School Lunch Program, School Breakfast Program and/or Special Milk Program to receive commodities donated by the Department of Agriculture and to accept responsibility for providing free and reduced price meals to elementary and secondary students in the schools of the District.

The Superintendent or his/her designee shall have the responsibility to carry out the rules of the School Lunch and Breakfast Programs. The determination of which students are eligible is the responsibility of the Reviewing Official and Verification Official or of the Office of Temporary and Disability Assistance of the Department of Social Services. Appeals regarding eligibility should be submitted to the Hearing Official of the District.

Free or reduced price meals may be allowed for qualifying students attending District schools upon receipt of a written application from the student's parent or guardian or a "Direct Certification" letter from the New York State Office of Temporary and Disability Assistance (OTDA). Applications will be provided by the School District to all families.

School officials must also determine eligibility for free/reduced meals and milk by using the Direct Certification Matching Process, a dataset supplied by the Office of Temporary and Disability Assistance, and made available by the State Education Department. Any student receiving federal assistance through Supplemental Nutrition Assistance Program (SNAP) or Temporary Assistance to Needy Families (TANF) is automatically eligible for free meals and milk. There is no need for families to complete further applications. School Districts shall notify parents or guardians of such eligibility, giving them the opportunity to decline free meals and milk if they so choose.

Procedures for the administration of the free and reduced price meal program of this School District will be the same as those prescribed in current state and federal laws and regulations.

Child Nutrition Program/Charging Meals

Although not required by law, because of the District's participation in the Child Nutrition Program, the Board of Education approves the establishment of a system to allow a student to charge a meal. The Board authorizes the Superintendent to develop rules which address:

- a) What can be charged;
- b) The limit on the number of charges per student;
- c) The system used for identifying and recording charged meals;

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

- d) The system used for collection of repayments; and
- e) Ongoing communication of the policy to parents and students.

Restriction of Sweetened Foods in School

The sale of sweetened foods will be prohibited from the beginning of the school day until the end of the last scheduled meal period.

Sweetened foods consist of sweetened soda water, chewing gum, candy, including hard candy, jellies, gum, marshmallow candies, fondant, licorice, spun candy, candy coated popcorn, and water ices except those which contain fruit or fruit juices.

Restrictions on Sale of Milk Prohibited

Schools that participate in the National School Lunch Program may not directly or indirectly restrict the sale or marketing of fluid milk products at any time or in any place on school premises or at school-sponsored events.

Food Substitutions for Children with Disabilities

Federal regulations governing the operation of Child Nutrition Programs, Part B of the Individuals with Disabilities Education Act, and Section 504 of the Rehabilitation Act of 1973 require that children with disabilities be offered the opportunity to participate in all academic and nonacademic activities including the school nutrition programs. The District will make reasonable accommodations to those children with disabilities whose disabilities restrict their diets, such as providing substitutions and/or modifications in the regular meal patterns. Such meal substitutions for students with disabilities will be offered at no extra charge. A student with a disability must be provided substitutions in food when that need is supported by a statement signed by a physician attesting to the need for the substitutions and recommending alternate foods.

However, the school food service is not required to provide meal services (for example, School Breakfast Program) to students with disabilities when the meal service is not normally available to the general student body, unless a meal service is required under the student's individualized education program (IEP) or Section 504 Accommodation Plan as mandated by a physician's written instructions.

Food Substitutions for Nondisabled Children

Though not required, the District will also allow substitutions for non-disabled children who are unable to consume the regular meal because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority.

(Continued)

SUBJECT: SCHOOL FOOD SERVICE PROGRAM (LUNCH AND BREAKFAST) (Cont'd.)

The District may also allow substitutions for fluid milk with a non-dairy beverage that is nutritionally equivalent (as established by the Secretary of Agriculture) to fluid milk and meets nutritional standards for students who are unable to consume fluid milk because of medical or other special dietary needs if the request is supported by a statement signed by a recognized medical authority or by the student's parent/legal guardian.

Prohibition Against Adults Charging Meals

Adults should pay for their meals at the time of service or set up pre-paid accounts.

HACCP-Based Food Safety Program

Schools participating in the National School Lunch and/or School Breakfast programs are required to implement a food safety program based on Hazard Analysis and Critical Control Point (HACCP) principles. The District must develop a written food safety program for each of its food preparation and service facilities that is based on *either* traditional HACCP principles *or* the "Process Approach" to HACCP. (The "Process Approach" simplifies traditional HACCP by grouping foods according to preparation process and applying the same control measures to all menu items within the group, rather than developing an HACCP plan for each item.) Regardless of the implementation option that is selected, the District's written food safety program must also include: critical control points and critical limits; monitoring procedures; corrective actions; verification procedures; recordkeeping requirements; and periodic review and food safety program revision.

SUBJECT: DISTRICT WELLNESS POLICY**Introduction**

- a) Children need access to healthful foods and opportunities to be physically active in order to grow, learn, and thrive;
- b) Good health fosters student attendance and education;
- c) Obesity rates have doubled in children and tripled in adolescents over the last two (2) decades, and physical inactivity and excessive calorie intake are the predominant causes of obesity;
- d) Heart disease, cancer, stroke, and diabetes are responsible for two-thirds (2/3) of deaths in the United States, and major risk factors for those diseases, including unhealthy eating habits, physical inactivity, and obesity, often are established in childhood;
- e) Thirty-three percent (33%) of high school students do not participate in sufficient vigorous physical activity and seventy-two percent (72%) of high school students do not attend daily physical education classes;
- f) Only two percent (2%) of children two (2) to nineteen (19) years eat a healthy diet consistent with the five (5) main recommendations from the Food Guide Pyramid;
- g) Nationally, the items most commonly sold from school vending machines, school stores, and snack bars include low-nutrition foods and beverages, such as soda, sports drinks, imitation fruit juices, chips, candy, cookies, and snack cakes;
- h) School districts around the country are facing significant fiscal and scheduling constraints; and
- i) Community participation is essential to the development and implementation of successful school wellness policies.

Thus, the Fillmore School District is committed to providing school environments that promote and protect children's health, well-being, and ability to learn by supporting healthy eating and physical activity. Therefore, it is the policy of the Fillmore School District that:

- a) Fillmore will engage students, parents, teachers, food service professionals, health professionals, and other interested community members in developing, implementing, monitoring, and reviewing District-wide nutrition and physical activity policies.
- b) All students in grades K through 12 will have opportunities, support, and encouragement to be physically active on a regular basis.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)

- c) Foods and beverages sold or served at school will meet the nutrition recommendations of the U. S. Dietary Guidelines for Americans.
- d) Qualified child nutrition professionals will provide students with access to a variety of affordable, nutritious, and appealing foods that meet the health and nutrition needs of students; will accommodate the religious, ethnic, and cultural diversity of the student body in meal planning; and will provide clean, safe, and pleasant settings and adequate time for students to eat.
- e) Fillmore Central will participate in available federal school meal programs (including the School Breakfast Program, National School Lunch Program).
- f) Fillmore will provide nutrition education and physical education to foster lifelong habits of healthy eating and physical activity, and will establish linkages between health education and school meal programs, and with related community services.

School Health Councils

Fillmore Central will create, strengthen, or work within existing school health councils to develop, implement, monitor, review, and, as necessary, revise school nutrition and physical activity policies. The council will serve as resources to school sites for implementing those policies. (A school health council consists of a group of individuals representing the school and community, and should include parents, students, representatives of the school food authority, members of the School Board, school administrators, teachers, health professionals, and members of the public.)

Nutritional Quality of Foods and Beverages Sold and Served on CampusSchool Meals

- a) Meals served through the National School Lunch and Breakfast Programs will meet the state and federal nutrition guidelines for breakfast and lunch.
- b) Fillmore will operate the School Breakfast Program.
- c) Fillmore will arrange bus schedules and utilize methods to serve school breakfasts that encourage participation, including serving breakfast in the classroom, "grab-and-go" breakfast, or breakfast during morning break or recess.
- d) Fillmore will notify parents and students of the availability of the school breakfast program.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)Free and Reduced-Priced Meals

Fillmore Central will make every effort to eliminate any social stigma attached to, and prevent the overt identification of, students who are eligible for free and reduced-price school meals.* Toward this end, the District will utilize electronic identification and payment systems; provide meals at no charge to all children, regardless of income; promote the availability of school meals to all students; and/or use nontraditional methods for serving school meals, such as "grab-and-go" or classroom breakfast.

Meal Times and Scheduling

Fillmore Central:

- a) Will provide students with at least ten (10) minutes to eat after sitting down for breakfast and twenty (20) minutes after sitting down for lunch;
- b) Should not schedule tutoring, club, or organizational meetings or activities during mealtimes, unless students may eat during such activities;
- c) Will provide students access to hand washing or hand sanitizing before they eat meals or snacks; and
- d) Should take reasonable steps to accommodate the tooth-brushing regimens of students with special oral health needs (e.g., orthodontia or high tooth decay risk).

Qualifications of School Food Service Staff

Qualified nutrition professionals will administer the school meal programs. As part of the School District's responsibility to operate a food service program, we will provide continuing professional development for all nutrition professionals in schools. Staff development programs should include appropriate certification and/or training programs for child nutrition directors, school nutrition managers, and cafeteria workers, according to their levels of responsibility.**

* It is against the law to make others in the cafeteria aware of the eligibility status of children for free, reduced-price, or "paid" meals.

** School nutrition staff development programs are available through the USDA, School Nutrition Association, and National Food Service Management Institute.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)Sharing of Foods and Beverages

Schools should discourage students from sharing their foods or beverages with one another during meal or snack times, given concerns about allergies and other restrictions on some children's diets.

Foods and Beverages Sold Individually (i.e., foods sold outside of reimbursable school meals, such as through vending machines, cafeteria a la carte [snack] lines, fundraisers, school stores, etc.)

a) Elementary School

The school food service program will approve and provide all food and beverage sales to students in elementary schools. Given young children's limited nutrition skills, food in elementary schools should be sold as balanced meals. If available, foods and beverages sold individually should be limited to low-fat and non-fat milk, fruits, and non-fried vegetables.

b) Middle/Junior High and High School

In middle/junior high and high schools, all foods and beverages sold individually outside the reimbursable school meal programs (including those sold through a la carte [snack] lines, vending machines, student stores, or fundraising activities) during the school day, or through programs for students after the school day, will meet the nutrition and portion size standards.

c) Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and water as the primary beverage. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The District will disseminate a list of healthful snack items to teachers, after-school program personnel, and parents.

1. If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.
2. Cookies historically sold at Fillmore Central will not be available to students in grades K through 4 before lunch.
3. Snacks available through the school store will only be available after lunch for all students.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)Rewards

A variety of rewards will be available to students at Fillmore. Food or beverages (including food served through school meals) will not be withheld as a punishment.

Fund Raisers

To support children's health and school nutrition-education efforts, Fillmore will encourage fundraising activities that promote physical activity.

Nutrition and Physical Activity Promotion and Food MarketingNutrition Education and Promotion

Fillmore School District aims to teach, encourage, and support healthy eating by students. Schools should provide nutrition education and engage in nutrition promotion that:

- a) Is offered at each grade level as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- b) Is part of not only health education classes, but also classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects;
- c) Includes enjoyable, developmentally-appropriate, culturally-relevant, participatory activities, such as contests, promotions, taste testing, farm visits, and school gardens;
- d) Promotes fruits, vegetables, whole grain products, low-fat and fat-free dairy products, healthy food preparation methods, and health-enhancing nutrition practices;
- e) Emphasizes caloric balance between food intake and energy expenditure (physical activity/exercise); and
- f) Links with school meal programs, other school foods, and nutrition-related community services; teaches media literacy with an emphasis on food marketing; and includes training for teachers and other staff.

Integrating Physical Activity into the Classroom Setting

For students to receive the nationally-recommended amount of daily physical activity (i.e., at least sixty [60] minutes per day) and for students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)

Toward that end:

- a) Classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- b) Opportunities for physical activity will be incorporated into other subject lessons; and
- c) Classroom teachers will provide short physical activity breaks between lessons or classes, as appropriate.

Communications with Parents

Fillmore Central will support parents' efforts to provide a healthy diet and daily physical activity for their children. Schools should encourage parents to pack healthy lunches and snacks and to refrain from including beverages and foods that do not meet the above nutrition standards for individual foods and beverages. In addition, the District will provide opportunities for parents to share their healthy food practices with others in the school community.

The District will provide information about physical education and other school-based physical activity opportunities before, during, and after the school day; and support parents' efforts to provide their children with opportunities to be physically active outside of school.

Food Marketing in Schools

School-based marketing will be consistent with nutrition education and health promotion. As such, schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (above).^{*} School-based marketing of brands promoting predominantly low-nutrition foods and beverages^{**} is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

^{*}Advertising of low-nutrition foods and beverages is permitted in supplementary classroom and library materials, such as newspapers, magazines, the Internet, and similar media, when such materials are used in a class lesson or activity, or as a research tool.

^{**}Schools should not permit general brand marketing for food brands under which more than half of the foods or beverages do not meet the nutrition standards for foods sold individually or the meals are not consistent with school meal nutrition standards.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)Staff Wellness

The Fillmore School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. Fillmore will establish and maintain a staff wellness committee composed of at least one staff member, school health council member, dietitian or other health professional, recreation program representative, union representative, and employee benefits specialist. (The staff wellness committee could be a subcommittee of the school health council.) The committee should develop, promote, and oversee a multifaceted plan to promote staff health and wellness. The plan should be based on input solicited from school staff and should outline ways to encourage healthy eating, physical activity, and other elements of a healthy lifestyle among school staff. The staff wellness committee should distribute its plan to the school health council annually.

Physical Activity Opportunities and Physical EducationDaily Recess

All elementary school students will have at least twenty (20) minutes of supervised recess three (3) out of every five (5) days of school, preferably outdoors, during which schools should encourage moderate to vigorous physical activity verbally and through the provision of space and equipment.

Schools should discourage extended periods (i.e., periods of two (2) or more hours) of inactivity. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

Physical Activity Opportunities Before and After School

All elementary, middle, and high schools will offer extracurricular physical activity programs, such as physical activity clubs or intramural programs. All high schools, and middle schools as appropriate, will offer interscholastic sports programs. Schools will offer a range of activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

Physical Activity and Punishment

Teachers and other school and community personnel will not use physical activity (e.g., running laps, pushups) or withhold opportunities for physical activity (e.g., recess, physical education) as punishment.

(Continued)

SUBJECT: DISTRICT WELLNESS POLICY (Cont'd.)Safe Routes to School

The School District will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk and bike to school. When appropriate, the District will work together with local public works, public safety, and/or police departments in those efforts. The School District will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements. The School District will encourage students to use public transportation when available and appropriate for travel to school, and will work with the local transit agency to provide transit passes for students.

Use of School Facilities Outside of School Hours

School spaces and facilities should be available to students, staff, and community members before, during, and after the school day, on weekends, and during school vacations. These spaces and facilities also should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Monitoring and Policy ReviewMonitoring

The Superintendent or designee will ensure compliance with established District-wide nutrition and physical activity wellness policies.

School food service staff, at the school or District level, will ensure compliance with nutrition policies within school food service areas and will report on this matter to the Superintendent (or if done at the school level, to the School Principal). In addition, the School District will report on the most recent USDA School Meals Initiative (SMI) review findings and any resulting changes. If the District has not received a SMI review from the state agency within the past five (5) years, the District will request from the state agency that a SMI review be scheduled as soon as possible.

Policy Review

The Wellness policy will be reviewed every three (3) years to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, the School District will review our nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The District, and individual schools within the district, will, as necessary, revise the wellness policies and develop work plans to facilitate their implementation.

A Records Management Officer shall be designated by the Superintendent, subject to the approval of the Board of Education. Such Records Management Officer shall coordinate the development of and oversee a program for the orderly and efficient management of records, including the legal disposition or destruction of obsolete records, and shall be given the authority and responsibility to work with other local officials at all levels in the development and maintenance of the records management program.

In addition, a Records Advisory Board may be created to assist in establishing and supporting the records management program. The District's legal counsel, the fiscal officer, and the Superintendent/designee may comprise the Advisory Board.

Retention and Disposition of Records

The Superintendent shall retain records for such a period and dispose of them in the manner described in Records Retention and Disposition Schedule ED-1, established pursuant to Part 185, Title VIII of the Official Compilation of Codes, Rules and Regulations of the State of New York and Article 57-A of the Arts and Cultural Affairs Law.

Arts and Cultural Affairs Law Section 57.19
8 NYCRR Part 185

Adopted: 6/19/14

SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS

In accordance with the Federal Trade Commission's (FTC) "Disposal Rule," and in an effort to protect the privacy of consumer information, reduce the risk of fraud and identity theft, and guard against unauthorized access to or use of the information, the School District will take appropriate measures to properly dispose of sensitive information (i.e., personal identifiers) contained in or derived from consumer reports and records. Any employer who uses or possesses consumer information for a business purpose is subject to the Disposal Rule. According to the FTC, the standard for proper disposal of information derived from a consumer report is flexible, and allows the District to determine what measures are reasonable based on the sensitivity of the information, the costs and benefits of different disposal methods, and changes in technology.

The term "*consumer report*" shall include information obtained from a consumer reporting company that is used - or expected to be used - in establishing a consumer's eligibility for employment or insurance, among other purposes. The term "*employment purposes*" when used in connection with a consumer report means a report used for the purpose of evaluating a consumer for employment, promotion, reassignment or retention as an employee.

The FTC Disposal Rule defines "*consumer information*" as "any record about an individual, whether in paper, electronic, or other form, that is a consumer report or is derived from a consumer report. Consumer information also means a compilation of such records. Consumer information does not include information that does not identify individuals, such as aggregate information or blind data."

Information Covered by the Disposal Rule

The FTC has not included a rigid definition of the kinds of information that would be considered to identify particular individuals. In accordance with FTC guidance, there are a variety of personal identifiers beyond simply a person's name that would bring information within the scope of the Disposal Rule, including, but not limited to, a social security number, driver's license number, phone number, physical address, and email address. Depending upon the circumstances, data elements that are not inherently identifying can, in combination, identify particular individuals.

"Proper" Disposal

The FTC Disposal Rule defines "*dispose*," "*disposing*," or "*disposal*," as:

- a) "The discarding or abandonment of consumer information," or
- b) "The sale, donation, or transfer of any medium, including computer equipment, upon which consumer information is stored."

(Continued)

**SUBJECT: DISPOSAL OF CONSUMER REPORT INFORMATION AND RECORDS
(Cont'd.)**

The District will utilize disposal practices that are reasonable and appropriate to prevent the unauthorized access to - or use of - information contained in or derived from consumer reports and records. Reasonable measures to protect against unauthorized access to or use of consumer information in connection with District disposal include the following examples. These examples are not exclusive or exhaustive methods for complying with the Disposal Rule.

- a) Burning, pulverizing, or shredding of papers containing consumer information so that the information cannot practicably be read or reconstructed.
- b) Destroying or erasing electronic media containing consumer information so that the information cannot practicably be read or reconstructed.
- c) After due diligence, entering into and monitoring compliance with a contract with another party engaged in the business of record destruction to dispose of material, specifically identified as consumer information, in a manner consistent with the Disposal Rule. In this context, due diligence could include:
 1. Reviewing an independent audit of the disposal company's operations and/or its compliance with the Disposal Rule;
 2. Obtaining information about the disposal company from several references or other reliable sources;
 3. Requiring that the disposal company be certified by a recognized trade association or similar third party;
 4. Reviewing and evaluating the disposal company's information security policies or procedures;
 5. Taking other appropriate measures to determine the competency and integrity of the potential disposal company; or
 6. Requiring that the disposal company have a certificate of registration from the New York Department of State issued on or after October 1, 2008.
- d) For persons (as defined in accordance with the Fair Credit Reporting Act) or entities who maintain or otherwise possess consumer information through their provision of services directly to a person subject to the Disposal Rule, monitoring compliance with policies and procedures that protect against unauthorized or unintentional disposal of consumer information, and disposing of such information in accordance with examples a) and b) above.

Implementation of Practices and Procedures

The Board delegates to the Superintendent/designee(s) the authority and responsibility to review current practices regarding the disposal of consumer information; and to implement such further reasonable and appropriate procedures, including staff training as necessary, to ensure compliance with the FTC's Disposal Rule.

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION

The School District values the protection of private information of individuals in accordance with applicable law and regulations. Further, the District is required to notify affected individuals when there has been or is reasonably believed to have been a compromise of the individual's *private information* in compliance with the Information Security Breach and Notification Act and Board policy.

a) "*Private information*" shall mean ****personal information** in combination with any one (1) or more of the following data elements, when either the personal information or the data element is not encrypted or encrypted with an encryption key that has also been acquired:

1. Social security number;
2. Driver's license number or non-driver identification card number; or
3. Account number, credit or debit card number, in combination with any required security code, access code, or password which would permit access to an individual's financial account.

"*Private information*" does not include publicly available information that is lawfully made available to the general public from federal, state or local government records.

****"Personal information"** shall mean any information concerning a person which, because of name, number, symbol, mark or other identifier, can be used to identify that person.

b) "*Breach of the security of the system,*" shall mean unauthorized acquisition or acquisition without valid authorization of computerized data which compromises the security, confidentiality, or integrity of personal information maintained by the District. Good faith acquisition of personal information by an employee or agent of the District for the purposes of the District is not a breach of the security of the system, provided that private information is not used or subject to unauthorized disclosure.

Examples of Determining Factors

In determining whether information has been acquired, or is reasonably believed to have been acquired, by an unauthorized person or person without valid authorization, the District may consider the following factors, among others:

- a) Indications that the information is in the physical possession and control of an unauthorized person, such as a lost or stolen computer or other device containing information; or

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

- c) Indications that the information was used by an unauthorized person, such as fraudulent accounts opened or instances of identity theft reported.

Notification Requirements

- a) For any computerized data owned or licensed by the School District that includes private information, the District shall disclose any breach of the security of the system following discovery or notification of the breach to any New York State resident whose private information was, or is reasonably believed to have been, acquired by a person without valid authorization. The disclosure to affected individuals shall be made in the most expedient time possible and without unreasonable delay, consistent with the legitimate needs of law enforcement, or any measures necessary to determine the scope of the breach and restore the reasonable integrity of the data system. The District shall consult with the State Office of Cyber Security and Critical Infrastructure Coordination (CSCIC) to determine the scope of the breach and restoration measures.
- b) For any computerized data maintained by the District that includes private information which the District does not own, the District shall notify the owner or licensee of the information of any breach of the security of the system immediately following discovery, if the private information was, or is reasonably believed to have been, acquired by a person without valid authorization.

The notification requirement may be delayed if a law enforcement agency determines that such notification impedes a criminal investigation. The required notification shall be made after the law enforcement agency determines that such notification does not compromise the investigation.

Methods of Notification

The required notice shall be directly provided to the affected persons by one (1) of the following methods:

- a) Written notice;
- b) Electronic notice, provided that the person to whom notice is required has expressly consented to receiving the notice in electronic form; and a log of each such notification is kept by the District when notifying affected persons in electronic form. However, in no case shall the District require a person to consent to accepting such notice in electronic form as a condition of establishing any business relationship or engaging in any transaction;
- c) Telephone notification, provided that a log of each such notification is kept by the District when notifying affected persons by phone; or

(Continued)

SUBJECT: INFORMATION SECURITY BREACH AND NOTIFICATION (Cont'd.)

- d) Substitute notice, if the District demonstrates to the State Attorney General that the cost of providing notice would exceed \$250,000, or that the affected class of subject persons to be notified exceeds 500,000, or that the District does not have sufficient contact information. Substitute notice shall consist of **all** of the following:
1. Email notice when the District has an email address for the subject persons;
 2. Conspicuous posting of the notice on the District's website page, if the District maintains one; and
 3. Notification to major statewide media.

Regardless of the method by which notice is provided, the notice shall include contact information for the notifying District and a description of the categories of information that were, or are reasonably believed to have been, acquired by a person without valid authorization, including specification of which of the elements of personal information and private information were, or are reasonably believed to have been, so acquired.

In the event that any New York State residents are to be notified, the District shall notify the State Attorney General, the Consumer Protection Board, and the State Office of Cyber Security and Critical Infrastructure Coordination as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents.

In the event that more than five thousand (5,000) New York State residents are to be notified at one time, the District shall also notify consumer reporting agencies, as defined pursuant to State Technology Law Section 208, as to the timing, content and distribution of the notices and approximate number of affected persons. Such notice shall be made without delaying notice to affected New York State residents. A list of consumer reporting agencies shall be compiled by the State Attorney General and furnished upon request to school districts required to make a notification in accordance with State Technology Law Section 208(2), regarding notification of breach of security of the system for any computerized data owned or licensed by the District that includes private information.

NOTE: Refer also to Policy #5681 -- School Safety Plans

Adopted: 6/19/14

SUBJECT: SCHOOL SAFETY PLANS

The District-wide and building-level school safety plans have been adopted by the School Board only after at least one (1) public hearing that provided for the participation of school personnel, parents, students, and any other interested parties. Each plan shall be reviewed by the appropriate school safety team on at least an annual basis, updated as needed by July 1 and recommended to the Board of Education for approval. These plans will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the School District with local and county resources in the event of such incidents or emergencies.

The School District, consisting of one (1) school building, has developed a single building-level school safety plan, which also fulfills all requirements for development of the District-wide plan to ensure the safety and health of children and staff and to ensure integration and coordination with similar emergency planning at the municipal, county and state levels.

District-Wide/Building-Level School Safety Plan

District-wide school safety plan means a comprehensive, multi-hazard school safety plan that covers all school buildings of the School District, that addresses prevention and intervention strategies, emergency response and management at the District level and has the contents as prescribed in Education Law and Commissioner's Regulations.

The District-wide school safety plan shall be developed by the District-wide school safety team appointed by the Board of Education. The District-wide team shall include, but not be limited to, representatives of the School Board, student, teacher, administrator, and parent organizations, school safety personnel and other school personnel.

Building-level school safety plan means a building-specific school emergency response plan that addresses prevention and intervention strategies, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's Regulations. As part of this plan the District will define the chain of command in a manner consistent with the National Incident Management System (NIMS)/Incident Command System (ICS).

The building-level plan shall be developed by the building-level school safety team. The building-level school safety team means a building-specific team appointed by the Building Principal, in accordance with regulations or guidelines prescribed by the Board of Education. The building-level team shall include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel, other school personnel, community members, local law enforcement officials, local ambulance or other emergency response agencies, and any other representatives the School Board deems appropriate.

If the District receives federal preparedness funds, the District requires appropriate personnel to complete the IS-700 NIMS (National Incident Management System) introductory course.

(Continued)

SUBJECT: SCHOOL SAFETY PLANS (Cont'd.)**Filing/Disclosure Requirements**

The District shall file a copy of its comprehensive District-wide school safety plan and any amendments thereto with the Commissioner of Education no later than thirty (30) days after their adoption. A copy of each building-level school safety plan and any amendments thereto shall be filed with the appropriate local law enforcement agency and with the state police within thirty (30) days of its adoption. Building-level emergency response plans shall be confidential and shall **not** be subject to disclosure under the Freedom of Information Law or any other provision of law.

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES**

The School District shall provide and maintain on-site in each *instructional school facility* functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. *An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.*

Whenever an *instructional School District facility* is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a *school-sponsored athletic contest* is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one staff person who is trained in accordance with Public Health Law in the operation and use of an AED. *School-sponsored or school-approved curricular or extracurricular events or activities mean events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extraclass intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.*

Where a *school-sponsored competitive athletic event* is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. *A school-sponsored competitive athletic event means an extraclass interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.*

School District facilities and District staff responsible for carrying out the duties enumerated in Education Law Section 917 are deemed a "public access defibrillation provider" as defined pursuant to Public Health Law Section 3000-b and subject to the Public Health Law requirements and limitations.

Therefore, it is the policy of our School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

(Continued)

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES (Cont'd.)**

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

The District shall post a sign or notice at the main entrance to the facility or building in which the AED unit(s) is stored, indicating the exact location where the unit(s) is stored or maintained on a regular basis.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS**Fire Drills**

The administration of each school building shall provide instruction for and training of students, through fire drills, in procedures for leaving the building in the shortest possible time and without confusion or panic.

Fire drills shall be held at least twelve (12) times in each school year; eight (8) of these shall be held between September 1 and December 1. At least one-third (1/3) of all such required drills shall be through use of the fire escapes on buildings where fire escapes are provided. At least one (1) of the twelve (12) drills shall be held during a regular lunch period, or shall include special instruction on the procedures to be followed if a fire occurs during a student's lunch period.

At least two (2) additional drills shall be held during summer school in buildings where summer school is conducted and one (1) of these drills shall be held during the first week of summer school.

After-School Programs

The Building Principal or his/her designee shall require those in charge of after-school programs, attended by any individuals unfamiliar with the school building, to announce at the beginning of such programs the procedures to be followed in the event of an emergency.

Bomb ThreatsSchool Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal action. No bomb threat should be treated as a hoax when it is first received. The school has an obligation and responsibility to ensure the safety and protection of the students and other occupants upon the receipt of any bomb threat. This obligation must take precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat location, if any; time of detonation; etc. If the bomb threat is targeted at the school parking lot or the front of the school, building evacuation may not be an appropriate response. If the bomb threat indicates that a bomb is in the school, then building evacuation is necessary unless the building has been previously inspected and secured in accordance with State Education Department Guidelines. Specific procedures can be found in the building level school plan, as required by Project SAVE.

The decision to evacuate a building or to take shelter is dependent upon information about where the bomb is placed and how much time there is to reach a place of safety. Prudent action dictates that students and other occupants be moved from a place of danger to a place of safety. Routes of egress and evacuation or sheltering areas must be thoroughly searched for suspicious objects before ordering

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

an evacuation. Failure to properly search evacuation routes before an evacuation takes place can expose students and staff to more danger than remaining in place until the search has taken place. Assistance is available from local police agencies and the New York State Police to train staff to check evacuation routes.

Police Notification and Investigation

A bomb threat to a school is a criminal act, which is within the domain and responsibility of law enforcement officials. Appropriate State, county, and/or local law enforcement agencies must be notified of any bomb threat as soon as possible after the receipt of the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Therefore, the building administrator or designee is to notify local law enforcement officials and follow established procedures to move all occupants out of harm's way.

Implementation

The Board of Education directs the Superintendent or his/her designee to develop administrative regulations to implement the terms of this policy. Additionally, such regulations are to be incorporated in the District-wide School Safety Plan and the building level school safety plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building level school safety plans; and the annual updating of the District-wide and building level school safety plans, by July 1, as mandated pursuant to law and/or regulation.

Bus Emergency Drills

The Board of Education directs the administration to conduct a minimum of three (3) emergency drills to be held on each school bus during the school year. The first drill is to be conducted during the first seven (7) days of school, the second drill between November 1 and December 31, and the third drill between March 1 and April 30. No drills shall be conducted when buses are on routes.

Students who ordinarily walk to school shall also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills shall also be provided drills on school buses, or as an alternative, shall be provided classroom instruction covering the content of such drills.

Each drill shall include instruction in all topics mandated by the Education Law and the Commissioner's Regulations and shall include, but will not be limited to, the following:

(Continued)

SUBJECT: FIRE DRILLS, BOMB THREATS AND BUS EMERGENCY DRILLS (Cont'd.)

- a) Safe boarding and exiting procedures with specific emphasis on when and how to approach, board, disembark, and move away from the bus after disembarking;
- b) The location, use and operation of the emergency door, fire extinguishers, first aid equipment and windows as a means of escape in case of fire or accident;
- c) Orderly conduct as bus passengers.

Instruction on Use of Seat Belts

When a school bus is equipped with seat safety belts, the District shall ensure that all students who are transported on such school bus owned, leased or contracted for by the District or BOCES shall receive instruction on the use of seat safety belts. Such instruction shall be provided at least three (3) times each year to both public and nonpublic school students who are so transported and shall include, but not be limited to:

- a) Proper fastening and release of seat safety belts;
- b) Acceptable placement of seat safety belts on students;
- c) Times at which the seat safety belts should be fastened and released; and
- d) Acceptable placement of the seat safety belts when not in use.

SUBJECT: CRISIS RESPONSE

When a crisis arises, no school system is immune to the negative, physical or mental effect on its students, staff and the local community. Immediate, effective and responsible management can address the crisis and maintain a district's integrity and credibility. Therefore, the District shall develop and maintain a unified position by:

- a) Identifying a crisis response team to develop a plan and maintain a strong, ongoing communications program in each school. This is the foundation for long range success.
- b) Identifying a media spokesperson who will be briefed on all details. This spokesperson shall be the Superintendent or his/her designee. Only this spokesperson shall talk to and maintain a timely flow of information to the media.

The Superintendent/designee shall be responsible for informing staff of the crisis plan that is to be developed by both administration and the crisis response team.

SUBJECT: EXPOSURE CONTROL PROGRAM

The District shall establish an exposure control program designed to prevent and control exposure to bloodborne pathogens. According to the New York State Department of Labor's Division of Safety and Health and Occupational Safety and Health Administration (OSHA) standards, the program shall consist of:

- a) Guidelines for maintaining a safe, healthy school environment to be followed by staff and students alike.
- b) Written standard operating procedures for blood/body fluid clean-up.
- c) Appropriate staff education/training.
- d) Evaluation of training objectives.
- e) Documentation of training and any incident of exposure to blood/body fluids.
- f) A program of medical management to prevent or reduce the risk of pathogens, specifically hepatitis B and Human Immunodeficiency Virus (HIV).
- g) Written procedures for the disposal of medical waste.
- h) Provision of protective materials and equipment for all employees who perform job-related tasks involving exposure or potential exposure to blood, body fluids or tissues.

SUBJECT: COMMUNICABLE DISEASES

Whenever, upon investigation and evaluation by the Director of School Health Services or other health professionals acting upon direction or referral of the director, a student in the public schools shows symptoms of any communicable or infectious disease reportable under the public health law that imposes a significant risk of infection of others in the school, he/she shall be excluded from the school and sent home immediately, in a safe and proper conveyance. The Director of School Health Services shall immediately notify a local public health agency of any disease reportable under the public health law.

Following absence on account of illness or from unknown cause, the Director of School Health Services may examine each student returning to a school without a certificate from a local public health officer, a duly licensed physician, physician assistant, or nurse practitioner.

The Director of School Health Services, or other health professionals acting upon direction or referral of the director, may make evaluations of teachers and any other school employees, school buildings and premises as, in their discretion, they may deem necessary to protect the health of the students and staff.

Regulations and procedures will be developed for dealing with communicable diseases (including, but not limited to, pandemic flu) in ways that protect the health of both students and staff while minimizing the disruption of the education process.

SUBJECT: HUMAN IMMUNODEFICIENCY VIRUS (HIV) RELATED ILLNESSES

The Board of Education contends that a student shall not be denied the right to attend school or continue his/her education nor shall an employee be denied the right to continue his/her employment who has been diagnosed or identified as having a positive blood test for the antibodies to the Human Immunodeficiency Virus (HIV). The Board further contends that under current law and regulations, the disclosure of confidential HIV-related information shall be strictly limited.

Administrative regulations and procedures shall be developed and implemented by the administration based on recommendations from the New York State Education Department and from consultation with appropriate professional and medical staff in the District.

The Superintendent shall also establish protocols for routine sanitary procedures for dealing with the cleaning and handling of body fluids in school, with special emphasis placed on staff awareness.

SUBJECT: TRANSPORTATION PROGRAM

It is the intent of the Board of Education to comply with the letter and spirit of the New York State Education Law, with the regulations of the Department of Motor Vehicles and of the Department of Transportation and with the Commissioner of Education's regulations and decisions pertinent to student transportation, and these shall govern any questions not covered by specific declaration of policy herein.

The purposes of the transportation program are to transport students to and from school, to transport them for extracurricular activities, to transport them on field trips, and to transport those requiring special services.

The Board of Education recognizes and assumes the responsibility for all aspects of the transportation of children wherein the health and safety of students are involved, for the Board of Education has a legal obligation to safeguard the welfare of bus-riding children.

Scheduling and Routing

Bus routes are authorized by the Board of Education and any requests for a change must be submitted to the Superintendent or his/her designee.

Transportation services shall be provided to meet the needs of the students of the District within specified limits and areas established by the Board of Education.

The District shall either mail schedules directly to parents or have parents pick up schedules at school. Should the District wish to post school bus schedules online, access to the schedules shall be password protected.

Use of Buses by Community Groups

Transportation will be provided for the following non-profit groups: senior citizens of the District and children participating in the Village of Fillmore Summer Recreational Program. There will be no maintenance of bus charge for senior citizen groups, but the District will be reimbursed for all other expenses such as the cost of the driver (including fringe benefits, meals), gasoline, tolls, etc. The cost to transport children in the Village of Fillmore Summer Recreational Program will continue to be considered part of the District's contribution to that program.

SUBJECT: TRANSPORTATION OF STUDENTS**Requests for Transportation to and from Nonpublic Schools**

The parent or person in parental relation of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within thirty (30) days of moving into the District. No late request of a parent or person in parental relation shall be denied where a reasonable explanation is provided for the delay.

Transportation to Nonpublic Schools on Holidays

When a holiday falls on a Saturday or Sunday, the Board of Education may choose to close on Friday or Monday in observance of the holiday. Schools that close may provide pupil transportation. However, if the District has not shared its calendar and informed nonpublic schools that it will not transport on the optional holiday, the District is required to provide pupil transportation services on that day to nonpublic schools that are open.

Transportation for Nonpublic School Students with Disabilities who are Parentally Placed

For students with disabilities (ages 5 through 21) who are parentally placed in nonpublic schools outside their district of residency, if special education services are to be provided to a student at a site other than the nonpublic school, the school district of location is responsible for providing the special education services, including, as applicable, arranging and providing transportation necessary for the student to receive special education services. The proportionate share of IDEA Part B dollars could be used for such purpose.

The school district of residence remains responsible to provide transportation to parentally placed nonpublic school students from the student's home to the nonpublic school.

Transportation of Students with Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate nonresidential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Student Information

Any mode of transportation used on a regular basis to transport students with a disability on a regularly scheduled route shall, upon written consent of the parent or person in parental relation, have maintained on such mode of transportation the following information about each student being transported:

(Continued)

SUBJECT: TRANSPORTATION OF STUDENTS (Cont'd.)

- a) Student's name;
- b) Nature of the student's disability;
- c) Name of the student's parent, guardian or person in a position of loco parentis (person in parental relation) and one or more telephone numbers where such person can be reached in an emergency; and/or
- d) Name and telephone number of any other person designated by such parent, guardian or person in a position of loco parentis as a person who can be contacted in an emergency.

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

Use of Cell Phones and Portable Electronic Devices Prohibited

Use of portable electronic devices by a school bus driver at times the vehicle is in operation on the roadway poses a potential safety risk. All school bus drivers are prohibited from using portable electronic devices while the bus is in operation and students are on the bus.

Personal cell phones are to be placed in the "off" position when in the possession of the school bus driver while the bus is in operation. Cell phones may be used in case of emergency.

The following terms are defined as:

- a) "Portable electronic device" shall mean any mobile telephone (hand held or "hands free"), personal digital assistant (PDA), portable device with mobile data access, laptop computer, pager, broadband personal communication device, two-way messaging device, electronic game, or portable computing device.
- b) "Using" shall mean holding a portable electronic device while viewing, taking or transmitting images, playing games, or composing, sending, reading, viewing, accessing, browsing, transmitting, saving or retrieving email, text messages, or other electronic data.
- c) "In operation" shall mean that the bus engine is running, whether in motion or not.

The Transportation Supervisor, in cooperation with the Principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections, and will be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

NOTE: Refer also to Policy #5741 -- Drug and Alcohol Testing For School Bus Drivers and Other Safety-Sensitive Employees

Adopted: 6/19/14

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations who are required to have and use a commercial driver's license (CDL), are subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall either establish and manage its own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSEs), including school bus drivers and other employees, who drive a vehicle which is designed to transport sixteen (16) or more passengers (including the driver), shall be subject to this requirement.

Federal regulations require that school bus drivers and other SSEs be tested for alcohol and drugs at the following times:

- a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.
- c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.
- d) There will also be post-accident testing conducted after accidents on employees whose performance could have contributed to the accidents.
- e) Finally, return-to-duty and follow-up testing will be conducted when an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least six (6) tests must be conducted in the first twelve (12) months after an employee returns to duty. Follow-up testing may be extended for up to sixty (60) months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

(Continued)

SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

- a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater. If testing shows an alcohol concentration of 0.02 or greater but less than 0.04, the employee must be removed from performing safety-sensitive activities for twenty-four (24) hours, but no punitive action will be taken by the employer.
- b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.
- c) Using alcohol while performing safety-sensitive functions.
- d) New York State law prohibits using alcohol six (6) hours or less before duty.
- e) When required to take a post-accident alcohol test, using alcohol within eight (8) hours following the accident or prior to undergoing a post-accident alcohol test, whichever comes first.
- f) Refusing to submit to an alcohol or controlled substance test required by post-accident, random, reasonable suspicion or follow-up testing requirements.
- g) Reporting for duty or remaining on duty, requiring the performance of safety-sensitive functions, when the SSE uses any controlled substance. This prohibition does not apply when instructed by a physician who has advised the SSE that the substance does not adversely affect the SSE's ability to safely operate a CMV.
- h) Reporting for duty, remaining on duty or performing a safety-sensitive function, if the SSE tests positive for controlled substances.

Drivers and other SSEs who are known to have engaged in prohibited behavior with regard to alcohol misuse or use of controlled substances are subject to disciplinary action and penalties pursuant to District policy and collective bargaining agreements, as well as the sanctions provided for in federal law. SSEs who have engaged in such prohibited behavior shall not be allowed to perform safety-sensitive functions until they are:

- a) Evaluated by a substance abuse professional (SAP).

(Continued)

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES (Cont'd.)**

- b) Complete any requirements for rehabilitation as set by the District and the SAP.
- c) Pass a return-to-duty test with the result below 0.02 if the conduct involved alcohol, or a controlled substance test with a verified negative result if the conduct involved controlled substance use.
- d) The SSE shall also be subject to unannounced follow-up alcohol and controlled substance testing. The number and frequency of such follow-up testing shall be as directed by the SAP, and consist of at least six (6) tests in the first twelve (12) months.

The Superintendent of Schools shall ensure that each SSE receives a copy of District policy, educational materials that explain the requirements of the alcohol and drug testing regulations, and any regulations and/or procedures developed by the District with respect to meeting those requirements. The Superintendent or his/her designee shall ensure that a copy of these materials is distributed to each SSE, who shall sign for receipt of all of the above documents, as well as other appropriate personnel, prior to the start of alcohol and controlled substance testing as well as at the beginning of each school year or at the time of hire for any safety-sensitive employees. Representatives of applicable collective bargaining units shall be notified of the availability of this information.

The Superintendent or his/her designee shall arrange for training of all supervisors who may be utilized to determine whether "reasonable suspicion" exists to test a driver for prohibited conduct involving alcohol or controlled substance use/abuse.

Any violation of this policy and/or District procedures, and applicable federal and state laws by a covered employee shall be grounds for disciplinary action including, but not limited to, fines, suspension, and/or discharge in a manner consistent with District policy, collective bargaining agreements and applicable law.

SUBJECT: EQUAL EMPLOYMENT OPPORTUNITY

It is the policy of this District to provide, through a positive and effective program, equal opportunities for employment, retention and advancement of all people regardless of race, color, creed, religion, national origin, political affiliation, sex, sexual orientation, age, marital status, military status, veteran status, disability, predisposing genetic characteristics, use of a recognized guide dog, hearing dog or service dog, or domestic violence victim status.

Sexual orientation is defined as heterosexuality, homosexuality, bisexuality or asexuality, whether actual or perceived.

The term "military status" means a person's participation in the military service of the United States or the military service of the state, including but not limited to, the armed forces of the United States, the army national guard, the air national guard, the New York naval militia, the New York guard, and such additional forces as may be created by the federal or state government as authorized by law.

Provisions will be provided for the publication and dissemination, internally and externally of this policy to ensure its availability to interested citizens and groups.

Additionally, administration shall establish grievance procedures that provide for the prompt and equitable resolution of complaints alleging discrimination. Those intending to file a grievance due to alleged discrimination must follow the grievance procedure as established by the District.

Under the legislation, an employer with fewer than fifty (50) employees may be allowed to pay the civil fines and penalties in installments.

The new civil fines do not replace or limit other relief under New York State Human Rights Law that may be awarded to a prevailing complainant in an administrative proceeding which includes, but is not limited to, affirmative relief from the employer (e.g., an order that the individual be hired, promoted or reinstated by the employer), backpay and other compensatory damages (e.g., emotional distress damages). The New York State *Division of Human Rights* cannot award punitive damages or attorney's fees to a prevailing complainant in an administrative proceeding. However, a *New York State Court* may award a prevailing plaintiff in a court action various relief, including, but not limited to, punitive damages and attorney's fees. (An administrative proceeding before the New York State *Division of Human Rights* and an action commenced in a *New York State Court* represent two different ways to seek redress for acts of alleged employment discrimination.)

SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL

The Board of Education affirms its commitment to non-discrimination and recognizes its responsibility to provide for all District employees an environment that is free of sexual harassment, including sexual violence and intimidation. Sexual harassment, including sexual violence, is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of sexual harassment by employees, school volunteers, students, and non-employees such as contractors and vendors which occur on school grounds and at all school-sponsored events, programs and activities including those that take place at locations off school premises and in another state. Since sexual violence is a form of sexual harassment, the term "sexual harassment" as used in this policy will implicitly include sexual violence even if it is not explicitly stated.

Generally, sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature when:

- a) Submission of such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment;
- b) Submission to or rejection of such conduct by an individual is used as a basis for employment decisions affecting such individuals; and
- c) Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive work environment.

Sexual violence is defined as physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. Sexual violence as defined by New York Penal Law includes but is not limited to acts such as:

- a) Rape;
- b) Sexual assault;
- c) Sexual battery;
- d) Sexual coercion.

The Board acknowledges that in determining whether sexual harassment has occurred the totality of the circumstances should be evaluated. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from co-workers as well as supervisors, and from a third party such as a school visitor, volunteer, or vendor, or any other individual associated with the School District. The District will designate, at a minimum, two (2) Compliance Officers, one of each gender.

SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL (Cont'd.)

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any employee who believes he/she has been a victim of sexual harassment in the work environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, immediately report such alleged harassment to the District's designated Compliance Officers through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged sexual harassment will also be promptly, thoroughly and equitably investigated in accordance with the terms of this policy. In the event that the Compliance Officer is the alleged offender, the employee should report his/her complaint to the next level of supervisory authority.

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a thorough, prompt and equitable investigation of the charges. However, even in the absence of a complaint, if the District has knowledge of or has reason to know of or suspect any occurrence of sexual harassment, the District will investigate such conduct promptly, equitably and thoroughly. All procedures developed by the District will provide for the prompt and equitable resolution of the sexual harassment.

To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges, and any disclosure will be provided on a "need to know" basis. The Superintendent will inform the Board of Education of investigations involving findings of harassment.

Based upon the results of the investigation, if the District determines that an employee has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken, as warranted, up to and including termination of the offender's employment in accordance with legal guidelines, District policy and regulation, the District's Code of Conduct, and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations will be subject to appropriate sanctions as warranted and in compliance with law.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Follow-up inquiries shall be made to ensure that sexual harassment has not resumed and that all those involved in the investigation of the sexual harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Compliance Officer will so notify the complainant, the alleged offender

and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that sexual harassment did not occur.

Knowingly Makes False Accusations

Employees and/or students who *knowingly* make false accusations against another individual as to allegations of harassment may also face appropriate disciplinary action.

Privacy Rights

As part of the investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of students and staff, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

Development and Dissemination of Administrative Regulations

Regulations will be developed for reporting, investigating and remedying allegations of sexual harassment. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable Compliance Officer(s).

Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of sexual harassment with all employees, express the District's condemnation of such conduct, and explain the sanctions for harassment. Training programs will be established for employees to help ensure awareness of the issues pertaining to sexual harassment in the workplace, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for training in the investigation of sexual harassment complaints.

SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL (Cont'd.)

SUBJECT: EMPLOYEE MEDICAL EXAMINATIONS**Preemployment Medical Examinations**

In accordance with the Americans with Disabilities Act, as amended, the School District shall not require applicants for positions to undergo a medical examination prior to an offer of employment. Further, the District shall not make inquiries of a job applicant as to whether the applicant is an individual with a disability or as to the nature or severity of a disability.

However, the District may make preemployment inquiries into the ability of an applicant to perform job-related functions.

Employment Entrance Examinations

When such examination is made by the school physician/nurse practitioner the cost of such examination shall be borne by the District. A staff member, however, may elect to have a medical examination at his/her own expense by a physician of his/her own choice.

The Board reserves the right to request a medical examination at any time during employment, at School District expense, in order to determine whether any employee can perform the essential functions of the position with or without reasonable accommodation.

Annual or more frequent examinations of any employee may be required, when, in the judgment of the school physician/nurse practitioner and the Superintendent, such procedure is deemed necessary.

All bus drivers and substitute bus drivers shall have yearly physical examinations. Each bus driver initially employed by the School District shall have a physical examination within the four (4) weeks prior to the beginning of service. In no case shall the interval between physical examinations exceed a thirteen-month period.

The final acceptance or rejection of a medical report with reference to the health of an employee lies within the discretion of the Board. The decision of the physician designated by the Board as the determining physician shall take precedence over all other medical advice.

All medical and health related information will be kept in accordance with the Health Insurance Portability and Accountability Act of 1996 (HIPAA).

Examinations and InquiriesAcceptable

The District may conduct voluntary medical examinations, including voluntary medical histories, which are part of an employee health program available to employees at that work site. The District may make inquiries into the ability of an employee to perform job-related functions.

SUBJECT: ALCOHOL, DRUGS AND OTHER SUBSTANCES (SCHOOL PERSONNEL)

The Board of Education, recognizing that students are often influenced by teachers and other members of a school's staff, impresses upon staff members the importance of maintaining a high level of professionalism appropriate to their position, which, in turn, shall set a positive example for students.

The Board, therefore, prohibits the consumption, sharing and/or selling, use and/or possession of illegal drugs, counterfeit and designer drugs or alcoholic beverages in the workplace, or when the effects of such drugs and/or alcohol use may impair an employee's job performance.

Information about any drug and alcohol counseling and/or rehabilitation programs shall be made available to employees. Data will also include the range of penalties (consistent with local, state and federal law) up to and including termination of employment and referral for prosecution that will be imposed on employees who have transgressed the terms of this policy.

Additionally, confidentiality shall be ensured as required by state and federal law.

The Superintendent/designee shall periodically review the drug and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

SUBJECT: DRUG-FREE WORKPLACE

It shall be the general policy of the Board of Education to affirm that all programs in the District that receive Federal funds shall guarantee that their workplaces are free of controlled substances. "Controlled substance" means a controlled substance in schedules I through V of Section 202 of the Controlled Substances Act (21 USC 812) and as further defined in regulation at 21 Code of Federal Regulations (CFR) Sections 1308.11-1308.15. An acknowledgment form shall be signed by the Superintendent indicating that the District is in full compliance with the Drug-Free Workplace Act. This policy shall guarantee that not only Federally funded programs, but the entire District is free of controlled substances.

"Workplace" is defined as a school building or other school premises; any school-owned vehicle or any other school-approved vehicle used to transport students to and from school or school activities; off school property during any school-sponsored or school-approved activity, event or function, such as a field trip or athletic event, where students are under the jurisdiction of the School District.

The Board of Education directs the administration to develop regulations to comply with this policy, and further supports such actions and activities of the administration as shall be required to maintain a drug-free workplace.

In addition to complying with Federal legislation regarding use of drugs, the Board of Education prohibits any employee within the scope of his/her employment, from being under the influence, using or having in his/her possession or distributing in any way alcohol on school property or at school sponsored activities off school property.

SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT

It is the policy of the District that attention be given to in-service, pre-service, and other staff development programs which are believed to be of benefit to the School District and its students. The Superintendent, in consultation with the appropriate administrative staff and/or teacher committees, is directed to arrange in-service programs and other staff development opportunities which will provide for the selection of subjects pertinent to the curriculum in the schools, to build from these subjects those topics or courses for in-service or staff development which will help employees acquire new methods of performing their job responsibilities or help staff improve on those techniques which are already being used in the schools, with the objective of improving professional competencies.

It is recommended that administration develop meaningful in-service and/or staff development programs which will achieve the following:

- a) Contribute to the instructional program of the schools;
- b) Contribute to improved education for students;
- c) Achieve state mandates; and
- d) Enhance the professional competencies and/or instructional abilities of staff members.

The Board of Education, therefore, encourages all employees to improve their competencies beyond that which they may obtain through the regular performance of their assigned duties. Opportunities should be provided for:

- a) Planned in-service programs, courses, seminars, and workshops offered both within the School System and outside the District.
- b) Visits to other classrooms and schools, as well as attendance at professional meetings, for the purpose of improving instruction and/or educational services.
- c) Orientation/re-orientation of staff members to program and/or organizational changes as well as District expectations.

Attendance at such professional development programs must be directly linked to the duties and responsibilities comprising the job description of the employee. Consequently, employees are encouraged to participate in the planning of staff development programs designed to meet their specific needs.

Members of the staff are also encouraged to continue their formal education as well as to attend their respective work-related workshops, conferences and meetings.

(Continued)

SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT (Cont'd.)

Funds for participating at such conferences, conventions, and other similar professional development programs will be budgeted for by the Board of Education on an annual basis. Reimbursement to District staff for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for conference attendance and expense reimbursement.

The Superintendent of Schools or his/her designee has authority to approve release time and expenses for staff members' attendance at professional training conferences, study councils, in-service courses, workshops, summer study grants, school visitations, professional organizations and the like within budgetary constraints.

A conference request form/course approval form must be submitted by the employee and approved by the designated administrator prior to the employee's attendance at such conference or other professional development program.

Mentoring Programs for First Year Teachers

First year teachers must participate in a mentoring program as a component of the School District's Professional Development Plan. The purpose of the mentoring program is to increase the retention of new teachers and improve their ability to assist students in attaining State learning standards. The mentor's role is to provide guidance and support to a new teacher. However, additional mentor responsibilities may be negotiated and reflected in a collective bargaining agreement.

Travel Conference Request Forms are only to be used by District employees.

All conference reimbursement requests must be submitted using a Travel Conference Reimbursement Form.

Expenses for overnight-approved travel will be reimbursed when accompanied by original receipts for lodging and other reimbursable expenses. Meal expenses for overnight travel will only be reimbursed based on the Board approved per diem rates which are modeled after the United States General Services Administration per diem rates found at: <http://www.gsa.gov/Portal>

SUBJECT: SAFETY OF STUDENTS (FINGERPRINTING CLEARANCE OF NEW HIRES)

Unless otherwise authorized in accordance with law and regulation, the District shall not employ or utilize a prospective school employee, as defined below, unless such prospective school employee has been granted a "full" clearance for employment by the State Education Department (SED). The School District shall require a prospective school employee who is not in the SED criminal history file to be fingerprinted for purposes of a criminal history record check by authorized personnel of the designated fingerprinting entity. For purposes of this provision of law, the term "criminal history record" shall mean a record of all convictions of crimes and any pending criminal charges maintained on an individual by the Division of Criminal Justice Services (DCJS) and the Federal Bureau of Investigation (FBI). The District shall, however, obtain the applicant's consent to the criminal history records search.

The District shall utilize SED's Web-based application known as TEACH for instantaneous access to important information about certification and fingerprinting. Through TEACH, SED provides an individual with the ability to apply for fingerprint clearance for certification and/or employment and view the status of his/her fingerprint clearance request. Through TEACH, the School District is able, among other applications, to submit an online request for fingerprint clearance for a prospective employee, view the status of a fingerprint clearance request, and determine whether a subsequent arrest letter has been issued.

Safety of Students

The District will develop internal building and/or program procedures to help ensure the safety of students who have contact with an employee holding conditional appointment or emergency conditional appointment. Such procedures will address the safety of students in the classroom, students attending off-campus activities under the supervision of the School District, and students participating in extracurricular and/or co-curricular activities (including sports and athletic activities).

Safety procedures to be addressed include, but are not limited to, the following: supervision of the employee holding conditional appointment/emergency conditional appointment as determined appropriate by the applicable building/program administrator; and periodic visitations by the building/program administrator to the classroom, program and/or activity assigned to the employee holding conditional appointment/emergency conditional appointment.

"Sunset" Provision for Conditional Appointments/Emergency Conditional Appointments

The provisions in law which permit the conditional appointment and/or emergency conditional appointment of employees pending full clearance from SED shall terminate, in accordance with legislation, and shall be rescinded as Board policy and procedure as of that date (unless subsequent revisions to applicable law provide otherwise).

SUBJECT: STAFF-STUDENT RELATIONS (FRATERNIZATION)

The Board of Education requires that all School District employees maintain a professional, ethical relationship with District students that is conducive to an effective, safe learning environment; and that staff members act as role models for students at all times, whether on or off school property and both during and outside of school hours. Staff must establish appropriate personal boundaries with students and not engage in any behavior that could reasonably lead to even the appearance of impropriety.

Staff members are prohibited, under any circumstances, to date or engage in any improper fraternization or undue familiarity with students, regardless of the student's age and/or regardless of whether the student may have "consented" to such conduct. Further, employees shall not entertain students or socialize with students in such a manner as to create the perception that a dating relationship exists. Similarly, any action or comment by a staff member which invites romantic or sexual involvement with a student is considered highly unethical, in violation of District policy, and may result in the notification of law enforcement officials and the filing of criminal charges and/or disciplinary action by the District up to and including termination of employment.

Inappropriate employee behavior includes, but is not limited to, flirting; making suggestive comments; dating; requests for sexual activity; physical displays of affection; giving inappropriate personal gifts; frequent personal communication with a student unrelated to course work or official school matters; providing alcohol or drugs to students; inappropriate touching; and engaging in sexual contact and/or sexual relations. ("Frequent personal communication with a student unrelated to course work or official school matters" means any form in which that personal communication may occur including, but not limited to, voice or text-based communication via phone, email, instant messaging, text messaging or through social networking websites.)

Even if the student participated "willingly" in the activity (regardless of the student's age), inappropriate fraternization of staff with students is against District policy and may be in violation of professional standards of conduct and New York State Law. However, inappropriate employee conduct does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions.

Any student who believes that he/she has been subjected to inappropriate staff behavior as enumerated in this policy, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of inappropriate staff-student relations, shall report the incident to any staff member or either the employee's supervisor, the student's Principal or the District's designated Compliance Officer. In all events such reports shall be forwarded to the designated Compliance Officer for further investigation. Anonymous complaints of inappropriate fraternization of staff members with students shall also be investigated by the District. Investigations of allegations of inappropriate staff-student relations shall follow the procedures utilized for complaints of harassment within the School District. Allegations of inappropriate staff-student behavior shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

(Continued)

Personnel

SUBJECT: STAFF-STUDENT RELATIONS (FRATERNIZATION) (Cont'd.)

Any employee having knowledge of or reasonable suspicion that another employee may have engaged in inappropriate conduct with a student that may constitute child abuse (specifically, child abuse in an educational setting) must *also* follow the District's reporting procedures for such allegations; and such information will be reported by the designated administrator as required by state law to law enforcement officials, the State Education Department and/or Child Protective Services as may be applicable.

If a student initiates inappropriate behavior toward a staff member, that employee shall document the incident and report it to his/her Building Principal or Supervisor.

The District shall promptly investigate all complaints of inappropriate staff-student relations, and take prompt corrective action to stop such conduct if it occurs.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of inappropriate staff-student relations. Follow-up inquiries and/or appropriate monitoring shall be made to ensure that the alleged conduct has not resumed and that all those involved in the investigation have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the District.

District Responsibility/Training

The Principal of each school and/or program supervisor shall be responsible for informing students, staff and volunteers of the requirements of this policy, including the duty to report and the procedures established for investigation and resolution of complaints. Further, staff training shall be provided to facilitate staff identification of possible behavior that may constitute inappropriate staff-student relationships. Students shall be provided such training in an age appropriate manner.

The District's policy (or a summary thereof) shall be disseminated as appropriate to staff, students and parents. Further, this topic shall be addressed in the District Code of Conduct.

Disciplinary Sanctions

Any staff member who engages in inappropriate conduct with a student, prohibited by the terms of this policy, shall be subject to appropriate disciplinary measures up to and including termination of employment in accordance with legal guidelines, District policy and regulation, and the applicable collective bargaining agreement. A violation of this policy may also subject the employee to criminal and/or civil sanctions as well as disciplinary action by the State Education Department.

SUBJECT: CERTIFICATION AND QUALIFICATIONS

The following provisions shall govern certification and qualifications of District personnel:

- a) In accordance with applicable statutes, Rules of the Board of Regents, and Regulations of the Commissioner of Education, each employee whose employment requires certification or other licensure shall inform the Superintendent of Schools immediately of any change in the status of his/her certification or licensure. The changes shall include, but not be limited to, the granting, revocation, upgrading, expiration, conversion and/or extension of these documents as to their periods of validity or their titles.
- b) Through the New York Patriot Plan, Commissioner's regulations have amended education law. Provisions extend the expiration dates for various certificate holders engaged in active military service for the period of active service and an additional twelve (12) months from the end of such service. These also reduce the professional development requirements for certification holders called to active duty for the time of such active service.
- c) The original certificates and/or licenses must be presented for examination and copying in the Office of the Superintendent of Schools as soon as they are available to the employee. The copies will be maintained in the employee's personnel file in support of the legitimate employment of each affected employee. The failure of any such employee to possess the required certification or other licensure may result in the discharge of that employee.
- d) Whether or not the District verifies an individual's certification or licensure does not waive the responsibility of the employee to maintain what is required for his/her assignment.

Qualifications of Teachers

- a) The District must ensure that all newly hired teachers in Title I programs who teach core academic subjects are highly qualified per Regulations of the Commissioner of Education. The term "core academic subjects" means English, reading or language arts, mathematics, science, foreign languages, civics and government, economics, arts, history, and geography. A "highly qualified" teacher is one who has obtained full state certification as a teacher, or has passed the state teacher licensing examination, holds a license to teach in the state and has at least a bachelor's degree, and also must show subject matter competency in the subjects they teach.
- b) The District is also required to provide to teachers who are not new to the profession the opportunity to meet the NCLB requirement to be highly qualified, in part, through passing a High Objective Uniform State Standard of Evaluation (HOUSSE). The HOUSSE shall be an evaluation, prescribed by the New York State Education Department and conducted locally either during a pre-employment review or at the time of an Annual Professional Performance Review (APPR), that enables a teacher who is beyond the first year of teaching to demonstrate subject matter competency in all core academic subjects that the teacher teaches. The evaluation

shall be based upon objective, coherent information as prescribed by the department, and shall include, but not be limited to, information on the teacher's education, credentials, professional experience, and professional development.

- c) The District must ensure that on or after September 2, 2009 a candidate for a teaching certificate or license as a special education teacher shall, in addition to all other certification or licensing requirements, have completed enhanced course work or training in the area of children with autism.
- d) Enhanced training in the needs of autistic children shall also be completed by each certified school administrator or supervisor assigned on or after September 2, 2009 to serve as a special education administrator. Such training shall be provided prior to, or as soon as practicable following, assignment as a special education administrator. Individuals serving as special education administrators as of September 2, 2009 shall complete such training by such date. The enhanced course work or training shall be obtained from an institution or provider approved by the department except that a school district or a Board of Cooperative Educational Services (BOCES) may provide such training as part of its professional development program.

Parent Notification

In accordance with the federal No Child Left Behind Act, the District is required to provide parents, upon request, with specific information about the professional qualifications of their children's classroom teachers. The following shall be provided by the District upon such requests:

- a) If the teacher has met New York State qualifications and licensing criteria for the grade levels and subject areas he/she teaches;
- b) Whether the teacher is teaching under emergency or other provisional status through which the State qualification or licensing criteria have been waived;
- c) The teacher's college major; whether the teacher has any advanced degrees and, if so, the subject of the degrees; and
- d) If the child is provided services by any instructional aides or similar paraprofessionals and, if so, their qualifications.

All requests shall be honored in a timely manner.

SUBJECT: PROFESSIONAL CERTIFICATION: 175 HOURS OF PROFESSIONAL DEVELOPMENT REQUIREMENT

All District employees who hold professional teaching certificates for classroom teaching are required to complete professional development hours to maintain the validity of their certificates. Professional certificate holders must complete 175 hours every five (5) years. The five-year professional development period commences on July 1 after the effective date of the triggering certificate, and each subsequent five-year period thereafter. Each professional development year of the five-year cycle of professional development begins on July 1 and ends the following June 30. The professional development requirement may be completed at any time during the five-year professional development period. The New York Patriot Plan was enacted to recognize members of the military, called to active duty, so that they were not discriminated against in employment or education because of their military status. Professional continuing education requirements for active military are waived during the period of military service or reduced proportionately for partial periods of service during certification. Certifications due to expire during military service are extended for the length of the service plus an additional twelve (12) months after release from service. However, this shall not be construed to permit those who have had certifications revoked or suspended to continue to engage in such professions.

Decisions regarding content, delivery and providers of such professional development are within the purview of the School District and shall be made within the context of the District Professional Development Plan. The Professional Development Plan shall describe how the School District will provide teachers it employs holding a professional certificate with opportunities to maintain such certificates in good standing based upon successfully completing 175 hours of professional development every five (5) years in accordance with Commissioner's Regulations.

If the professional certificate holder wishes to maintain the validity of his/her New York State professional certificate, he/she must satisfy the professional development requirement. If the certificate holder teaches less than ninety (90) days in a given school year for any reason, including an approved leave, the required hours are reduced by ten percent (10%) for each school year during which this is the case.

District Recordkeeping Responsibilities

If the School District provides professional development to teachers in its schools, or professional development is provided by other entities on behalf of the District, the District must maintain a record of professional development completed by its teachers who are required to complete this requirement. Such records shall include those items enumerated in Commissioner's Regulations Section 100.2(dd)(5):

- a) The name of the professional certificate holder;
- b) His/her teacher certification identification number;

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES

The Board of Education will provide staff with access to various computerized information resources through the District's computer system (DCS hereafter) consisting of software, hardware, computer networks, wireless networks/access and electronic communication systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may also include the opportunity for staff to have independent access to the DCS from their home or other remote locations, and/or to access the DCS from their personal devices. All use of the DCS and the wireless network, including independent use off school premises and use on personal devices, shall be subject to this policy and accompanying regulations.

The Board encourages staff to make use of the DCS to explore educational topics, conduct research and contact others in the educational world. The Board anticipates that staff access to various computerized information resources will both expedite and enhance the performance of tasks associated with their positions and assignments. To that end, the Board directs the Superintendent or his/her designee(s) to provide staff with training in the proper and effective use of the DCS.

Staff use of the DCS is conditioned upon written agreement by the staff member that use of the DCS will conform to the requirements of this policy and any regulations adopted to ensure acceptable use of the DCS. All such agreements shall be kept on file in the District Office.

Generally, the same standards of acceptable staff conduct which apply to any aspect of job performance shall apply to use of the DCS. Employees are expected to communicate in a professional manner consistent with applicable District policies and regulations governing the behavior of school staff. Electronic mail and telecommunications are not to be utilized to share confidential information about students or other employees.

Access to confidential data is a privilege afforded to District employees in the performance of their duties. Safeguarding this data is a District responsibility that the Board of Education takes very seriously. Consequently, District employment does not automatically guarantee the initial or ongoing ability to use mobile/personal devices to access the DCS and the information it may contain.

This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate staff conduct and use as well as proscribed behavior.

District staff shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and rights of privacy protected by federal and state law.

Staff members who engage in unacceptable use may lose access to the DCS and may be subject to further discipline under the law and in accordance with applicable collective bargaining agreements. Legal action may be initiated against a staff member who willfully, maliciously or unlawfully damages or destroys property of the District.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES (Cont'd.)**Social Media Use by Employees**

The School District recognizes the value of teacher and professional staff inquiry, investigation and communication using new technology tools to enhance student learning experiences. The School District also realizes its obligations to teach and ensure responsible and safe use of these new technologies. Social media, including social networking sites, have great potential to connect people around the globe and enhance communication. Therefore, the Board of Education encourages the use of District approved social media tools and the exploration of new and emerging technologies to supplement the range of communication and educational services.

For purposes of this Policy, the definition of **public social media networks or Social Networking Sites (SNS)** are defined to include: websites, Web logs (blogs), wikis, social networks, online forums, virtual worlds, video sites and any other social media generally available to the School District community which do not fall within the District's electronic technology network (e.g., Facebook, MySpace, Twitter, LinkedIn, Flickr, Vine, Instagram, SnapChat, blog sites, etc.). The definition of District approved password-protected social media tools are those that fall within the District's electronic technology network or which the District has approved for educational use. Within these internal forums, the District has greater authority and ability to protect minors from inappropriate content and can limit public access.

The use of social media (whether public or internal) can generally be defined as Official District Use, Professional/Instructional Use and Personal Use. The definitions, uses and responsibilities will be further defined and differentiated in the Administrative Regulation. The School District takes no position on an employee's decision to participate in the use of social media or SNS for personal use on personal time. However, personal use of these media during District time or on District-owned equipment is discouraged, unless it is needed for the person to perform his/her job. In addition, employees are encouraged to maintain the highest levels of professionalism when communicating. This applies whether using District devices or their own personal devices. They have a responsibility to address inappropriate behavior or activity on these networks, including requirements for mandated reporting and compliance with all applicable District Policies and Regulations.

Confidentiality, Private Information and Privacy Rights

Confidential and/or private data, including but not limited to, protected student records, employee personal identifying information, and District assessment data, shall only be loaded, stored or transferred to District-owned devices which have encryption and/or password protection. This restriction, designed to ensure data security, encompasses all computers and devices within the DCS, any mobile devices, including flash or key drives, and any devices that access the DCS from remote locations.

(Continued)

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES (Cont'd.)

Staff will not leave any devices unattended with confidential information visible. All devices are required to be locked down while the staff member steps away from the device, and settings enabled to freeze and lock after a set period of inactivity.

Staff data files and electronic storage areas shall remain District property, subject to District control and inspection. The Technology Coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with requirements of this policy and accompanying regulations. Staff should **NOT** expect that information stored on the DCS will be private.

Implementation

Administrative regulations will be developed to implement the terms of this policy, addressing general parameters of acceptable staff conduct as well as prohibited activities so as to provide appropriate guidelines for employee use of the DCS.

The Board of Education recognizes its statutory obligation to indemnify School District employees (and in certain circumstances, Board of Education members and volunteers) pursuant to the provisions of Education Law Sections 3023, 3028 and 3811. For the purposes of this policy, the term "employee" shall be as defined in the applicable statute(s).

The District shall not be subject to the duty to defend unless the employee, within the time prescribed by statute, delivers appropriate notice of the claim to the Board of Education.

- a) For purposes of Education Law Section 3811, the employee must give written notice within five (5) days after service of process upon him/her. The statute mandates only written notice of the claim to the Board of Education; however, submission of relevant legal documents by the employee to the Board is also encouraged.
- b) For purposes of Education Law Sections 3023 and 3028, the employee must deliver the original or a copy of the relevant legal documents to the Board within ten (10) days after service of process upon him/her.

The District will provide legal defense and/or indemnification for all damages, costs, and reasonable expenses incurred in the defense of an action or proceeding if authorized pursuant to statute and provided that the alleged action or omission which occurred or allegedly occurred is covered by the appropriate statute(s). Furthermore, the District will not be required to provide indemnification protection and/or legal defense unless the employee was, at the time of the alleged incident, acting in the discharge of his/her duties within the scope of his/her employment or authorized volunteer duties and/or under the direction of the Board of Education.

However, in the case of a settlement, the duty to indemnify and save harmless shall be conditioned upon the approval of the amount of the settlement by the Board of Education.

The duty to defend and/or indemnify and save harmless, in accordance with Public Officers Law Section 18, shall be conditioned upon the delivery by the employee to the School Attorney or to the Superintendent a written request to provide for his/her defense, together with the original or a copy of any summons, complaint, process, notice, demand or pleading within ten (10) days after he/she is served with such document. 4. Bone Marrow Donation

Employees seeking to undergo a medical procedure to donate bone marrow shall be granted leaves to do so, the combined length of the leaves to be determined by the physician, but may not exceed twenty-four (24) work hours unless agreed to by the Superintendent/designee. SUBJECT: FAMILY AND MEDICAL LEAVE ACT

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (as amended) (FMLA), gives "eligible" employees of the District the right to take unpaid leave for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District.

The District uses a "rolling" twelve (12) month period measured backward from the date of any FMLA leave usage as its method for calculating the leave year period for the commencement of the FMLA leave period. In certain cases, FMLA leave may be taken on an intermittent basis rather than all at once, or the employee may work a part-time schedule.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. However, a break in employment for military service (i.e., call to active duty) should not interrupt the twelve (12) month/1,250 hours of employment requirement and should be counted toward fulfilling this prerequisite. The law covers both full-time and part-time employees.

Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the infant;
- b) Adoption of a child and care for the infant;
- c) The placement with the employee of a child in foster care;
- d) To care for a spouse, child or parent who has a "serious health condition" as defined by the FMLA; and/or
- e) A "serious health condition" of the employee, as defined by the FMLA, that prevents the employee from performing his/her job. A "serious health condition" is defined as an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider that renders the employee incapacitated for more than three (3) consecutive calendar days and where the employee is required to see the health care provider at least twice. A "serious health condition" is also defined as any period of incapacity related to pregnancy or for prenatal care.

Military Family Leave EntitlementsMilitary Caregiver Leave

An eligible employee who is the spouse, son, daughter, parent, or next of kin (defined as the nearest blood relative) of a "covered service member" who is recovering from a service-connected serious illness or injury sustained while on active duty or a veteran who has a qualifying injury or

SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)

illness from service within the last five (5) years and aggravates that illness or injury, is entitled to up to twenty-six (26) weeks of leave in a single 12-month period to care for the service member. This military caregiver leave is available during a single 12-month period during which an eligible employee is entitled to a combined total of twenty-six (26) weeks of all types of FMLA leave. Military Caregiver Leave may be combined with other forms of FMLA-related leave providing a combined total of twenty-six (26) weeks of possible leave for any single twelve (12) month period; however, the other form of FMLA leave when combined cannot exceed twelve (12) of the twenty-six (26) weeks of combined leave.

Military Caregiver Leave has a set "clock" for calculating the twelve (12) month period for when FMLA leave begins and tolling starts at the first day of leave taken.

The term "covered service member" means:

- a) A member of the Armed Forces (including a member of the National Guard or Reserves) who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or
- b) A veteran who is undergoing medical treatment, recuperation, or therapy, for a serious injury or illness and who was a member of the Armed Forces (including a member of the National Guard or Reserves) at any time during the period of five (5) years preceding the date on which the veteran undergoes that medical treatment, recuperation or therapy.

"Qualifying Exigency" Leave/Call to Active Duty

An "eligible" employee is entitled to FMLA leave because of "a qualifying exigency" arising out of circumstances where the spouse, son, daughter, or parent of the employee is serving in the regular Armed Forces who is deployed to a foreign country or either the National Guard or the Reserves and is on active duty during a war or national emergency called for by the President of the United States or Congress, or has been notified of an impending call to active duty status, in support of a contingency operation.

A "qualifying exigency" related to families of the Army National Guard of the United States, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard of the United States, Air Force Reserve and Coast Guard Reserve personnel on (or called to) active duty to take FMLA protected leave to manage their affairs is defined as any one of the following reasons:

- a) Short-notice deployment;
- b) Military events and related activities;

(Continued)

SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)

- c) Childcare and school activities;
- d) Financial and legal arrangements;
- e) Counseling;
- f) Rest and recuperation;
- g) Post-deployment activities; and
- h) Any additional activities where the employer and employee agree to the leave.

In any case in which the necessity for leave due to a qualifying exigency is foreseeable, the employee shall provide such notice to the employer as is reasonable and practicable. This military-related leave is for up to twelve (12) weeks during a single 12-month period. Leave may be taken intermittently or on a reduced leave schedule.

Medical Treatment for Serious Health Conditions

The first visit to a health care provider for an employee claiming a "serious health condition" under FMLA must occur within seven (7) days of the aforementioned incapacity with the second required visit occurring within thirty (30) days of the incapacitating event.

If the employee claiming FMLA under the "serious health condition" rationale is sustaining continuous treatment, their first visit to a health care provider must take place within seven (7) days of the claimed incapacitating event.

Chronic "serious health conditions" require periodic visits; the employee must see a health care provider a minimum of two (2) times per year.

Implementation/Benefits/Medical Certification

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

(Continued)

SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In addition, the Board may require an employee to submit certification from a health care provider to substantiate that the leave is due to the "serious health condition" of the employee or the employee's immediate family member. Under no circumstance should the employee's direct supervisor contact any health care provider regarding the employee's condition; all contact in this manner must be made by a health care provider (employed at the employer), a human resource professional, a leave administrator or a management official. If the medical certification requested by the employer is found to be deficient, the employer must indicate where the errors are, in writing, and give the employee seven (7) days to provide corrected materials to cure any deficiency prior to any action being taken.

Special Provisions for School District Employees

An instructional employee is an employee whose principal function is to teach and instruct students in a class, a small group, or an individual setting (e.g., teachers, coaches, driving instructors, special education assistants, etc.). Teaching assistants and aides who do not have instruction as the principal function of their job are not considered an "instructional employee."

Intermittent Leave Taken By Instructional Employees

FMLA leave that is taken at the end of the school year and resumes at the beginning of the next school year is not regarded as intermittent leave but rather continuous leave. The period in the interim (i.e., summer vacation) is not counted against an employee and the employee must continue to receive any benefits that are customarily given over the summer break.

Intermittent leave may be taken but must meet certain criteria. If the instructional employee requesting intermittent leave will be on that leave for more than twenty percent (20%) of the number of working days during the period for which the leave would extend, the following criteria may be required by the employer:

- a) Take leave for a period or periods of a particular duration, not greater than the duration of the planned treatment; or
- b) Transfer temporarily to an available alternative position for which the employee is qualified, which has equivalent pay and benefits and which better accommodates recurring periods of leave than does the employee's regular position.

Appropriate notice for foreseeable FMLA leave still applies and all employees must be returned to an equivalent position within the School District. Additional work-related certifications, requirements and/or training may not be required of the employee as a contingent of their return to work.

(Continued)

SUBJECT: FAMILY AND MEDICAL LEAVE ACT (Cont'd.)Leave Taken by Instructional Employees Near the End of the Instructional Year

There are also special requirements for instructional employees taking leave and the leave's relation to the end of the term. If the instructional employee is taking leave more than five (5) weeks prior to the end of the term, the District may require that the employee take the leave until the end of the term if the leave lasts more than three (3) weeks and the employee was scheduled to return prior to three (3) weeks before the end of the term.

If the instructional employee is taking leave less than five (5) weeks prior to the end of the term for any of the following FMLA-related reasons except qualifying exigency, the District may require that the employee remain out for the rest of the term if the leave lasts more than two (2) weeks and the employee would return to work during that two (2) week period at the end of the instructional term.

If the instructional employee begins taking leave during the three (3) weeks prior to the end of the term for any reason except qualifying exigency, the District may require that the employee continue leave until the end of the term if the leave is scheduled to last more than five (5) working days.

Any additional time that is required by the employer due to the timing of the end of the school year, will not be charged against the employee as FMLA leave because it was the employer who requested that the leave extend until the end of the term.

FMLA Notice

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building and a notice of an employee's FMLA rights and responsibilities shall be either placed in the employee handbook of the employer or furnished to each new employee upon hire. The employer has five (5) days to supply such notice from the date of hire.

Administration is directed to develop regulations to implement this policy, informing employees of their rights and responsibilities under the FMLA.

SUBJECT: DETERMINATION OF EMPLOYMENT STATUS: EMPLOYEE OR INDEPENDENT CONTRACTOR

Regulations recently promulgated by the Office of the State Comptroller provide guidance to school districts to help them determine whether an individual is an employee, and therefore eligible for membership in the New York State and Local Retirement System (NYSLRS) and for service credit, or an independent contractor who is not eligible for membership.

A certification of the determination that an individual is an employee will now be required when the School District initially reports to the NYSLRS certain covered professionals -- those persons providing services as an attorney, physician, engineer, architect, accountant or auditor.

Employee shall mean an individual performing services for the School District for which the District has the right to control the means and methods of what work will be done and how the work will be done. Independent contractor shall mean a consultant or other individual engaged to achieve a certain result who is not subject to the direction of the employer as to the means and methods of accomplishing the result. (Guidance from the New York State Education Department emphasizes that School Districts and BOCES do not have the authority to enter into agreements with independent contractors for instructional services.)

Employees to be Reported to NYSLRS

Only persons who are active members of NYSLRS and who have been assigned a registration number shall be included in the reporting requirements. In the case of employees who are in the process of being registered to membership, all service, salary and deductions data and mandatory contributions shall be accumulated by the District and such accumulation shall be included with the first monthly report which is due after the employee's registration number has been assigned.

An individual serving the District as an independent contractor or consultant is not an employee and should not be reported to the retirement system.

The District has the primary responsibility for determining whether an individual is rendering services as an employee or as an independent contractor. When making such a determination the District must consider the factors enumerated in State Regulations.

The District shall also complete, as necessary, a Certification Form for Individuals Engaged in Certain Professions (Form RS2414) as promulgated by the Office of the New York State Comptroller. As noted on the Certification Form instructions, when making a determination as to an individual's status as an employee or independent contractor, no single factor should be considered to be conclusive of the issue. All factors should be considered in making an assessment of an individual's status when engaged to perform services.

**SUBJECT: DETERMINATION OF EMPLOYMENT STATUS: EMPLOYEE OR
INDEPENDENT CONTRACTOR (Cont'd.)****Written Explanation by District: Certain Professions**

In the case of an individual whose service has been engaged by the School District in the capacity of attorney, physician, engineer, architect, accountant or auditor and the District has determined that the individual is rendering service as an employee and, therefore, may be eligible for credit with a retirement system, the District shall submit to the retirement system, in a form prescribed by the Comptroller and certified by the Chief Fiscal Officer of the District, an explanation of the factors that led to the conclusion that the individual is an employee and not an independent contractor or consultant.

A lawyer who is not an employee of the School District shall not seek to be or be considered, treated or otherwise reported by the District as an employee thereof for purposes of compensation, remuneration, health insurance, pension and all employment-related benefits and emoluments associated therewith [Education Law Section 2051(2)].

Reports Regarding Lawyers

The District shall, on or before the 45th day after the commencement of its fiscal year, file with the State Education Department, the State Comptroller and the Attorney General a report specifying those requirements enumerated in Education Law Section 2053.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY**Statement of Overall Objectives**

School attendance is both a right and a responsibility. The School District is an active partner with students and parents in the task of ensuring that all students meet or exceed the New York State Learning Standards. Because the School District recognizes that consistent school attendance, academic success and school completion have a positive correlation, the School District has developed a Comprehensive Student Attendance Policy to meet the following objectives:

- a) To increase school completion for all students;
- b) To raise student achievement and close gaps in student performance;
- c) To identify attendance patterns in order to design attendance improvement efforts;
- d) To verify that individual students are complying with education laws relating to compulsory attendance;
- e) To determine the District's average daily attendance for State aid purposes.

Description of Strategies to Meet Objectives

The School District will:

- a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.
- b) Maintain accurate recordkeeping via a Register of Attendance to record attendance, absence, tardiness or early departure of each student.
- c) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.
- d) Develop early intervention strategies to improve school attendance for all students.

Determination of Excused and Unexcused Absences, Tardiness and Early Departures

Based upon our District's education and community needs, values and priorities, the School District has determined that absences, tardiness and early departures will be considered excused or unexcused according to the following standards.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

- a) **Excused:** An absence, tardiness or early departure may be excused if due to personal illness, illness or death in the family, impassable roads due to inclement weather, religious observance, quarantine, required court appearances, attendance at health clinics, approved college visits, approved cooperative work programs, military obligations, road tests, learner's permit or other such reasons as may be approved by the Board of Education.
- b) **Unexcused:** An absence, tardiness or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories (e.g., family vacation, hunting, babysitting, haircut, oversleeping).

Student Attendance Recordkeeping/Data Collection

The record of each student's presence, absence, tardiness and early departure shall be kept in a register of attendance in a manner consistent with Commissioner's Regulations. An absence, tardiness or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

Attendance shall be taken and recorded in accordance with the following:

- a) For students in non-departmentalized kindergarten through grade eight (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), such student's presence or absence shall be recorded after the taking of attendance once per school day, provided that students are not dismissed from school grounds during a lunch period. Where students are dismissed for lunch, their presence or absence shall also be recorded after the taking of attendance a second time upon the student's return from lunch.
- b) For students in grades 5 through 12 or in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence shall be recorded after the taking of attendance in each period of scheduled instruction except that where students do not change classrooms for each period of scheduled instruction, attendance shall be taken in accordance with paragraph "a" above.
- c) Any absence for a school day or portion thereof shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.
- d) In the event that a student at any instructional level from grades K through 12 arrives late for or departs early from scheduled instruction, such tardiness or early departure shall be recorded as excused or unexcused in accordance with the standards articulated in this policy.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

A record shall be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or such other cause as may be found satisfactory to the Commissioner of Education.

Attendance records shall also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

At the conclusion of each class period or school day, all attendance information shall be compiled and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness or early departure shall be coded on a student's record in accordance with the established District/building procedures.

Student Attendance Rationale

Frequent absences of pupils from regular classroom learning experiences disrupt the continuity of the instructional experience. The benefit of regular classroom instruction is lost and cannot be entirely regained, even by extra after-school instruction. Consequently, many pupils who miss school frequently experience great difficulty in achieving the maximum benefits of schooling. Indeed, many pupils in these circumstances are able to achieve only mediocre success in their academic programs. The school cannot teach pupils who are not present. The entire process of education requires a regular continuity of instruction, classroom participation, learning experiences, and study in order to reach the goal of maximum educational benefits for each individual child. The regular contact of the pupils with one another in the classroom and their participation in well-planned instructional activity under the tutelage of a competent teacher are vital to this purpose. This is a well-established principle of education which underlies and gives purpose to the requirement of compulsory schooling in this and every other state in the nation.

Students who are absent from class due to their participation in a school sponsored activity are to arrange with their teachers to make up any work in a timely manner as determined by the student's teacher. Attendance at school sponsored events where instruction is substantially equivalent to the instruction which was missed shall be counted as the equivalent of regular attendance in class.

Upon returning to school following a properly excused absence, tardiness or early departure, it shall be the responsibility of the student to consult with his/her teacher(s) regarding arrangements to make up missed work, assignments, and/or tests in accordance with the time schedule specified by the teacher.

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)**STEP 1**

After ten (10) official absences or tardies from school (legal and/or illegal) an official letter will be sent from the Principal and Guidance Director to the parent requesting a meeting. The meeting will be attended by the students, parent/guardian, Principal, and Guidance Director.

Prior to the meeting the Principal will meet with each teacher to discuss the student's progress to determine how the absences are affecting the grades.

At the meeting the student will be required to meet with all teachers to make arrangements to make up all necessary assignments.

STEP 2

After twenty (20) official absences or tardies from school (excused and/or unexcused) an official letter will be sent from the Superintendent to the parents requesting a meeting. The meeting will be attended by the student, parent/guardian, the Superintendent, the Guidance Director, and the Principal. The importance of attendance and the expectations for our students will be discussed.

The Principal will meet with the student on a weekly basis to check on his/her progress. Communication with the parents regarding these conferences will also take place.

Notice of Students who are Absent, Tardy or Depart Early Without Proper Excuse

A designated staff member shall notify by telephone the parent/person in parental relation to a student who is absent, tardy or departs early without proper excuse. The staff member shall explain the District's Comprehensive Student Attendance Policy, the District's/building level intervention procedures, and, if appropriate, the relationship between student attendance and course credit. If the parent/person in parental relation cannot be reached by telephone, the staff member will provide such notification by mail. Further, the District's Attendance Policy will be mailed to the parent/person in parental relation to promote awareness and help ensure compliance with the policy.

If deemed necessary by appropriate school officials, or if requested by the parent/person in parental relation, a school conference shall be scheduled between the parent/person in parental relation and appropriate staff members in order to address the student's attendance. The student may also be requested to attend this conference in order to address appropriate intervention strategies that best meet the needs of the student.

Intervention Strategy Process

In order to effectively intervene when an identified pattern of unexcused absences, tardiness or early departures occur, designated District personnel will pursue the following:

(Continued)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE POLICY (Cont'd.)

- a) Identify specific element(s) of the pattern (e.g., grade level, building, time frame, type of unexcused absences, tardiness or early departures);
- b) Contact the District staff most closely associated with the element. In specific cases where the pattern involves an individual student, the student and parent/person in parental relation will be contacted;
- c) Discuss strategies to directly intervene with specific element;
- d) Recommend intervention to Superintendent or his/her designee if it relates to change in District policy or procedure;
- e) Implement changes, as approved by appropriate administration;
- f) Utilize appropriate District and/or community resources to address and help remediate student unexcused absences, tardiness or early departures;
- g) Monitor and report short and long term effects of intervention.

Appeal Process

A parent/person in parental relation may request a building level review of their child's attendance record.

Building Review of Attendance Records

The Building Principal will work in conjunction with the building attendance clerk and other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness and early departures.

Annual Review by the Board of Education

The Board of Education shall annually review the building level student attendance records and if such records show a decline in student attendance, the Board shall make any revisions to the Policy and plan deemed necessary to improve student attendance.

Community Awareness

The Board of Education shall promote necessary community awareness of the District's Comprehensive Student Attendance Policy by:

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS

The School District has developed a plan for the diagnostic screening of all new entrants and students with low test scores.

A new entrant means a student entering the New York State public school system, pre-kindergarten through grade 12, for the first time, or re-entering a New York State public school with no available record of a prior screening.

Students with low test scores are students who score below level two on either the third grade English language arts or mathematics assessment for New York State elementary schools.

Such diagnostic screening will be utilized to determine which students:

- a) Have or are suspected of having a disability;
- b) Are possibly gifted; or
- c) Are possibly limited English proficient.

Such diagnostic screening shall be conducted:

- a) By persons appropriately trained or qualified;
- b) By persons appropriately trained or qualified in the student's native language if the language of the home is other than English;
- c) In the case of new entrants, prior to the school year, if possible, but no later than December 1 of the school year of entry or within fifteen (15) days of transfer of a student into a New York State public school should the entry take place after December 1 of the school year;
- d) In the case of students with low test scores, within thirty (30) days of the availability of the test scores.

New Entrants

For new entrants, diagnostic screening shall include, but not be limited to the following:

- a) A health examination by a physician/physician's assistant or nurse practitioner or submission of a health certificate in accordance with Education Law Sections 901, 903, and 904;
- b) Certificates of immunization or referral for immunization in accordance with Section 2164 of the Public Health Law;

(Continued)

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont'd.)

- c) Vision, hearing and scoliosis screenings as required by Section 136.3 of Commissioner's Regulations;
- d) A determination of development in oral expression, listening comprehension, written expression, basic reading skills and reading fluency and comprehension, mathematical calculation and problem solving, motor development, articulation skills, and cognitive development using recognized and validated screening tools; and
- e) A determination whether the student is of foreign birth or ancestry and comes from a home where a language other than English is spoken as determined by the results of a home language questionnaire and an informal interview in English and the native language.

Students with Low Test Scores

For students with low test scores, diagnostic screening shall include, but not be limited to:

- a) Vision and hearing screenings to determine whether a vision or hearing impairment is impacting the student's ability to learn; and
- b) A review of the instructional programs in reading and mathematics to ensure that explicit and research validated instruction is being provided in reading and mathematics.

No screening examination for vision, hearing or scoliosis condition is required where a student, parent, or person in parental relation objects on the grounds that such examination conflicts with their genuine and sincere religious beliefs.

Results and Reports

The results of the diagnostic screening shall be reviewed and a written report of each student screened shall be prepared by appropriately qualified School District staff. The report shall include a description of diagnostic screening devices used, the student's performance on those devices and, if required, the appropriate referral.

If such screening indicates a possible disability, a referral, with a report of the screening, shall be made to the Committee on Special Education (CSE) or the Committee on Preschool Special Education (CPSE) no later than fifteen (15) calendar days after completion of such diagnostic screening.

If such screening indicates a possibly gifted child, the name and finding shall be reported to the Superintendent of Schools and to the parents/legal guardians no later than fifteen (15) calendar days after completion of such screening. The term gifted child is defined as a child who shows evidence of

SUBJECT: DIAGNOSTIC SCREENING OF STUDENTS (Cont'd.)

high performance capability and exceptional potential in areas such as general intellectual ability, special academic aptitude and outstanding ability in visual and performing arts. Such definition shall include those children who require educational programs or services beyond those normally provided by the regular school program in order to realize their full potential.

If such screening indicates a child identified as possibly being of limited English proficiency, such child shall be referred for further evaluation in accordance with Part 154 of the Regulations of the Commissioner of Education to determine eligibility for appropriate transitional bilingual or free-standing English as a Second Language (ESL) programs.

Reporting to Parents

Parents/guardians of children to be screened shall receive information in advance regarding the purpose of screening, the areas to be screened and the referral process. The information shall be communicated either orally or in writing in the parents' primary language(s). This information will be provided during the registration interview.

Parents/guardians have the right to request information regarding their child's performance on screenings. They shall have access to the screening results and obtain copies upon request. The results of all mandated screening examinations shall be in writing and shall be provided to the child's parent/guardian and to any teacher of the child within the school while the child is enrolled in the school. A letter will be sent to the parent/guardian of any child failing a screening.

Confidentiality of Information

The Board of Education's policy and administrative regulations in accordance with the Family Educational Rights and Privacy Act of 1974 (FERPA) shall apply to all information collected about a child through the screening program. In accordance with the policy and regulations, parents shall be informed of their right to privacy, their right to access to the records and their right to challenge those records should they be inaccurate, misleading or otherwise inappropriate.

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY**Ages of Attendance/Compulsory Attendance Age**

According to Education Law, a student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Except as otherwise provided in Education Law Section 3205(3), a student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age.

However, in accordance with Education Law Section 3205(3), the Board of Education in **any** school district shall have the power to require minors from sixteen (16) to seventeen (17) years of age who are not employed to attend full-time instruction until the end of the school year in which the student turns seventeen (17) years of age.

All persons dwelling within the District who are between the ages of five (5) years and twenty-one (21) years and who have not received a high school diploma shall be entitled to enroll in the District.

Undocumented children, like U.S. citizen children, have the right to attend school full-time as long as they meet the age and residency requirements established by state law.

Proof of Age

The State Education Department does not require districts to collect students' social security numbers for any purpose. While school districts may need to collect certain data pursuant to State and/or federal laws, they should do so **after** a student has enrolled in school so as not to inadvertently give the impression that information related to immigration status will be used in making registration/enrollment determinations.

In accordance with Education Law, where a birth certificate or record of baptism is not available, a passport (including foreign passport) may be used to determine a child's age for purposes of enrollment/registration in school. Should none of these be available, the District may consider certain other documentary or recorded evidence to determine a child's age.

The following are examples of documentation that may be used to establish a student's age. This list is not intended to be exhaustive, nor is it a list of required documentation.

- a) School photo ID with date of birth;
- b) Hospital or health records;

(Continued)

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY (Cont'd.)

- c) State or other government-issued ID;
- d) Military dependent ID card;
- e) Native American Tribal document;
- f) Record(s) from non-profit international aid agencies and voluntary agencies (VOLAGs);
- g) Consulate identification card; and
- h) Official driver's license.

Determination of Student Residency

The residence of children dwelling within the District boundaries shall be established in a manner consistent with State Law and the Regulations of the Commissioner. The Board of Education or its designee shall determine whether a child is entitled to attend a District school. Any adverse residency decision by a school official, other than the Board or its designee, shall include written notice to the parent/person in parental relation of the procedures for obtaining review of the decision within the District.

A child's residence is presumed to be that of his/her parents or legal guardians. However, the District may encounter students, particularly from other countries, who reside with persons other than their parents or legal guardians. In order to determine residency in these cases, the District may request information regarding such student's custody to establish residency and to ensure the health, safety and welfare of the child.

Children Living With Noncustodial Parents

A child's residence is usually determined by the residence of the custodial parent. However, a noncustodial parent who resides in the District may enroll his/her child in a District school if he/she shares the day-to-day responsibilities for the child and the custodial parent designates the child's residence with the noncustodial parent.

Homeless Children

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

(Continued)

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY (Cont'd.)**Children of Activated Reserve Military Personnel**

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

Emancipated Minors

A determination of whether a student is to be designated as an emancipated minor in the Fillmore Central School District will be based on evidence that the student is no longer under custody, control and support of his/her parents/persons in parental relation. To establish emancipation, a minor may submit documentation of his/her means of support, proof of residency and an explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with his/her parents/persons in parental relation.

These statements are renewable each school year. If at any time the above information is changed without prompt notification or proven to be false, the parent/person in parental relation and/or student may be subject to legal action.

Children Living With Persons Not Their Parents -- Guardianship or Custody

In accordance with the Family Court Act and Domestic Relations Law, a person possessing a lawful order of guardianship or custody of a minor child who is not the parent of such child may enroll the child in public school in the school district where he/she and the child reside.

Therefore, upon application for enrollment by the guardian or custodian, the District shall enroll such a child for such time as the child resides with the guardian or custodian in the District upon verification that the guardian or custodian possess a lawful order of guardianship or custody for the child and that the guardian or custodian and the child properly reside in the same household within the District.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

To the extent practical and as required by law, the District will work with homeless students and their families to provide stability in school attendance and other services.

The parent/person in parental relation to a homeless child; or the homeless child, together with the homeless liaison designated by the School District in the case of an unaccompanied youth; or the director of a residential program for runaway and homeless youth established pursuant to Executive Law Article 19-H, in consultation with the homeless child, where such homeless child is living in such program, may designate either the school district of current location, the school district of origin, or a school district participating in a regional placement plan as the district the homeless child shall attend.

Pursuant to Commissioner's Regulations, a "homeless child" means a child or youth who lacks a fixed, regular, and adequate nighttime residence, including a child who is:

- a) Sharing the housing of other persons due to a loss of housing, economic hardship or a similar reason;
- b) Living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations;
- c) Abandoned in hospitals;
- d) Awaiting foster care placement;
- e) A migratory child who qualifies as homeless in accordance with Commissioner's Regulations. As defined in the No Child Left Behind Act of 2001, the term "migratory child" *includes* a child who is, or whose parent or spouse is, a migratory agricultural worker, including a migratory dairy worker, or a migratory fisher, and who has moved from one school district to another in the preceding thirty-six (36) months, in order to obtain, or accompanies such parent or spouse in order to obtain, temporary or seasonal employment in agricultural or fishing work; or
- f) A child or youth who has a primary nighttime location that is:
 1. A supervised, publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth established pursuant to Executive Law Article 19-H; or
 2. A public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings; including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train station or similar setting.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

- g) Considered an "unaccompanied youth":
1. An unaccompanied youth is a homeless child (for whom no parent or person in parental relation is available) or youth not in the physical custody of a parent or legal guardian.
 2. An unaccompanied youth **shall not include** a child or youth who is residing with someone other than a parent or legal guardian for the sole reason of taking advantage of the schools of the district.

The term "**homeless child**" **shall not include** a child in foster care or receiving educational services pursuant to Education Law Sections 3202(4), (5), (6), (6a) or (7) or pursuant to Articles 81, 85, 87 or 88. For example, a child in a family home at board, a school for the intellectually disabled, a hospital or other institution for the care, custody and treatment of children; youths under the direction of the Division for Youth incarcerated in county correctional facilities or youth shelters; or children residing in child care institutions or schools for the deaf or blind would not be considered "homeless."

Enrollment, Retention and Participation in the Educational Program

Enrollment of homeless children shall not be delayed and their ability to continue or participate in the educational program shall not be restricted due to issues such as:

- a) Transportation, up to fifty (50) miles;
- b) Immunization requirements;
- c) Residency requirements;
- d) Birth certificates, medical records, individualized education programs (IEPs), school records and other documentation;
- e) Guardianship issues;
- f) Comprehensive assessment and advocacy referral processes;
- g) Resolution of disputes regarding school selection;
- h) Proof of social security numbers;
- i) Attendance requirements;

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

- j) Sports participation rules;
- k) Inability to pay fees associated with extracurricular activities such as club dues and sports uniforms; or
- l) Other enrollment issues.

Educational Programs and Services

The School District shall provide homeless children and youth with access to all of its programs, activities and services to the same extent that they are provided to resident students.

Homeless children and youth shall be educated as part of the school's regular academic program. Services must be provided to homeless children and youth through programs and mechanisms that integrate homeless children and youth with their non-homeless counterparts, including programs for special education, vocational and technical education, gifted and talented students, before and after school, English language learners/limited English proficiency, Head Start, Even Start, and school nutrition. Services provided with McKinney-Vento funds must expand upon or improve services provided as part of the regular school program. Consequently, the School District shall ensure that homeless children and youth are not segregated in a separate school, or in a separate program within the school, based on their status as homeless; and to the extent feasible consistent with the requirements of Commissioner's Regulations, keep a homeless child or youth in the school of origin except when doing so is contrary to the wishes of the child's or youth's parent or guardian. Further, the School District shall review and revise policies and practices, including transportation guidelines, that may act as barriers to the enrollment, attendance, school success, and retention of homeless children and youth in the School District.

All homeless children and youth are automatically eligible for Title I Part A services whether or not they meet the academic standards or live in a Title I school attendance area. Homeless students may receive Title I educational or support services from schoolwide and targeted-assistance school programs.

Transportation

If the local social service district or the Office of Children and Family Services is not required to provide transportation, the designated district is responsible for the provision and the cost of the student's transportation. Where a homeless student designates the school district of current location as the district the student will attend, then that district shall provide transportation to the student on the same basis as a resident student. Where the homeless student designates the school district of origin or a school district participating in a regional placement plan, then that district must provide transportation to and from the homeless child's temporary housing and school.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

Transportation responsibilities apply to all school districts regardless of whether or not they receive McKinney-Vento funds. Transportation must be provided during the pendency of enrollment disputes. If the designated district provides transportation for non-homeless preschool children, it must also provide comparable transportation services for homeless preschool children.

School District Liaison for Homeless Children and Youth

The School District shall designate an appropriate staff person, who may also be a coordinator for other federal programs, as the local educational agency liaison for homeless children and youth to carry out the duties as enumerated in law, Commissioner's Regulations and applicable guidance issued by the U.S. and New York State Education Departments. The District will inform school personnel, local service providers and advocates of the office and duties of the local homeless liaison.

Training

The District will train all school enrollment staff, secretaries, school counselors, school social workers, and Principals on the legal requirements for enrollment. School nutrition staff, school registered professional nurses, teachers, and bus drivers will receive training on homelessness that is specific to their field.

Outreach

The District will make every effort to inform the parents or guardians of homeless children and youth of the education, transportation and related opportunities available to their children including transportation to the school of origin. The parent(s)/guardian(s) will be assisted in accessing transportation to the school they select, and will be provided with meaningful opportunities to participate in the education of their children. Public notice of educational rights of homeless children and youth will be disseminated by the District in places where families and youth are likely to be present (e.g., schools, shelters, soup kitchens), and in comprehensible formats (e.g., geared for low literacy or other community needs).

Dispute Resolution

The District shall establish procedures for the prompt resolution of disputes regarding school selection or enrollment of a homeless child or youth and provide a written explanation, including a statement regarding the right to appeal to the parent or guardian if the School District sends the student to a school other than the school of origin or the school requested by the parent or guardian. These disputes shall include, but are not limited to, disputes regarding transportation and/or a child's or youth's status as a homeless child or unaccompanied youth.

(Continued)

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH (Cont'd.)

If there is a factual dispute over whether a student is homeless, the District will immediately enroll the student and then provide the parent/guardian the opportunity to submit verification of homelessness. The student will remain enrolled until a final determination is made by the District and for a minimum of thirty (30) days after the final determination to allow the parent/guardian opportunity to appeal to the Commissioner of Education. If the student files an appeal that contains a request for a stay within thirty (30) days of such final determination, the District must continue to enroll the student until the Commissioner rules on the stay request.

Record and Reporting Requirements

If the District, as the school district of origin, receives a request to forward student records to a receiving district, the records must be forwarded within five (5) days.

The School District shall maintain documentation regarding all aspects of the District's contact with and services provided to homeless students and youth for possible on-site monitoring by the State Education Department.

The District shall collect and transmit to the Commissioner of Education, at such time and in the manner as the Commissioner may require, a report containing such information as the Commissioner determines is necessary to assess the educational needs of homeless children and youths within the state.

- b) No increase in the size of faculty or staff will be necessary;

- g) The enrollment of a non-resident student may be terminated by the Superintendent for cause at any time.

Tuition-Paying StudentsFuture Students

The children of families who have signed a contract to buy or build a residence in the School District may be enrolled for the semester in which they expect to become residents.

Foreign Students

Students from other nations who are living with District residents may be enrolled at the discretion of the District. In accordance with federal law, a foreign student who attends a public secondary school under an F-1 Visa must reimburse the School District for the full unsubsidized per capita cost of providing education at the school during the student's attendance. The administration is authorized to file with the U.S. Department of Homeland Security the forms necessary for the monitoring of non-immigrant foreign students during the course of their stay in the District in accordance with the Student and Exchange Visitor Information System (SEVIS).

- b) A student who moves from the District after completion of the first semester of the year preceding his/her anticipated graduation year may be given permission to remain in the Fillmore Central School District until graduation.

Foreign Exchange Students

Only foreign students participating in a recognized Student Exchange Program under a J-1 Visa may attend District schools without payment of tuition. The administration is authorized to file with the U.S. Department of Homeland Security the forms necessary for the monitoring of non-immigrant foreign students during the course of their stay in the District in accordance with the Student and Exchange Visitor Information System (SEVIS).

Proof of Residency

Such documentary or sworn proof as shall be required by the administration or Board of Education must be furnished prior to the admission of any child residing in the District with a person not his parent or who is the child of a non-resident. The admission of homeless children and youth will be in accordance with law.

Reservation of Claims

Should a material misstatement of fact be made and relied upon by any administrator or the Board of Education in admitting a non-resident student without tuition, the Board shall be entitled to recover the cost of instruction for the time the student was not authorized to attend a school in the District from the person having made the misstatement or from a person in parental relation to the student.

The Board of Education endorses and supports the use of ability, achievement, diagnostic, readiness, interest and guidance tests as part of the total educational process to the degree to which tests help the District to serve its students.

Alternative Testing Procedures

The use of alternative testing procedures shall be limited to:

- a) Students identified by the Committee on Special Education and/or Section 504 Team as having a disability. Alternative testing procedures shall be specified in a student's Individualized Education Program or Section 504 Accommodation Plan; and

SUBJECT: PROVISION OF INTERPRETER SERVICES TO PARENTS WHO ARE HEARING IMPAIRED

The Board of Education assures parents or persons in parental relation who are hearing impaired the right to meaningful access to school initiated meetings or activities pertaining to the academic and/or disciplinary aspects of their children's education. School initiated meetings or activities are defined to include, but are not limited to, parent-teacher conferences, child study or building-level team meetings, planning meetings with school counselors regarding educational progress and career planning, suspension hearings or any conferences with school officials relating to disciplinary actions. The term "hearing impaired" shall include any hearing impairment, whether permanent or fluctuating, which prevents meaningful participation in School District meetings or activities.

Parents or persons in parental relation shall be notified of the availability of interpreter services to be provided at no charge, provided that a written request is made to the School District within fourteen (14) days of the scheduled event. Exceptions to the time frame request may be made for unanticipated circumstances as determined by the Principal/designee. The District shall also notify appropriate school personnel as to the terms and implementation of this policy.

If interpreter services are requested, the District shall appoint an interpreter for the hearing impaired to interpret during the meeting or activity. The District will arrange for interpreters through a District-created list or through an interpreter referral service. In the event that an interpreter is unavailable, the School District shall make other reasonable accommodations which are satisfactory to the parents or persons in parental relation. Examples of what constitutes reasonable accommodations in the event an interpreter cannot be located may include, but are not limited to, the use of:

- a) Written communications, transcripts, note takers, etc.; and
- b) Technology, such as: a decoder or telecommunication device for the deaf, assistive listening devices, and closed or open captioning.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

Response to Intervention (RtI) is a multi-tiered early prevention and intervention system designed to improve outcomes for all students. In accordance with Commissioner's Regulations, the School District has established administrative practices and procedures for implementing District-wide initiatives that address a Response to Intervention (RtI) process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate RtI services pursuant to Commissioner's Regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The New York State Education Department (SED) has released a guidance document to assist school districts in designing and implementing an effective RtI process. This document includes, but is not limited to, information regarding regulatory requirements, quality indicators, staff development, tools to assist districts in selecting a specific model and procedures for the use of RtI data in determining if a student has a learning disability. This guidance document is available at:

<http://www.p12.nysed.gov/specialed/RTI/guidance/cover.htm>.

The Fillmore Central School District has established procedures for identifying students with learning disabilities that use a research-based RtI process prior to, or as part of, an individual evaluation to determine whether a student has a learning disability. An RtI process is required for all students in grades kindergarten through grade 4 suspected of having a learning disability in the area of reading. RtI cannot be utilized as a strategy to delay or deny a timely initial evaluation of a student suspected of having a disability under the Individuals with Disabilities Education Act (IDEA).

Minimum Requirements of District's RtI Program

The District's RtI process shall include the following minimum requirements:

- a) Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's Regulations, shall mean scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
- b) Screenings shall be provided to all students in the class to identify those students who are not making academic progress at expected rates.

Students in grades K through 8 will participate in AIMSweb universal screenings in reading and math three (3) times a year;

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

- c) Scientific, research-based instruction matched to student need with increasingly intensive levels of targeted interventions for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards;
- d) Repeated assessments of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards;
- e) The application of information about the student's response to intervention to make educational decisions about changes in goals [i.e., goals for all students, not just Individualized Education Program (IEP) goals], instruction and/or services and the decision to make a referral for special education programs and/or services.

Student progress will be reviewed at least quarterly by classroom teachers, reading specialists, special education teachers, the school psychologist, and Building Principals; and

- f) Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom that provides information about:
 - 1. The amount and nature of student performance data that will be collected and the general education services that will be provided as enumerated in Commissioner's Regulations;
 - 2. Strategies for increasing the student's rate of learning; and
 - 3. The parents' right to request an evaluation for special education programs and/or services.

Structure of Response to Intervention Program

Fillmore Central School will implement a three (3) tier Response to Intervention program as outlined in the approved Fillmore Central School Response to Intervention Service Plan.

RtI *minimally* includes:

- a) **Appropriate instruction** delivered to all students in the general education class by qualified personnel.
- b) **Screenings** applied to all students in the class to identify those students who are not making academic progress at expected rates.

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

- c) **Instruction matched to student need with increasingly intensive levels of targeted intervention**, arranged as tiers. This includes instruction for students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.
- d) **Repeated assessments** of student achievement which should include curriculum based measures to determine if interventions are resulting in student progress toward age or grade level standards.
- e) **Application of information** about the student's response to intervention **to make educational decisions** about changes in goals, instruction and/or services. This could then determine the *possibility* of a referral for special education programs and/or services.
- f) **Written notification to the parents** when the student requires an intervention beyond that provided to *all* students in the general education classroom that provides information about the:
 - 1. Amount and nature of student performance data that will be collected and the general education services that will be provided;
 - 2. Strategies for increasing the student's rate of learning; and
 - 3. Parents' right to request an evaluation for special education programs and/or services.

The District's RtI program will consist of multiple tiers of instruction/assessments to address increasingly intensive levels of targeted intervention to promote early identification of student performance needs and/or rate of learning, and to help raise achievement levels for all students.

Student Support Teams, whose members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, reading and math coordinators, designated administrators, and other individuals deemed appropriate by the District, will be available for each building/grade level classification to address the implementation of the District's RtI process.

The Student Support Team's responsibilities shall include, but are not limited to, the following:

- a) Determining the level of interventions/student performance criteria appropriate for each tier of the RtI model;
- b) Analyzing information/assessments concerning a student's response to intervention and making educational decisions about changes in goals, instruction and/or services;
- c) Determining whether to make a referral for special education programs and/or services.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Criteria for Determining the Levels of Intervention to be Provided to Students**

Fillmore Central School will implement a three (3) tier Response to Intervention program as outlined in the approved Fillmore Central School Response to Intervention Service Plan. Students will be provided interventions as recommended or required by New York State or the authors of standardized assessments.

Student intervention levels and assessment tools will be recommended as outlined in the Fillmore Central School Response to Intervention Service Plan.

Types of Interventions

The District will provide multiple tiers of increasingly intensive levels of targeted intervention and instruction for those students who do not make satisfactory progress in their levels of performance and/or in their rate of learning to meet age or grade level standards.

It is expected that use of the Tier Level of instruction will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier One Instruction

Tier One instruction is provided to all students in the general education setting. The use of scientific, research based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier One student performance data will be used to identify those students who need additional intervention at the Tier Two Level of instruction.

Tier Two Instruction

In general, Tier Two instruction will consist of small group, targeted interventions for those students identified as being "at risk" who fail to make adequate progress in the general education classroom. Tier Two instruction will include programs and intervention strategies designed to supplement Tier One interventions provided to all students in the general education setting.

Tier Two instruction may be provided by specialized staff such as reading and math teachers, tutors, speech therapists, school psychologists and/or school counselors as determined by the Student Support Team.

(Continued)

Students

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

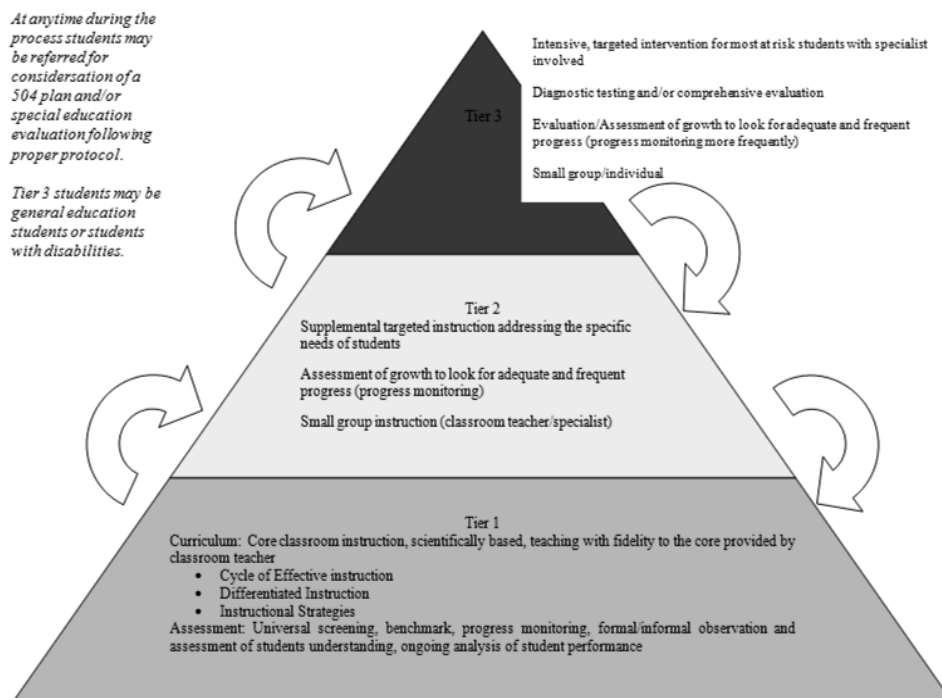

At the conclusion of Tier Two instruction, the Student Support Team will review the student's progress and make a determination as to whether Tier Two interventions should be maintained; the student returned to the general education classroom if satisfactory progress is shown; or referred for Tier Three instruction.

Tier Three Instruction

Tier Three instruction is the provision of more intensive instructional interventions, tailored to the needs of the individual student; and is provided to those students who do not achieve adequate progress after receiving interventions at the Tier Two level. Tier Three instruction may include longer periods of intervention program and services than those provided in the first two (2) Tiers based upon the significant needs of the student.

Tier Three instruction will be provided by those specialists, as determined by the Student Support Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the Committee on Special Education.

Progress monitoring on a continuous basis is an integral part of Tier Three; and the student's response to the intervention process will determine the need/level of further intervention services and/or educational placement.

(Continued)

Students

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)**Amount and Nature of Student Performance Data to be Collected**

The Student Support Team will determine the amount and nature of student performance data that will be collected to assess, on an ongoing basis, student performance results and address ongoing academic needs as warranted. Such data collection will reflect the Tier Level of intervention provided to the student. Student performance data will also be used to review the District's RtI program and make modifications to the program as deemed necessary.

Manner and Frequency for Progress Monitoring

The Student Support Team shall monitor the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team shall meet with the student's teacher(s) and will determine if further adjustments need to be made to the student's current instructional program and/or a change made to the Tier Level of intervention provided. Monitoring of student progress shall be an ongoing part of the RtI program from the initial screening to completion of the RtI process as applicable. Parents may also request that the progress of their child be reviewed by the Student Support Team.

Fidelity measures (e.g., an observational checklist of designated teaching behaviors in accordance with the RtI process being implemented) will also be completed by Team members to assess whether the intervention was implemented as intended and uniformly applied. Clear benchmarks will be established for student performance and performance charts will be plotted at the completion of the instructional period/intervention process.

Staff Development

All staff members involved in the development, provision and/or assessment of the District's RtI program, including both general education and special education instructional personnel, shall receive appropriate training necessary to implement the District's RtI program. Staff development will include the criteria for determining the levels of intervention provided to students, the types of interventions, collection of student performance data, and the manner and frequency for monitoring progress.

Parent Notification

Written notification shall be provided to parents when their child requires an intervention beyond that provided to all students in the general education classroom. Such written notice shall include the following information:

- a) The amount and nature of student performance data that will be collected and the general education services that will be provided as part of the RtI process;

(Continued)

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS (Cont'd.)

- b) Strategies for increasing the child's rate of learning; and
- c) The parents' right to request an evaluation for special education programs and/or services.

SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION/ACCELERATED PROGRAMS

In order to graduate from Fillmore Central School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations. The Board of Education reserves the right to establish requirements for graduation which exceed the minimum standards as defined by the New York State Regents. All students must be in compliance with Commissioner's Regulations for graduation in achieving a minimum of a Regents diploma unless otherwise indicated.

Regents Diploma with Honors

The District may award a Regents diploma with honors to students who receive an average of ninety percent (90%) on all Regents examinations required for the honors diploma. These exams include comprehensive English, mathematics, science, US History and Government, Global History and Geography and languages other than English (LOTE). This "honors" diploma may also be given to a student who has substituted no more than two (2) alternative assessments for a Regents examination as approved by Commissioner's Regulations Section 100.2(f). However, the student's actual score on the substituted alternative assessment will not be factored into the ninety percent (90%) calculation.

Regents Diplomas with Advanced Designation with Honors

The District may award a Regents diploma with advanced designation with honors. A student needs to have an average score of ninety percent (90%) on all Regents examinations required for the advanced diploma. These Regents examinations are: comprehensive English, two (2) (or three [3]) mathematics, two (2) sciences (one in physical science/the other in life science), US History and Government, Global History and Geography and languages other than English (LOTE).

Appeal of Regents Examination Score Option

School Districts must provide unlimited opportunities for all students (students with and without disabilities) to retake required Regents examinations to improve their scores so that the student may graduate with a Regents diploma. A student with or without a disability who fails, after at least two (2) attempts, to attain a score of 65 or above on a required Regents examination for graduation must be given an opportunity to appeal such score in accordance with the provisions of Section 100.5(d)(7)(i) of the Regulations of the Commissioner of Education. No student may appeal his/her score on more than two (2) of the five (5) required Regents examinations. A student whose appeal is accepted for one (1) required Regents examination, and who has attained a passing score of 65 or above on each of the four (4) remaining required Regents examinations, and who has attained a passing score of 65 or above on each of the three (3) remaining required Regents examinations, earns a local diploma.

SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION/ACCELERATED PROGRAMS (Cont'd.)**Early Graduation**

Upon request from the student's parent/guardian, a student shall be eligible for early graduation in fewer than eight (8) semesters upon completion of all requirements for graduation, excluding physical education, as mandated by Commissioner's Regulations. A student shall not be required to continue enrollment for the sole purpose of completing physical education requirements.

Accelerated ProgramsEighth Grade Acceleration for Diploma Credits

Individual eighth grade students only may be afforded the opportunity to take high school courses in mathematics and in at least one of the following areas: English, social studies, languages other than English, art, music, career and technical education subjects, or science courses. The Superintendent or his/her designee is responsible for determining that an eighth grade student is eligible to take high school courses. The District shall utilize a set of criteria to determine each student's readiness for acceleration. Students who are accelerated for diploma credit must have been provided instruction designed to facilitate their attainment of, by the end of Grade 7, the State intermediate learning standards in each subject area in which they are accelerated.

Advanced Placement

Advanced Placement (AP) examinations are administered by the College Board with strict guidelines as to their implementation. A national, standardized, arduous examination is administered by the College Board in May of each year for a great variety of courses in various subject areas. In addition to entering a universe of knowledge that might otherwise remain unexplored in high school, Advance Placement examinations afford students the opportunity to earn credit or advanced standing in most of the nation's colleges and universities. The District shall utilize a set of criteria to determine a student's readiness for enrollment in the Advanced Placement classes.

Online Coursework

Section 100.5(d) of NYCRR amends the Commissioner's Regulations to allow school districts and BOCES to offer students the ability to complete general education and diploma requirements for a specific subject through online instruction or blended coursework that combines online and classroom-based instruction.

To receive credit students shall successfully complete an online or blended course and demonstrate mastery of the learning outcomes for the subject by passing the Regents exam and/or other assessment in the subject area.

SUBJECT: GRADUATION REQUIREMENTS/EARLY GRADUATION/ACCELERATED PROGRAMS (Cont'd.)**Requirements to Participate in Graduation Exercises**

All students are required to meet all graduation requirements including passing all exams and passing all required courses before being allowed to graduate.

In order to participate in the graduation ceremony, all graduation requirements must be met by 4 p.m. the day preceding commencement.

Students who choose to complete all their senior graduation requirements by attending college full time are eligible to participate in the high school ceremonies if they choose. Notification must be received no later than May 15 in the Principal's Office if a student plans to participate in graduation ceremonies.

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The Board of Education is committed to ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with the provisions of Commissioner's Regulations Section 100.5. However, through June 30, 2013, when necessary, the District may award high school Individualized Education Program (IEP) diplomas to students with disabilities.

Beginning on July 1, 2013 and thereafter, IEP diplomas will be eliminated as a graduation option for students with disabilities. Pursuant to Commissioner's Regulation Section 100.6, a Skills and Achievement Commencement Credential will be available for students with severe disabilities who have been designated to take the New York State Alternative Assessment. Pursuant to Commissioner's Regulation Section 100.5, the Local Diploma Compensatory Option will be available for those students with disabilities who are pursuing a Local Diploma.

Students pursuing either a Regents or a local high school diploma must acquire a certain number of units of credit in specified courses and also meet subject sequence requirements. It is critical that students with disabilities be provided access to the required courses and testing programs needed for graduation with these awards.

Regents Diploma Requirements

To earn a high school Regents diploma, all students, including students with disabilities, need to take and pass five (5) specific Regents examinations with a score of 65 or higher and earn twenty-two (22) units of credit. The required Regents Examinations are English, Mathematics, Science, Global History and Geography, and U.S. History and Government.

Local Diploma Safety Net Options for Students with DisabilitiesStudents with Disabilities Entering Grade 9 Prior to September 2011

Students with disabilities who first enter grade 9 prior to September 2011 may earn credit toward a Local Diploma by:

- a) Achieving a score of 55-64 on any or all Regents Examinations required for graduation (English, Mathematics, Science, Global History and Geography, and/or U.S. History and Government); or
- b) Passing the corresponding Regents Competency Test (RCT) of a failed required Regents Examination.

The school may administer the RCT before or after the Regents Examination, but in all cases the student **MUST** take the required Regents Examination in order to earn the Local Diploma.

(Continued)

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES (Cont'd.)

The RCT Examinations shall remain available until the student graduates or reaches the age of twenty-one (21). This provision of law applies only to students with disabilities who are entitled to attend school pursuant to Education Law Section 3202 or 4402(5).

Students with Disabilities Entering Grade 9 after September 2011

The option to take the Regents Competency Test (RCT) will not be available for any students entering Grade 9 beginning in September 2011 and thereafter. The student's grade level is based on the grade in which the student was enrolled during the school year (September to June) prior to September 2011. While the RCT safety net ends with the class of students that entered Grade 9 during the 2010-2011 school year, the local diploma option remains available to all students with disabilities provided they earn a score of 55-64 on one (1) or more required Regents examinations.

Local Diploma Compensatory Option

As of October 31, 2012, the Board of Regents has provided an additional option for students with disabilities to earn a local diploma. This option is known as the Local Diploma Compensatory Option.

To earn a local diploma using this compensatory option a student must:

- a) Score between 45-54 on one (1) or more of the required Regents exams, other than on the English Language Arts (ELA) or the mathematics exams, in which case the lower score(s) can be compensated by the higher scores;
 1. A score of at least 55 must be earned on both the ELA and mathematics exams;
 2. A score of 65 or higher on a single examination may not be used to compensate for more than one exam; and
- b) Obtain a passing grade that meets or exceeds the required passing grade by the school, for the course in the subject area of the Regents examination in which he/she received a score of 45-54; and
- c) Have a satisfactory attendance rate in accordance with the District's or school's attendance policy for the school year during which the student took the examination in which he/she received a score of 45-54, exclusive of excused absences; and
- d) Not already be using a passing score on one (1) or more Regents Competency Tests (RCTs) to graduate with a local diploma. A student may not use the compensatory score option if he/she is using a passing score on one (1) or more RCTs to receive a local diploma.

(Continued)

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES (Cont'd.)

A student meeting all of the necessary components listed above, using the compensatory option, may be issued a local high school diploma.

High School Individualized Program (IEP) Diplomas (Available through June 30, 2013)

Each individualized education program (IEP) diploma awarded shall be accompanied by a written statement of assurance that the student named as its recipient shall continue to be eligible to attend school until the student has earned a high school diploma or until the end of the school year of such student's twenty-first (21st) birthday, whichever occurs first.

Students will no longer be awarded an IEP diploma after July 1, 2013 pursuant to the addition to Commissioner's Regulations in Section 100.9(g). Students who are currently on track to receive an IEP diploma prior to June 30, 2013 must be given prior written notice that students continue to be entitled to a free appropriate public education until the end of the school year in which the student turns age twenty-one (21) or until the receipt of a regular high school diploma.

The Superintendent shall report to the State Education Department, within fifteen (15) days after the June graduation, the total number and the names of the students awarded IEP diplomas that school year.

Skills and Achievement Commencement Credential

Beginning with the 2013-14 school year and thereafter, the Board of Education or the trustees of a school district **shall**, and the Principal of a nonpublic school **may**, issue a skills and achievement commencement credential to a student who has taken the New York State Alternative Assessment for students with severe disabilities.

Prior to awarding the skills and achievement commencement credential, the governing body of the School District shall ensure that:

- a) The student has been recommended by the Committee on Special Education (CSE) to take the alternate assessment in lieu of a required State assessment;
- b) Such student meets the definition of a student with a severe disability as defined in Section 100.1(t)(2)(iv); and
- c) The student has been given appropriate opportunities to participate in community experiences and development of employment and other instructional activities to prepare the student for post-secondary living, learning and employment.

The credential option may be issued at any time after a student has attended school for at least twelve (12) years, excluding kindergarten, or has received a substantially equivalent education elsewhere, or at the end of the school year that the student turns twenty-one (21) years of age.

(Continued)

SUBJECT: CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES (Cont'd.)

The skills and achievement commencement credential shall be similar in form to the diploma issued by the School District except the credential must contain a clear annotation on it that it is based on alternate academic achievement standards.

The credential shall be issued with a summary of the student's academic achievement and functional performance as defined by Commissioner's Regulations Section 200.4(c)(4).

If the student receiving the credential is less than twenty-one (21) years of age, the credential shall be accompanied with a written statement of assurance that the student receiving the credential is eligible to attend the public schools without payment of tuition until the student has either received a regular high school diploma or until he/she turns age twenty-one (21), whichever occurs first.

SUBJECT: BACCALAUREATE PROGRAM

The Board of Education has determined that it is law and policy of New York State that all school facilities be made available equally to all school related groups on an equal and nondiscriminatory basis. In past years the holding of a community wide baccalaureate program was a traditional part of the commencement proceedings, and has been well attended by students, residents and other guests.

However, the legal requirements prohibiting official sponsorship of a religious service or activity by the School District make it improper for the District or any employees of the District to organize or sponsor such a baccalaureate program.

Therefore, the Board of Education desires to set forth a clear and definite policy to guide its employees, agents, students and the community as follows:

- a) The Fillmore Central School District will not sponsor or schedule a baccalaureate program as a part of the official commencement activities for graduating seniors.
- b) The employees, agents and staff of the School District shall not undertake to encourage or discourage the conduct of a baccalaureate program related to the commencement activities. Such policy shall not prevent or have any effect upon school personnel who may wish to be involved in such programs on a personal basis unrelated to their employment by the School District.
- c) The facilities of the School District shall be available to all appropriate student initiated and student led groups seeking the use of such facilities for a non-school sponsored baccalaureate program upon the same basis and criteria as any other group. Preference will be given to any group based upon usual factors which shall include but not be limited to the following: order in which requests are received; numbers of persons to be involved and the impact upon other scheduled programs; sufficiency of chaperones or faculty-staff advisors for the nature of the activity, and such other criteria as the Board or its designated representative shall deem appropriate. The School District shall not discriminate against any group on the basis of the religious nature of its anticipated program.
- d) This policy is adopted to comply with the provisions of the Equal Access Act and recent decisions of federal and state courts regarding school district sponsorship of baccalaureate programs by public schools.

SUBJECT: CRITERIA FOR CLASS VALEDICTORIAN AND SALUTATORIAN

A student's average and rank in class is calculated using the marks for courses that meet five (5) times per week in our high school plus Health. Marks for credits earned through the credit by examination provision of the Regents Action Plan will also be used for overall average and rank in class calculations. Marks for courses such as band, choir, driver education and physical education are not used in the calculation. Credits earned through independent study, correspondence courses, college courses, or home schooling, have no bearing on class standing. Those credit bearing courses typically taken in grades 9 through 12 are the only ones used in this calculation up through the end of the seventh semester for students graduating in four (4) years and through the fifth semester for those graduating in three (3) years. The student with the highest overall average is the valedictorian and with the second highest average is the salutatorian, however, students must have attended Fillmore Central for at least four (4) of these semesters or three (3) of these if graduating in three (3) years to be eligible for valedictorian or salutatorian. To be eligible to be valedictorian or salutatorian, students graduating in three (3) years must declare their intention to graduate by June 30 of their sophomore year.

Students

SUBJECT: DUAL CREDIT FOR COLLEGE COURSES

Students who wish to enroll in college level coursework shall meet all academic, grade level and coursework requirements as set forth by administrative guidelines. Students who have demonstrated intellectual and social maturity may choose to matriculate at any one (1) of the colleges that have a cooperative agreement with our School District. Such opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. Review and approval by the administration are necessary before any college courses may be taken during the school day.

The Board shall not be required to pay tuition and other related costs for those high school students enrolled in college courses.

Students

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE

The School District shall comply with the provisions of the Family Educational Rights and Privacy Act of 1974 (FERPA). Under its provisions, parents/guardians and noncustodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all education records maintained by the School District.

Education Records

The term "education records" is defined as all records, files, documents and other materials containing information directly related to a student; and maintained by the education agency or institution, or by a person acting for such agency or institution (34 Code of Federal Regulations (CFR) Section 99.3). This includes all records regardless of medium, including, but not limited to, handwriting, videotape or audiotape, electronic or computer files, film, print, microfilm, and microfiche.

In addition, for students who attend a public school district, all records pertaining to services provided under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA. As such, they are subject to the confidentiality provisions of both Acts.

Personal notes made by teachers or other staff, on the other hand, are not considered education records if they are:

- a) Kept in the sole possession of the maker;
- b) Not accessible or revealed to any other person except a temporary substitute; and
- c) Used only as a memory aid.

Additionally FERPA does not prohibit a school official from disclosing information about a student if the information is obtained through the school official's personal knowledge or observation and not from the student's education records.

Records created and maintained by a law enforcement unit for law enforcement purposes are also excluded.

Access to Student Records

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians of students and

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)

noncustodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to ensure the confidentiality of such records with respect to third parties.

Under FERPA, unless otherwise exempted in accordance with law and regulation, the District may release personally identifiable information (PII) contained in student education records only if it has received a "signed and dated written consent" from a parent or eligible student. Signed and dated written consent may include a record and signature in electronic form provided that such signature:

- a) Identifies and authenticates a particular person as the source of the electronic consent; and
- b) Indicates such person's approval of the information contained in the electronic consent.

ExceptionsDirectory Information and Limited Directory Information Disclosure

Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed. Limited Directory Information Disclosure means that the District may limit disclosure of its designated directory information to specific parties, for specific purposes, or both. The intent is to allow schools the option to implement policies that allow for the disclosure of student information for uses such as yearbooks, but restrict disclosure for more potentially dangerous purposes. The District shall limit disclosure of its designated directory information as otherwise specified in its public notice to parents of students in attendance and eligible students in attendance.

Health and Safety Emergency Exception

School districts must balance the need to protect students' personally identifiable information with the need to address issues of school safety and emergency preparedness. Under FERPA, if an educational agency or institution determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education records, without consent, to any person whose knowledge of the information is necessary to protect the health and safety of the student or other individuals during the period of the health or safety emergency. School districts may release information from records to appropriate parties including, but not limited to, parents, law enforcement officials and medical personnel. A school district's determination that there is an articulable and significant threat to the health or safety of a student or other individuals shall be based upon a totality of the circumstances, including the information available, at the time the determination is made. The school district must record the articulable and significant threat that formed the basis for the disclosure and maintain this record for as long as the student's education records are maintained.

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)**Studies Exception**

This exception allows for the disclosure of PII from education records without consent to organizations conducting studies for, or on behalf of, schools, school districts or postsecondary institutions. Studies can be for the purpose of developing, validating, or administering predictive tests; administering student aid programs; or improving instruction.

The District may, from time to time, disclose PII from education records without consent to such organizations conducting studies for the District, in accordance with its obligations under FERPA.

In addition, other entities outside of the District may, from time to time, disclose PII from education records that the District has previously shared with that entity, to organizations conducting studies on behalf of the District. For example, a State Education Agency (SEA) may disclose PII from education records provided by the District without consent to an organization for the purpose of conducting a study that compares program outcomes across school districts to further assess the effectiveness of such programs with the goal of providing the best instruction.

Required Agreements for the Studies or Audit/Evaluation Exceptions

To the extent required by law, the District shall enter into a written agreement with organizations conducting studies for the District, or, with its designated authorized representatives in connection with audits or evaluations of education programs within the District. In the event that the District discloses PII from education records to its own designated authorized representative in connection with an audit or evaluation of an educational program within the District, it shall use reasonable methods to ensure to the greatest extent practicable that its designated authorized representative complies with FERPA and its regulations.

Challenge to Student Records

Parents/guardians of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to ensure that the records are not inaccurate, misleading, or otherwise in violation of the privacy of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

Disclosures to Parents of Eligible Students

Even after a student has become an "eligible student" under FERPA (which is defined as a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education) an educational agency or institution may disclose education records to an eligible student's parents, without the student's consent:

(Continued)

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE (Cont'd.)

- a) If the student is claimed as a dependent for Federal income tax purposes by either parent;
- b) In connection with a health or safety emergency;
- c) If the student is under twenty-one (21) years of age and has violated an institutional rule or policy governing the use of alcohol or a controlled substance; or
- d) If the disclosure falls within any other exception to the consent requirements under FERPA or its Regulations, such as the disclosure of directory information or in compliance with a court order or lawfully issued subpoena.

Release of Information to the Noncustodial Parent

The District may presume that the noncustodial parent has the authority to request information concerning his/her child and release such information upon request. If the custodial parent wishes to limit the noncustodial parent's access to the records, it would be his/her responsibility to obtain and present to the school a legally binding instrument that prevents the release of said information.

Release of Information to Another Educational Institution

The District may disclose any and all educational records, including disciplinary records and records that were created as a result of a student receiving special education services under Part B of IDEA, to another school or postsecondary institution at which the student seeks or intends to enroll, or after the student has enrolled or transferred, so long as the disclosure is for purposes related to the student's enrollment or transfer. Parental consent is not required for transferring education records if the school's annual FERPA notification indicates that such disclosures may be made. In the absence of information about disclosures in the annual FERPA notification, school officials must make a reasonable attempt to notify the parent about the disclosure, unless the parent initiated the disclosure. Additionally, upon request, schools must provide a copy of the information disclosed and an opportunity for a hearing.

SUBJECT: STUDENT DIRECTORY INFORMATION

The District shall publish an annual public notice informing parents or eligible students (i.e., a student eighteen (18) years of age or older or who is attending an institution of post-secondary education) of the District's definition of directory information, the parent/eligible student's right to refuse the release of student directory information and indication of the time period for their response. (Directory information is information contained in an education record of a student that would not generally be considered harmful or an invasion of privacy if disclosed.) Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

The Family Educational Rights and Privacy Act (FERPA) defines student directory information as any of the items as indicated in the following list. The Fillmore Central School District will release the following defined directory information as checked below:

- name
- address
- telephone listing
- date and place of birth
- major field of study
- grade level
- participation in sports and activities
- weight and height (for members of athletic teams)
- dates of attendance
- honors, degrees and awards
- email address
- photograph
- name of educational institution previously attended

Directory information **does not** include:

- a) A student's social security number; or
- b) A student's identification (ID) number, except as provided below.

Directory information includes a student ID number, user ID, or other unique personal identifier used by the student for purposes of accessing or communicating in electronic systems, or that is displayed on a student ID card or badge, but only if the identifier cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN), password, or other factor known or possessed only by the authorized user. Parents and eligible students may not, by opting out of disclosure of directory information, prevent a school from requiring a student to wear or present a student identification card or a badge that displays information that may be directory information.

(Continued)

SUBJECT: STUDENT DIRECTORY INFORMATION (Cont'd.)**Military Recruiter Access**

The release of student directory information is not to be confused with the release of names, addresses and telephone listings of eligible students (i.e., a student seventeen (17) years of age or older or in the eleventh grade [or its equivalent] or higher) to Military Recruiters. In compliance with the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB), and the National Defense Authorization Act, the School District shall notify parents that by law it routinely releases this information to Military Recruiters upon request subject to a parents'/eligible students' request not to disclose such information with written parental verification of such request.

Limited Directory Information Disclosure

Limited Directory Information Disclosure means that that the District may limit disclosure of its designated directory information to specific parties, for specific purposes, or both. Allowing limited directory information disclosure may permit the District to use student directory information for such limited purposes as school yearbooks, honor roll lists, graduation programs, playbills and other similar uses, without obtaining individual consent. Limiting the disclosure of such information may be beneficial when the District perceives such disclosure as putting students at risk of becoming targets of marketing campaigns, news media or possible victims of criminal acts. The District shall limit its disclosure of its designated directory information as specified in its public notice to parents and eligible students.

SUBJECT: MILITARY RECRUITERS' ACCESS TO SECONDARY SCHOOL STUDENTS AND INFORMATION ON STUDENTS

In compliance with the Elementary and Secondary Education Act (ESEA) of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB); and the National Defense Authorization Act, and in accordance with the Family Educational Rights and Privacy Act (FERPA), the School District shall comply with a request by a Military Recruiter for names, addresses, and telephone listings of eligible students. Eligible student under ESEA and the National Defense Authorization Act is defined as a secondary student who is seventeen (17) years of age or older or in the eleventh grade (or its equivalent) or higher. Under ESEA and the National Defense Authorization Act, parents must be notified that the School District by law routinely discloses students' names, addresses, and telephone listings to Military Recruiters upon request, subject to a parent's/eligible student's request not to disclose such information with written parental verification of such request.

Under FERPA, the School District must provide notice to parents/eligible students of the types of student information that it releases publicly. This type of information, commonly referred to as "directory information," which is released by the District includes - but is not limited to - such items as students' names, addresses, and telephone listings. The notice must include an explanation of a parent's/eligible student's right to request that "directory information" not be disclosed without prior written consent of the parent/eligible student. Eligible student under FERPA is defined as a student eighteen (18) years of age or older or who is attending an institution of post-secondary education.

A single notice provided through a mailing, student handbook, or other method that is reasonably calculated to inform parents/eligible students of the above information is sufficient to satisfy the notification requirements of both FERPA, ESEA and the National Defense Authorization Act. The notification shall advise the parent/eligible student of how to opt out of the public, nonconsensual disclosure of directory information and the disclosure of name, address and telephone listing to Military Recruiters; and shall state the method and timeline within which to do so.

Further, in compliance with the ESEA and the National Defense Authorization Act, the District shall give Military Recruiters the same access to secondary school students as they provide to postsecondary institutions or to prospective employers.

If a parent/eligible student opts out of providing directory information (or any subset of such information) to third parties, the opt-out relating to the student's name, address, or telephone listing applies to requests from Military Recruiters as well. For example, if the opt-out states that telephone numbers will not be disclosed to the public, the District may not disclose telephone numbers to Military Recruiters.

The Superintendent/designee shall ensure that appropriate notification is provided regarding the opt-out rights prohibiting release of directory information and/or release of name, address and telephone listing to Military Recruiters.

SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO MINORS

The Protection of Pupil Rights Amendment (PPRA) governs the administration to students of a survey, analysis, or evaluation that concerns one (1) or more of the following **eight (8) protected areas**:

- a) Political affiliations or beliefs of the student or the student's parent/guardian;
- b) Mental or psychological problems of the student or the student's family;
- c) Sex behavior or attitudes;
- d) Illegal, anti-social, self-incriminating, or demeaning behavior;
- e) Critical appraisals of other individuals with whom respondents have close family relationships;
- f) Legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers;
- g) Religious practices, affiliations, or beliefs of the student or student's parent/guardian; or
- h) Income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

PPRA also concerns marketing surveys and other areas of student privacy, parental access to information, and the administration of certain physical examinations to minors.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of the Family Educational Rights and Privacy Act (FERPA).

The rights provided to parents/guardians under PPRA transfer from the parent/guardian to the student when the student turns eighteen (18) years old or is an emancipated minor under applicable State law.

The School District may use funds provided under Part A of Title V of the Elementary and Secondary Education Act of 1965 to enhance parental/guardian involvement in areas affecting the in-school privacy of students.

SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO MINORS (Cont'd.)

Annual Parental Notification of Policies/Prior Written Consent/"Opt Out" Provisions

The School District shall provide for reasonable notice of the adoption or continued use of this policy directly to parents/guardians and eligible students enrolled in the District. At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians to provide written consent or opt their child out of participation in the following activities in accordance with law and the surveys conducted:

- a) The administration of **any survey** containing one (1) or more of the **eight (8) protected areas**.
 1. **U.S. Department of Education-Funded Surveys: Prior written consent from parents must be obtained** before students are required to submit to the survey.
 2. **Surveys funded by sources other than U.S. Department of Education:** Notification may indicate the specific or approximate dates during the school year when surveys will be administered and provide an opportunity for the parent to opt his/her child out of participating upon receipt of the notification.
- b) Activities involving the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).
- c) Any non-emergency, invasive physical examination or screening that is required as a condition of attendance; administered by the school and scheduled by the school in advance; and not necessary to protect the immediate health and safety of the student, or of other students. The term "*invasive physical examination*" means any medical examination that involves the exposure of private body parts, or any act during such examination that includes incision, insertion, or injection into the body, but *does not include a hearing, vision or scoliosis screening*.

Specific Notification

In the event that the District does not identify the specific or approximate dates of the activities or surveys to be administered in the general annual notification, it shall "directly" notify, such as through U.S. Mail or email, the parents of students who are scheduled to participate in the specific activities or surveys prior to participation and provide an opportunity for the parent to provide written consent or opt his/her child out of participation in accordance with law and the surveys conducted.

U.S. Department of Education-Funded Surveys

In compliance with the Protection of Pupil Rights Amendment (PPRA), the School District is committed to protecting the rights and privacy interests of parents/guardians and students with regard to surveys funded in whole or part by any program administered by the U.S. Department of Education (DOE).

The District shall make instructional materials available for inspection by parents/guardians if those materials will be used in connection with a DOE-funded survey, analysis, or evaluation in which their children participate. In addition, the School District **shall obtain prior written parental/guardian consent** before minor students are required to participate in any DOE-funded survey, analysis, or evaluation that reveals information concerning any of the **eight (8) protected areas**.

Surveys Funded by Sources Other than U.S. Department of Education

The School District has developed and adopted this Board policy, in consultation with parents/guardians, regarding the following:

- a) The right of the parent/person in parental relation to inspect, upon request, a survey created by a third party (i.e., by a party other than the DOE) before the survey is administered or distributed by the school to a student. Requests by parents/guardians to inspect such surveys are to be submitted, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.
- b) Arrangements shall be provided by the District to protect student privacy in the event of the administration or distribution of a survey to a student containing one (1) or more of the **eight (8) protected areas**, including the right of the parent/guardian of the student to inspect, upon request, any survey containing one (1) or more of the **eight (8) protected areas**. Such requests must be submitted by the parent/guardian, in writing, to the Building Principal at least ten (10) days prior to the administration or distribution of any survey.
- c) Parents/guardians shall be granted, upon request, reasonable access and the right to inspect specific instructional materials used as part of the educational curriculum for the student within a reasonable period of time.
- d) The administration of physical examinations or screenings that the School District may administer to a student.

(Continued)

SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO MINORS (Cont'd.)

Further, this law does not apply to any physical examination or screening that is permitted or required by State law, including physical examinations or screenings that are permitted without parental notification.

In the implementation of this provision regarding the administration of physical examinations or screenings that the school may administer to the student, the School District incorporates by reference Board policies that address student health services, as applicable, including but not limited to policies regarding the administration of medication, immunization of students, and student physicals.

- e) Unless mandated/authorized in accordance with Federal or State law and/or regulation, it is policy of the Board of Education, to **not permit** the collection, disclosure, or use of personal information (the term "*personal information*" is defined as individually identifiable information including a student's or parent/guardian's first and last name; home address; telephone number; or Social Security number) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), *unless otherwise exempted pursuant to law as noted below*. Questions regarding the collection, disclosure, or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

This law is not intended to preempt applicable provisions of State law that require parental/guardian notification.

These requirements **do not apply** to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- a) College or other postsecondary education recruitment, or *military recruitment**;

**Military Recruiter access to student information is governed by the Family Educational Rights and Privacy Act of 1974 (FERPA) and the National Defense Authorization Act for Fiscal Year 2002.*

- b) Book clubs, magazines, and programs providing access to low-cost literary products;
- c) Curriculum and instructional materials used by elementary schools and secondary schools;

(Continued)

SUBJECT: STUDENT PRIVACY, PARENTAL ACCESS TO INFORMATION, AND ADMINISTRATION OF CERTAIN PHYSICAL EXAMINATIONS TO MINORS (Cont'd.)

- d) Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments;
- e) The sale by students of products or services to raise funds for school-related or education-related activities;
- f) Student recognition programs.

SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION

In accordance with General Obligations Law Title 15-A, a parent of a minor or incapacitated person may designate another person as a person in parental relation to such minor or incapacitated person for certain health care and educational decisions for a period not exceeding six (6) months. However, such parental designation is conditioned upon there being no prior order of any court in any jurisdiction currently in effect that would prohibit the parent from himself/herself exercising the same or similar authority; and provided further that, in the case where a court has ordered that both parents must agree on education or health decisions regarding the child, a designation pursuant to this law shall not be valid unless both parents have given their consent.

The designation of a person in parental relation must be in writing in the form prescribed by General Obligations Law Title 15-A, and shall include specified information as enumerated in law for designations of thirty (30) days or less, as well as additional information required for designations of more than thirty (30) days. The designation of a person in parental relation may be presented to any school that requires such designation by either the parent or designee. The designation may specify a period of time less than six (6) months for which such designation shall be valid unless earlier revoked by the parent in accordance with law. *However, a designation specifying a period of more than thirty (30) days shall be notarized.*

If no time period is specified in the designation, it shall be valid until the earlier of:

- a) Revocation; or
- b) The expiration of thirty (30) days from the date of signature if the designation does not meet the requirements for designations of more than thirty (30) days; or
- c) Six (6) months from the date of commencement specified in the designation if the designation meets the requirements for designations of more than thirty (30) days.

Scope of Designation

A designation made pursuant to this law may specify:

- a) The treatment, diagnosis or activities for which consent is authorized;
- b) Any treatment, diagnosis or activity for which consent is not authorized; or
- c) Any other limitation on the duties and responsibilities conveyed by the designation.

Revocation of Designation

A parent may revoke a designation by notifying, either orally or in writing, the designee or a school to which the designation has been presented, or by any other act evidencing a specific intent to

(Continued)

SUBJECT: DESIGNATION OF PERSON IN PARENTAL RELATION (Cont'd.)

revoke the designation. A designation shall also be revoked upon the execution by the parent of a subsequent designation. Revocation by one parent authorized to execute such a designation shall be deemed effective and complete revocation of a designation pursuant to law.

A designee who receives notification from a parent of any such revocation shall immediately notify any school to which a designation has been presented. A parent may directly notify any such school of the revocation, in which case the failure of the designee to notify the school of such revocation shall not make revocation ineffective.

Effect of Designation

- a) A designee shall possess all the powers and duties of a person in parental relation pursuant to Public Health Law Sections 2164 and 2504 and Education Law Sections 2 and 3212, unless otherwise specified in the designation.
- b) A designation shall not impose upon a designee a duty to support pursuant to Family Court Act Section 413.
- c) A designation shall not cause a change in the school district of residence of the child for purposes of the Education Law, and during the period of validity of the designation, the child shall be presumed to be a resident of the school district in which the parent resided at the time the designation was made. If the designee resides outside of the School District, the designee is responsible for transportation to and from school.
- d) A designation shall terminate and be revoked upon the death or incapacity of the parent who signed the designation.
- e) The decision of a designee shall be superseded by a contravening decision of a parent.

A person who acts based upon the consent of a designee reasonably and in the good faith belief that the parent has in fact authorized the designee to provide such consent may not be deemed to have acted negligently, unreasonably or improperly in accepting the designation and acting upon such consent. However, any such person may be deemed to have acted negligently, unreasonably or improperly if he/she has knowledge of facts indicating that the designation was never given, or did not extend to an act or acts in question, or was revoked.

No provision of General Obligations Law Title 15-A shall be construed to require designation of a person in parental relation as provided within the statute where such designation is not otherwise required by law, rule or regulation.

SUBJECT: LOSS OR DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has willfully, maliciously, or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or
- b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

False Reporting of an Incident and/or Placing a False Bomb

A School District is also authorized to seek restitution, as described in law, from a parent or guardian of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has falsely reported an incident; or
- b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, the County District Attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

SUBJECT: STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be in accordance with the *District Code of Conduct*. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts, and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as his/her dress and appearance meet the above requirements. A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

SUBJECT: SUSPENSION OF STUDENTS

The Superintendent and/or the Principal may suspend the following students from required attendance upon instruction:

- a) A student who is insubordinate or disorderly; or
- b) A student who is violent or disruptive; or
- c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

SuspensionFive (5) School Days or Less

The Superintendent and/or the Principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the Principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the Principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with **notice** of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an **explanation** of the basis for the suspension.

When suspension of a student for a period of five (5) school days or less is proposed, administration shall also immediately notify the parent/person in parental relation in writing that the student *may be* suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/persons in parental relation.

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/person in parental relation of their right to request an immediate informal conference with the Principal in accordance with the provisions of Education Law Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or mode of communication used by the parents/persons in parental relation. At the informal conference, the student and/or parent/person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

The notice and opportunity for informal conference shall take place **prior to** suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the Principal or Superintendent for a violation of the *District's Code of Conduct* and a minimum suspension period.

More Than Five (5) School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against him/her, and the right to present witnesses and other evidence on his/her behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the *District's Code of Conduct*, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

- a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a firearm to school or possessed a firearm on school premises shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.
- b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

- c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the *District's Code of Conduct* and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

For suspensions or removals up to ten (10) school days in a school year that do not constitute a disciplinary change in placement, students with disabilities must be provided with alternative instruction or services on the same basis as non-disabled students of the same age.

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern, a manifestation determination must be made. The District determines on a case-by-case basis whether a pattern of removals constitutes a change of placement. This determination is subject to review through due process and judicial proceedings.

Manifestation Determinations

A review of the relationship between the student's disability and the behavior subject to disciplinary action to determine if the conduct is a manifestation of the disability must be made by a manifestation team immediately, if possible, but in no case later than ten (10) school days after a decision is made:

- a) By the Superintendent to change the placement to an interim alternative educational setting (IAES);
- b) By an Impartial Hearing Officer (IHO) to place the student in an IAES; or
- c) By the Board, District Superintendent, Superintendent or Building Principal to impose a suspension that constitutes a disciplinary change of placement.

The manifestation team shall include a representative of the District knowledgeable about the student and the interpretation of information about child behavior, the parent and relevant members of the CSE as determined by the parent and the District. The parent must receive written notice prior to the meeting to ensure that the parent has an opportunity to attend. This notice must include the purpose of the meeting, the names of those expected to attend and notice of the parent's right to have relevant members of the CSE participate at the parent's request.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

The manifestation team shall review all relevant information in the student's file including the student's individualized education program (IEP), any teacher observations, and any relevant information provided by the parents to determine if: the conduct in question was caused by or had a direct and substantial relationship to the student's disability; or the conduct in question was the direct result of the District's failure to implement the IEP. If the team determines the conduct in question was the direct result of failure to implement the IEP, the District must take immediate steps to remedy those deficiencies.

Finding of Manifestation

If it is determined, as a result of this review, that the student's behavior is a manifestation of his/her disability the CSE shall conduct a functional behavioral assessment, if one has not yet been conducted, and implement or modify a behavioral intervention plan.

Functional behavioral assessment (FBA) means the process of determining why the student engages in behaviors that impede learning and how the student's behavior relates to the environment. FBA must be developed consistent with the requirements of Commissioner's Regulations Section 200.22(a) and shall include, but not be limited to, the identification of the problem behavior, the definition of the behavior in concrete terms, the identification of the contextual factors that contribute to the behavior (including cognitive and affective factors) and the formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

Behavioral intervention plan (BIP) means a plan that is based on the results of a functional behavioral assessment and, at a minimum, includes a description of the problem behavior, global and specific hypotheses as to why the problem behavior occurs and intervention strategies that include positive behavioral supports and services to address the behavior.

Unless the change in placement was due to behavior involving serious bodily injury, weapons, illegal drugs or controlled substances, the student must be returned to the placement from which the student was removed unless the parent and the District agree to a change of placement as part of the modification of the behavioral intervention plan.

No Finding of Manifestation

If it is determined that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner and for the same duration for which they would be applied to students without disabilities, subject to the right of the parent/person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

(Continued)

Students

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)**Provision of Services Regardless of the Manifestation Determination**

Regardless of the manifestation determination, students with a disability shall be provided the services necessary for them to continue to participate in the general education curriculum and progress toward meeting the goals set out in their IEP. They must also receive, as appropriate, a functional behavioral assessment, behavioral intervention services and modifications designed to address the behavior violation so it does not recur:

- a) For subsequent suspensions or removals for ten (10) consecutive school days or less that in the aggregate total more than ten (10) school days in a school year but do not constitute a disciplinary change of placement school personnel, in consultation with at least one of the student's teachers, will determine the extent to which services are needed;
- b) For suspensions or other disciplinary removals in excess of ten (10) school days in a school year which do constitute a disciplinary change in placement the IAES and services will be determined by the CSE.

Interim Alternative Educational Setting (IAES)

Students with disabilities who have been suspended or removed from their current placement for more than ten (10) school days may be placed in an IAES which is a temporary educational setting other than the student's current placement at the time the behavior precipitating the IAES placement occurred.

Additionally, an Impartial Hearing Officer in an expedited due process hearing may order a change in placement of a student with a disability to an appropriate IAES for up to forty-five (45) school days if the Hearing Officer determines that maintaining the current placement is substantially likely to result in injury to the students or others.

There are three (3) specific instances when a student with a disability may be placed in an IAES for up to forty-five (45) school days without regard to a manifestation determination:

- a) Where the student carries or possesses a weapon to or at school, on school premises, or to or at a school function under the jurisdiction of the District; or
- b) Where a student knowingly possesses or uses illegal drugs or sells or solicits the sale of a controlled substance while at school, on school premises, or at a school function under the jurisdiction of the District; or
- c) Where a student has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of the District. Serious bodily harm has been defined in law to refer to one (1) of the following:

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)

1. Substantial risk of death;
2. Extreme physical pain; or
3. Protracted and obvious disfigurement or protracted loss or impairment of the function of a bodily member, organ or mental faculty.

A school function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

School personnel may consider any unique circumstances on a case-by-case basis when determining whether to order a change in placement for a student with a disability who violates a code of student conduct.

In all cases, the student placed in an IAES shall:

- a) Continue to receive educational services so as to enable the student to continue to participate in the general education curriculum, although in another setting, and to progress towards the goals set out in the student's IEP, and
- b) Receive, as appropriate, a functional behavioral assessment and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur.

The period of suspension or removal may not exceed the amount of time a non-disabled student would be suspended for the same behavior.

Suspension From BOCES

The BOCES Principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

(Continued)

SUBJECT: SUSPENSION OF STUDENTS (Cont'd.)**BOCES Activities**

BOCES activities, such as field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

Exhaustion of Administrative Remedies

If a parent/person in parental relation wishes to appeal the decision of the Building Principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

Procedure After Suspension

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

When a student has been suspended, the suspension may be revoked by the Board of Education whenever it appears to be for the best interest of the school and the student to do so. The Board of Education may also condition a student's early return to school and suspension revocation on the student's voluntary participation in counseling or specialized classes, including anger management or dispute resolution, where applicable.

SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE PURPOSES

The parent of a student who has violated any rule or code of conduct of the School District and who was not identified as a student with a disability at the time of such behavior may assert several protections provided for under the Individuals with Disabilities Education Act (IDEA) and State regulations *if the School District is deemed to have had knowledge (as determined in accordance with law and/or regulations and referenced below) that the student was a student with a disability before the behavior that precipitated the disciplinary action occurred.*

Basis of Knowledge

The School District shall be deemed to have knowledge that the student had a disability if prior to the time the behavior occurred:

- a) The parent of the student has expressed concern in writing to supervisory or administrative personnel, or to a teacher of the student, that the student is in need of special education and related services. However, expressions of concern may be oral if the parent does not know how to write or has a disability that prevents a written statement;
- b) The parent of the student has requested an evaluation of the student in writing; or
- c) A teacher of the student, or other District personnel, has expressed specific concerns about a pattern of behavior demonstrated by the student, directly to the Director of Special Education or to other supervisory personnel.

Exception

A student is not a student presumed to have a disability for discipline purposes if, as a result of receiving the information specified above (i.e., subheading "Basis of Knowledge"):

- a) The parent of the student has not allowed an evaluation of the student pursuant to law and/or regulations;
- b) The parent of the student has refused services under law and/or regulations; or
- c) The student has been evaluated and it was determined that the student is not a student with a disability.

(Continued)

**SUBJECT: STUDENTS PRESUMED TO HAVE A DISABILITY FOR DISCIPLINE
PURPOSES (Cont'd.)**

Responsibility for Determining Whether a Student is a Student Presumed to Have a Disability

If it is claimed by the parent of the student or by School District personnel that the District had a basis for knowledge, in accordance with law and/or regulation, that the student was a student with a disability prior to the time the behavior subject to disciplinary action occurred, it shall be the responsibility of the Superintendent of Schools, Building Principal or other school official imposing the suspension or removal to determine whether the student is a student presumed to have a disability.

Conditions That Apply if There is No Basis of Knowledge

If it is determined that there is no basis for knowledge that the student is a student with a disability prior to taking disciplinary measures against the student, the student may be subjected to the same disciplinary measures as any other nondisabled student who engaged in comparable behaviors.

However, if a request for an individual evaluation is made during the time period in which such nondisabled student is subjected to a disciplinary removal, an expedited evaluation shall be conducted in accordance with law and/or regulations. Pending the results of the evaluation, the student shall remain in the educational placement determined by school authorities.

If the student is determined to be a student with a disability, taking into consideration information from the evaluation and information provided by the parents, the District shall provide special education and related services in accordance with law and/or regulations.

SUBJECT: TEACHER REMOVAL OF DISRUPTIVE STUDENTS FROM THE CLASSROOM**Disruptive Students**

In accordance with Education Law, Commissioner's Regulations and the District's *Code of Conduct*, teachers shall have the power and authority to remove disruptive students from their classrooms consistent with discipline measures contained in the *Code of Conduct*. The term "disruptive student," as defined pursuant to law, shall refer to an elementary or secondary student under twenty-one (21) years of age who is substantially disruptive of the educational process or substantially interferes with the teacher's authority over the classroom.

Further, teachers shall abide by the provisions of the District's *Code of Conduct* with regard to the utilization of alternative classroom management techniques and student intervention services, as may be applicable and appropriate to the specific circumstances, prior to removal of the student from the classroom. Additionally, teachers shall have the authority to remove disruptive students from the classroom for each incident for a period of time no greater than as enumerated in the *Code of Conduct*.

Teachers must inform the student and the School Principal/designee of the reasons for the removal.

- a) In most instances, the teacher shall, prior to removing the disruptive student from the classroom, provide the student with an explanation of the basis for the removal and allow the student to informally present the student's version of relevant events.
- b) If the teacher finds that the disruptive student's continued presence in the classroom poses a continuing danger to persons or property or presents an ongoing threat of disruption to the academic process, the teacher shall provide the student with an explanation of the basis for the removal and an informal opportunity to be heard within twenty-four (24) hours of the student's removal.

No disruptive student shall return to the classroom until the Principal/designee makes a final determination regarding the discipline imposed by the teacher as outlined in administrative regulations and pursuant to the provisions enumerated in Education Law Section 3214(3-a) or the period of removal expires, whichever is less. The District will ensure the provision of continued educational programming and activities for students removed from the classroom by a teacher.

The Principal/designee shall inform the parents/person in parental relation to such student of the removal and shall, upon request, provide the student and the parent/person in parental relation an opportunity for an informal conference to discuss the reasons for the removal in accordance with the procedures enumerated in law. As applicable, the Principal/designee shall render a determination regarding the discipline imposed by the teacher in accordance with the requirements mandated pursuant to law and/or regulation.

(Continued)

SUBJECT: TEACHER REMOVAL OF DISRUPTIVE STUDENTS FROM THE CLASSROOM (Cont'd.)

This policy, in accordance with statutory mandates, does not authorize removal of a student in violation of any state or federal law or regulation (e.g., IDEA, Section 504 of the Rehabilitation Act of 1973). It shall be the responsibility of the Building Principal/designee to ensure that teacher removal of students from the classroom complies with applicable laws and regulations.

Violent Students

Teachers are required to immediately report and refer a violent student, as defined pursuant to Education Law, to the Principal or Superintendent for a violation of the District's *Code of Conduct* and a minimum suspension period as determined by such Code, unless otherwise reduced by the suspending authority on a case by case basis to be consistent with any other state and federal law.

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY)**

The Board of Education will provide access to various computerized information resources through the District's computer system ("DCS" hereafter) consisting of software, hardware, computer networks and electronic communications systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may include the opportunity for some students to have independent access to the DCS from their home or other remote locations. All use of the DCS, including independent use off school premises, shall be subject to this policy and accompanying regulations. Further, all such use must be in support of education and/or research and consistent with the goals and purposes of the School District.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

This policy is intended to establish general guidelines for the acceptable student use of the DCS and also to give students and parents/guardians notice that student use of the DCS will provide student access to external computer networks not controlled by the School District. The District cannot screen or review all of the available content or materials on these external computer networks. Thus some of the available content or materials on these external networks may be deemed unsuitable for student use or access by parents/guardians.

Despite the existence of District policy, regulations and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events. Parents and guardians must be willing to establish boundaries and standards for the appropriate and acceptable use of technology and communicate these boundaries and standards to their children. The appropriate/acceptable use standards outlined in this policy apply to student use of technology via the DCS or any other electronic media or communications, including by means of a student's own personal technology or electronic device on school grounds or at school events.

Standards of Acceptable Use

Generally, the same standards of acceptable student conduct which apply to any school activity shall apply to use of the DCS. This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate student conduct and use as well as proscribed behavior.

District students shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and student rights of privacy created by federal and state law.

(Continued)

Students

**SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(ACCEPTABLE USE POLICY) (Cont'd.)**

Students who engage in unacceptable use may lose access to the DCS in accordance with applicable due process procedures, and may be subject to further discipline under the District's school conduct and discipline policy and the District Code of Conduct. The District reserves the right to pursue legal action against a student who willfully, maliciously or unlawfully damages or destroys property of the District. Further, the District may bring suit in civil court against the parents/guardians of any student who willfully, maliciously or unlawfully damages or destroys District property pursuant to General Obligations Law Section 3-112.

Student data files and other electronic storage areas will be treated like school lockers. This means that such areas shall be considered to be School District property subject to control and inspection. The Computer Coordinator may access all such files and communications without prior notice to ensure system integrity and that users are complying with the requirements of this policy and accompanying regulations. Students should **NOT** expect that information stored on the DCS will be private.

Notification

The District's Acceptable Use Policy and Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and students' obligations when accessing the DCS.

Regulations will be established as necessary to implement the terms of this policy.

SUBJECT: STUDENT USE OF PERSONAL TECHNOLOGY

The Board of Education seeks to maintain a safe and secure environment for students and staff. Advances in technology have made it possible to expand the learning environment beyond traditional classroom boundaries. Using personal electronic devices during instructional time can enable students to explore new concepts, personalize their learning experience and expand their global learning opportunities. Additionally, the use of personal technology devices is ubiquitous in today's society and standards for student use during non-instructional time should adapt to this change. This policy defines the use of personal technology during instructional and non-instructional times and reinforces the standard that all use, regardless of its purpose, must follow the guidelines outlined in the Student Acceptable Use Policy (AUP), the District's *Code of Conduct*, and the Dignity for All Students Act.

Personal technology includes all existing and emerging technology devices that can take photographs; record audio or video; input text; upload and download media; and transmit or receive messages or images. Examples of personal technology includes, but are not limited to, iPods and MP3 players; iPad, Nook, Kindle, and other tablet PCs; laptop and netbook computers; personal digital assistants (PDAs), cell phones and smart phones such as BlackBerry, iPhone, or Droid, as well as any device with similar capabilities. Unacceptable devices shall include, but are not limited to, gaming devices or consoles, laser pointers, modems or routers, and televisions.

Instructional purposes include, but are not limited to, approved classroom activities, research, college admissions activities, career development, communication with experts, homework and other activities as deemed appropriate by school staff.

Personal technology use by students is permitted during the school day for educational purposes and/or in approved locations only. Teachers will indicate when and if classroom use is acceptable. Students are expected to act responsibly and thoughtfully when using technology resources. Students bear the burden of responsibility to inquire with school administrators and/or teachers when they are unsure of the permissibility of a particular use of technology prior to engaging in such use.

Appropriate use of personal technology during non-instructional time is also allowed if students follow the guidelines in the AUP and *Code of Conduct*. Non-instructional use includes texting, calling and otherwise communicating with others during free periods and in common areas of the school building such as the hallways, cafeteria, study halls, buses and student lounges. Other non-instructional uses may include such things as Internet searches, reading, listening to music, and watching videos. This use during non-instructional time must be conducted in a safe and unobtrusive manner. Devices must be in silent mode to avoid disrupting others.

The District shall not be liable for the loss, damage, misuse, or theft of any personal technology brought to School. The District reserves the right to monitor, inspect, and/or confiscate personal technology when administration has reasonable suspicion to believe that a violation of school policy or criminal law has occurred.

(Continued)

Students

SUBJECT: STUDENT USE OF PERSONAL TECHNOLOGY (Cont'd.)

The Board expressly prohibits use of personal technology in locker rooms, restrooms, Health Offices and any other areas where a person would reasonably expect some degree of personal privacy.

Students will not be permitted to use personal technology devices in school or at school functions until they have reviewed the AUP, the applicable sections of the *Code of Conduct* and associated technology guidelines, and signed the Student Use of Personal Technology Permission Form with their parents. The District reserves the right to restrict student use of District-owned technologies and personal technology on school property or at school-sponsored events, at the discretion of the administration.

Students must follow the guidelines for use set out in the District *Code of Conduct* and the Acceptable Use Policy at all times. Consequences for misuse will follow guidelines in the District's *Code of Conduct*. The District will develop regulations for the implementation of this policy that shall include, but are not limited to, instructional use, non-instructional use, liability, bullying and cyberbullying, and privacy issues.

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)

The Board of Education recognizes that the misuse of alcohol, drugs, tobacco, and other illegal substances is a serious problem with legal, physical, emotional and social implications for our students, as well as the entire community. Therefore, the consumption, sharing and/or selling, use and/or possession of alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs is prohibited at any school-sponsored function, on school grounds and on school buses at all times. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed.

Smoking

Smoking shall not be permitted and no person shall smoke within one hundred (100) feet of the entrance, exits or outdoor areas of any public or private elementary or secondary schools. However, this shall not apply to smoking in a residence, or within the real property boundary lines of such residential real property.

Non-medical Use of Prescription Drugs

Non-medical use of prescription drugs among young people has become an increasing problem in the United States. Prescription drugs are easier to access because they can be taken from their home's medicine cabinet and young people may believe they are safer than illicit drugs because they are manufactured by a pharmaceutical company.

Should a student be found in possession of any of these substances, they shall be dealt with in accordance with the Code of Conduct.

Persons Entering School Grounds

Persons shall be banned from entering school grounds or school-sponsored events when exhibiting behavioral, personal or physical characteristics indicative of having used or consumed alcohol or other substances. A school-sponsored function shall mean a school-sponsored or school-authorized extracurricular event or activity regardless of where such event or activity takes place, including any event or activity that may take place in another state.

In accordance with Penal Law Section 220.00 for purposes of controlled substances offenses:

- a) "School grounds" means (a) in or on or within any building, structure, athletic playing field, playground or land contained within the real property boundary line of the District's schools, or (b) any area accessible to the public located within one thousand (1,000) feet of the real property boundary line comprising any such school or any parked automobile or other parked vehicle located within one thousand (1,000) feet of the real property boundary line comprising any District school. An "area accessible to the public" shall mean sidewalks, streets, parking lots, parks, playgrounds, stores and restaurants.

(Continued)

**SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)
(Cont'd.)**

- b) "School bus" means every motor vehicle owned by the District and operated for the transportation of pupils, teachers and other persons acting in a supervisory capacity, to or from school or school activities or privately owned and operated for compensation for the transportation of pupils, children of pupils, teachers and other persons acting in a supervisory capacity to or from school or school activities.

Disciplinary Measures

Disciplinary measures for students consuming, sharing and/or selling, using and/or possessing alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs shall be outlined in the *District's Code of Conduct on School Property*.

Implementation, Dissemination and Monitoring

It shall be the responsibility of the Superintendent to implement the alcohol, tobacco, drugs, and other substances Board policy by collaboration with school personnel, students, parents/guardians and the community at large.

Additionally, copies of Board policy shall be disseminated to District staff, parents/guardians and community members. The Superintendent/designee shall periodically review the tobacco, drugs and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

SUBJECT: SEARCHES AND INTERROGATIONS OF STUDENTS

Students are protected by the Constitution from unreasonable searches and seizures. A student may be searched and contraband/prohibited items seized on school grounds or in a school building by an authorized School District official only when the School District official has reasonable suspicion to believe the student has engaged in or is engaging in proscribed activity which is in violation of the law and/or the rules of the school (i.e., the District Code of Conduct). The reasonableness of any search involves a twofold inquiry. School officials must first determine whether the action was justified at its inception, and second, determine whether the search, as actually conducted, was reasonably related in scope to the circumstances which justified the interference in the first place.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student's school record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed;
- d) The probative value and reliability of the information used as a justification for the search;
- e) The school official's prior knowledge of and experience with the student; and
- f) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student has violated or is violating the law and/or school rules, it is permissible for an authorized school official to search that student's outer clothing, pockets, or property. The search may include, but is not limited to, the student's outer clothing such as a jacket or coat, pockets, backpack, and/or purse. Whenever possible, searches will be conducted by a staff member of the same sex as the student, and whenever possible, another staff member, also of the same sex, will be present as a witness.

Strip Searches

A strip search is a search that requires a student to remove any or all of his/her clothing, other than an outer coat or jacket. Strip searches are intrusive in nature and are almost never justified. If school officials have highly credible evidence that such a search would prevent danger or yield evidence, such a search may be conducted under exigent circumstances. In the alternative, if school authorities believe there is an emergency situation that could threaten the safety of others, the student shall, to the extent practicable, be isolated and secured. Police and parents will be contacted immediately.

(Continued)

SUBJECT: SEARCHES AND INTERROGATIONS OF STUDENTS (Cont'd.)**Searches and Seizure of School Property**

Student desks, lockers, textbooks, computers, and other materials, supplies or storage spaces loaned by the school to students remain the property of the school, and may be opened and inspected by school employees at any time. The purpose of these searches, when they occur, is to ensure the safety of students, faculty and staff, enhance school security and prevent disruptions of the learning environment. Searches have been proven to have a deterrent effect on student behavior. Students have no reasonable expectation of privacy with respect to school property; and school officials retain complete control over such property. This means that student desks, lockers, textbooks, computers, and other materials, supplies or storage spaces may be subject to search and/or seizure of contraband/prohibited items at any time by school officials, without prior notice to students and without their consent. However, a student's personal belongings contained within the locker, desk, etc. are subject to the reasonable suspicion standard for searches by an authorized school official.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian may be contacted; the degree, if any, of parental/guardian involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

SUBJECT: SEARCHES AND INTERROGATIONS OF STUDENTS (Cont'd.)

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

Law Enforcement Officials

It shall be the policy of the School District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned in order to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions.

School Resource Officers

Districts may utilize School Resource Officers (SROs), law enforcement officers who work within the school building. There are different types of SROs: those employed by the District and those employed by local law enforcement. SROs, acting in their capacity as law enforcement, are held to a different search standard than School District staff. Searches by law enforcement SROs must be justified by probable cause, not the District's standard of reasonable suspicion. District staff need to clearly establish who is initiating and conducting a search, the District or law enforcement, and that the appropriate standard for such a search has been met.

Interrogation of Students by Law Enforcement Officials

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may interview students on school premises without the permission of the parent/guardian in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations or general questions regarding crimes committed on school property. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardian.

Whenever police wish to question a student on school premises, administration will attempt to notify the student's parent/guardian.

If possible, questioning of a student by police should take place in private and in the presence of the Building Principal/designee.

SUBJECT: SEARCHES AND INTERROGATIONS OF STUDENTS (Cont'd.)**Child Protective Services Investigations**

From time to time, Child Protective Services may desire to conduct interviews of students on school property. Such interviews generally pertain to allegations of suspected child abuse and/or neglect. SUBJECT: BUS RULES AND REGULATIONS

The Fillmore Central School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus. Students riding school buses are expected to conform to the rules of conduct in order to permit the bus driver to transport his/her passengers safely.

The Board of Education, the Superintendent and/or his/her designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. Generally, parent(s)/guardian(s) will be required to make alternative transportation arrangements for their children who have been suspended from riding the bus. However, the effect of a suspension from transportation on the student's ability to attend school will be considered. If a suspension from transportation effectively results in a suspension from attendance because of the distance between the home and the school and the absence of alternative public or private means of transportation, the District shall make appropriate arrangements to provide for the student's education.

If a student with a disability who receives transportation as a related service as part of his/her Individualized Education Program is being considered for suspension from transportation, and that suspension would effectively result in a change in placement, the student shall be referred to the Committee on Special Education.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the nonpublic schools to which students are transported.

SUBJECT: CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS**Corporal Punishment**

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

Whenever a school employee uses physical force against a student, the school employee shall immediately report the situation to his/her Principal/Supervisor. The Principal/Supervisor shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Fillmore Central School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

Emergency Interventions

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

- a) Self-protection;
- b) Protection of others;
- c) Protection of property; or
- d) Restraining/removing a disruptive student.

Such emergency interventions shall only be used in situations where alternative procedures and methods not involving the use of reasonable physical force cannot reasonably be employed. Emergency interventions shall not be used as a punishment or as a substitute for systematic behavioral interventions that are designed to change, replace, modify or eliminate a targeted behavior.

Only staff who are appropriately trained may implement effective restraint procedures. The parent(s) of the student shall be notified whenever an emergency intervention is utilized.

The District will maintain documentation on the use of emergency interventions for each student including:

- a) Name and date of birth of student;

(Continued)

SUBJECT: CORPORAL PUNISHMENT/EMERGENCY INTERVENTIONS (Cont'd.)

- b) Setting and location of the incident;
- c) Name of staff or other persons involved;
- d) Description of the incident and emergency intervention used, including duration;
- e) A statement as to whether the student has a current behavioral intervention plan; and
- f) Details of any injuries sustained by the student or others, including staff, as a result of the incident.

This documentation will be reviewed by District supervisory personnel and, if necessary, by the school nurse or other medical personnel.

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT**Weapons in School**

The possession of a weapon on school property, in District vehicles, in school buildings, or at school sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or his/her designee.

Any and all determinations of what constitutes a "weapon" for the purposes of this policy shall be made in accordance with relevant provisions of the Penal Law of the State of New York.

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks. These items are not allowed in school and possession on school property will result in serious consequences. It will not mandate a one (1) calendar year suspension.

In accordance with the Gun-Free Schools Act and Education Law Section 3214(3)(d), any student who brings or possesses a dangerous weapon or firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Family Court Act Article 3 when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law. For purposes of this policy, the term "dangerous weapon" means a weapon, device, instrument, material, or substance, animate or inanimate, that is used for, or is readily capable of, causing death or serious bodily injury, except that such term does not include a pocket knife with a blade of less than two and one-half inches (2 1/2") in length.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Education Law Section 3214, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-district school who participates in a program operated by the School

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program. The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-district school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Regulations of the Commissioner of Education Section 100.2 and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

Pursuant to Commissioner Regulations, a student with a disability who is determined to have brought a weapon (including a firearm) to school or possessed a weapon (including a firearm) at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent or guardian requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent or guardian and District can agree on a different placement. For more information regarding Interim Alternative Educational Settings (IAES), refer to Policy #7313 -- Suspension of Students.

However, a student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the Individuals with Disabilities Education Act (IDEA), determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

(Continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT (Cont'd.)

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals with Disabilities Act and Education Law Article 89; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five (5) days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

SUBJECT: EXTRACURRICULAR ACTIVITIES

The Board of Education considers extracurricular activities to be a valuable part of the program of the school and shall support these activities within the financial means of the District.

Limited Open Forum

The Board of Education maintains a limited open forum where secondary students may meet for voluntary student-initiated activities unrelated directly to the instructional program, regardless of religious, political or philosophical content.

To provide "a fair opportunity" to students who wish to conduct a meeting, the Board of Education, in accordance with the provisions of the Equal Access Act, shall ensure that:

- a) The meeting is voluntary and student-initiated;
- b) There is no sponsorship of the meeting by the school, the government, or its agents or employees;
- c) Employees or agents of the school or government are present at religious meetings only in a nonparticipatory capacity;
- d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
- e) Persons not approved by the Board may not direct, conduct, control, or regularly attend activities of student groups (20 USC Section 4071[c]).

The Board prohibits student organizations whose activities may be unlawful or may cause disruption or interference with the orderly conduct of the educational process.

Administration is responsible for establishing regulations governing the use of school facilities by student organizations.

Eligibility for Attendance

- a) Students who are suspended from school on a day of an athletic game or practice session, party, school dance, or other school affair scheduled after regular school hours are not eligible for participation or attendance at such events.
- b) In order for students to attend a school-sponsored function, it is necessary that students attend classes for at least one-half (1/2) of the school day on the day of the activity, unless otherwise excused by the building administrator. One-half (1/2) of the school day is defined as follows: from 8:30 a.m. until noon or from noon until the end of the school day.

SUBJECT: CENSORSHIP OF SCHOOL SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES

The Board of Education believes that student speech in school-sponsored or District-sponsored publications, events or activities should be consistent with the School District's basic educational mission. Freedom of speech and expression in such publications and/or activities is guaranteed by the First Amendment and will be observed by the administration and faculty. Freedom of speech, however, confers upon students the responsibility to uphold the legitimate educational interest of the community and the School District and to refrain from speech which is any way inconsistent with the District's basic educational mission. Student editors have the responsibility to refrain from libel, obscenity or speech which is vulgar, offensive, ungrammatical or age inappropriate. The final arbiter of all decisions as to appropriateness of student speech rests with the Board of Education in accordance with constitutional principles established by the Supreme Court in Bethel School District No. 403 v. Fraser 106 S. Ct. 3159 (1986) and Hazelwood School District v. Kuhlmeier, 108 S. Ct. 562 (1988). The Superintendent has the immediate authority to determine if speech is appropriate or not. The Board of Education will serve as the final arbiter of appropriateness of speech.

A school-sponsored or District-sponsored publication, event or activity is any official publication, event or activity which is endorsed and supported by the School District, paid for in whole or in part with School District funds and held out to the community, students and parents as District-approved speech, including but not limited to student news publications, school yearbooks, student speeches, etc.

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM

Athletics are an integral part of a well-balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with an emphasis on maximum participation, through interscholastic and intramural activity. The District will comply with recommendations from the U.S. Department of Education's Office for Civil Rights (OCR) regarding Title IX equal opportunity for males and females in the District's total athletic program regarding any of the following factors which may be applicable:

- a) The nature and extent of the sports program to be offered (including the levels of competition, such as varsity, club, etc.);
- b) The provision of equipment and supplies;
- c) The scheduling of games and practice time;
- d) The provision of travel and per diem allowances;
- e) The nature and extent of the opportunity to receive coaching and academic tutoring;
- f) The assignment and compensation of coaches and tutors;
- g) The provision of locker rooms, practice and competitive facilities;
- h) The provision of medical and training facilities and services;
- i) The provision of housing and dining facilities and services; and
- j) The nature and extent of support, publicity and promotion including cheerleading, bands, published programs distributed at games, and booster club activities.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

- a) Provide written parental/guardian consent. A consent form for a student's participation in interscholastic sports must contain information regarding mild traumatic brain injuries (concussions) as specified in Commissioner's Regulations;
- b) Pass satisfactorily the medical examination administered by the school physician/nurse practitioner or the student's personal physician. The school physician/nurse practitioner retains final approval on all physicals performed by the student's personal physician; and

(Continued)

Students

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)

- c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.

Booster Clubs

The School District has a responsibility under Title IX to ensure that boys' and girls' programs are provided with equivalent benefits, treatment, services and opportunities regardless of their source. When determining equivalency, benefits, services and opportunities attained through the use of private funds (e.g., "booster clubs"), such funds are considered in combination with all benefits, services and opportunities.

Private fundraising, including student-initiated fundraising, is permissible under Title IX. Further, compliance with Title IX does not mean that teams must "share" proceeds from fundraising activities. It does, however, place a responsibility on the District to ensure that benefits, services, treatment and opportunities overall, regardless of funding sources, are equivalent for male and female athletes.

In accordance with OCR, in order for the District to be in continuing compliance with Title IX requirements, the District must assure that services, benefits and opportunities in its athletic programs are provided on an equivalent basis to both boys and girls, including those services, benefits and opportunities that are provided through the use of outside financial assistance such as donations, fundraising by coaches, and booster clubs.

Selection/Classification Process

The Board approves the use of the selection/classification process for all secondary school interscholastic team members. The Board directs the Superintendent to implement the procedures and maintain a file of those students deemed eligible as a result of those procedures.

Student Athletic Injuries

No student should be allowed to practice or play in an athletic contest if he/she is suffering from a severe injury that may cause harm to the student athlete. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

A physician's certificate may be required before an athlete is permitted to return to practice or competition.

(Continued)

SUBJECT: SPORTS AND THE ATHLETIC PROGRAM (Cont'd.)**Concussions**

A student who has sustained or is believed to have sustained a mild traumatic brain injury (concussion) must be immediately removed from athletic activities. If there is any doubt, it shall be presumed that the student is so injured until proven otherwise. Before being permitted to return to athletic activity, a student must be symptom free for not less than twenty-four (24) hours and have been evaluated by and received written and signed authorization from a licensed physician. Additionally, for extra class athletic activities, a student must have received clearance from the School District Medical Director to participate in such activity.

Athletic Program - Safety

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

- a) Requiring medical examinations of participants;
- b) Obtaining appropriately certified and/or licensed staff to coach all varsity, junior varsity, and modified games, along with certified and/or licensed officials to referee all such competitions;
- c) Ensuring that equipment is both safe and operative within approved guidelines; and
- d) Providing professional development and training opportunities for all coaching staff.

The School District may obtain and award to its students awards and scholarships. The Board of Education, having been entrusted by law, will hold in trust gifts, grants, bequests and legacies given or bequeathed to the Fillmore Central School District and shall apply the same and/or their interest and proceeds according to the instruction of the donors and according to the procedures established by the administration.

Accordingly, no Board of Education policy shall prevent, or otherwise deny participation in, constitutionally protected prayer in District schools, consistent with the Guidance Document and applicable law as enumerated above.

- b) Informing parents or other persons in parental relation to the student, pupils and teachers of the individual student's health condition subject to federal and state confidentiality laws. SUBJECT: IMMUNIZATION OF STUDENTS

Every child entering or attending a District school must present proof of immunization or proof of immunity by serology (blood test) if applicable unless a New York State licensed physician certifies that the immunization is detrimental to the child's health. The requirement for that immunization is waived until the immunization is no longer detrimental to the child's health.

Except for this exemption, the District may not permit a child lacking evidence of immunization to remain in school for more than 14 days, or more than 30 days for an out-of-state or out-of-country transferee who can show a good faith effort to get the necessary certification or other evidence of immunization.

The administration will notify the local health authority of the name and address of excluded children and provide the parent or person in parental relation a statement of his or her duty regarding immunization as well as a consent form prescribed by the Commissioner of Health. The school will cooperate with the local health authorities to provide a time and place for the immunization of these children.

For homeless children, the enrolling school must immediately refer the parent or guardian of the child to the District's homeless liaison, who must assist them in obtaining the necessary immunizations, or immunization or medical records.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

All schools will also post educational information on influenza and the benefits of influenza immunization which will be in plain view and available to parents.

SUBJECT: STUDENT PHYSICALS**Health Examination**

Each student enrolled in District schools must have a satisfactory health examination conducted by the school physician or the student's physician, physician assistant or nurse practitioner within twelve (12) months prior to the commencement of the school year of:

- a) Entrance to pre-kindergarten or kindergarten;
- b) Entry into the 2nd, 4th, 7th and 10th grades.

The District may also require an examination and health history of a student when it is determined by the District that it would promote the educational interests of the student.

In addition, the District requires a certificate of physical fitness for:

- a) All athletes prior to their first sport of the school year, then only those who were injured or ill during their first sport before participating in a second sport during the school year; and
- b) All students who need work permits; and
- c) All students either suspected of or sustaining a mild traumatic brain injury (concussion) must receive a written and signed authorization from a licensed physician before returning to athletic activities in school.

Health Certificate

Each student must submit a health certificate attesting to the health examination within thirty (30) days after his/her entrance into school and within thirty (30) days after his/her entry into the 2nd, 4th, 7th and 10th grades. The health certificate shall be filed in the student's cumulative record. The health certificate must:

- a) Describe the condition of the student when the examination was given;
- b) State the results of any test conducted on the student for sickle cell anemia;
- c) State whether the student is in a fit condition of health to permit his/her attendance at public school and, where applicable, whether the student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student;

SUBJECT: STUDENT PHYSICALS (Cont'd.)

- d) Include a calculation of the student's body mass index (BMI) and weight status category. BMI is computed as the weight in kilograms divided by the square of height in meters or the weight in pounds divided by the square of height in inches multiplied by a conversion factor of 703. Weight status categories for children and adolescents shall be defined by the Commissioner of Health. BMI collection is mandatory, effective September 2008. Reporting is random, with districts chosen by the NYS Department of Health. Selected districts must report BMI results on-line using DOH's Health Provider Network (HPN), a secure website;
- e) Be signed by a duly licensed physician, physician assistant, or nurse practitioner, who is authorized by law to practice in New York State consistent with any applicable written practice agreement; or authorized to practice in the jurisdiction in which the examination was given, provided that the Commissioner of Health has determined that such jurisdiction has standards of licensure and practice comparable to those of New York. A certificate signed by a chiropractor is not acceptable except for a scoliosis evaluation.

Dental Certificate

The dental certificate law became effective on September 1, 2008. This law applies to new entrants in PreK, K, and Grades 2, 4, 7 and 10. In accordance with this law, a notice of request for a dental health certificate shall be distributed at the same time that the parent/person in parental relation is notified of health examination requirements, such certificate to be furnished at the same time the health certificate is required. At this time, students will be permitted to attend school regardless of whether or not they have a dental certificate.

The dental certificate shall be signed by a duly licensed dentist authorized by law to practice in New York State or one who is authorized to practice in the jurisdiction in which the examination was performed, provided that the Commissioner has determined that the jurisdiction has standards of licensure and practice comparable to New York State. The certificate shall describe the dental health condition of the student upon examination, which shall not be more than twelve (12) months prior to the commencement of the school year in which the examination is requested, and shall state whether the student is in fit condition of dental health to permit his/her attendance at the public schools.

Requests are not to be retroactive (i.e., any physical requested prior to September 1, 2008 does not need to have an additional notice sent requesting the dental certificate). Requests are not required when the student or parent/person in parental relation objects on the grounds of conflict with their genuine and sincere religious beliefs. Within thirty (30) days following the student's entrance in the school or grade, the certificate, if obtained, shall be filed in the student's cumulative health record.

SUBJECT: STUDENT PHYSICALS (Cont'd.)Examination by Health Appraisal

The Principal or the Principal's designee will send a notice to the parents of, or person in parental relation to, any student who does not present a health certificate, that if the required health certificate is not furnished within thirty (30) days from the date of such notice, an examination by health appraisal will be made of such student by the Director of School Health Services.

The Director of School Health Services shall cause such students to be separately and carefully examined and tested to ascertain whether any such student has defective sight or hearing, or any other physical disability which may tend to prevent the student from receiving the full benefit of school work or from receiving the best educational results, or which may require a modification of such work to prevent injury to the student.

The physician, physician assistant or nurse practitioner administering such examination shall determine whether a one-time test for sickle cell anemia is necessary or desirable and, if so determined, shall conduct such test and include the results in the health certificate.

Unless otherwise prohibited by law, if it is ascertained that any students have defective sight or hearing, or a physical disability or other condition, including sickle cell anemia which may require professional attention with regard to health, the Principal or Principal's designee shall notify, in writing, the student's parents or persons in parental relation as to the existence of such disability. If the parents or persons in parental relation are unable or unwilling to provide the necessary relief and treatment for such students, such fact shall be reported by the Principal or Principal's designee to the Director of School Health Services, who then has the duty to provide relief for such students.

Health Screenings

The District will provide:

- a) Scoliosis screening at least once each school year for all students in grades 5 through 9. The positive results of any such screening examinations for the presence of scoliosis shall be provided in writing to the student's parent or person in parental relation within ninety (90) days after such finding;
- b) Vision screening to all students who enroll in school including at a minimum color perception, distance acuity, and near vision within six (6) months of admission to the school. In addition, all students shall be screened for distance acuity in grades Kindergarten, 1, 2, 3, 5, 7 and 10 and at any other time deemed necessary. The results of all such vision screening examinations shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student. The vision report will be kept in a permanent file of the school for at least as long as the minimum retention period for such records;

(Continued)

Students

SUBJECT: STUDENT PHYSICALS (Cont'd.)

- c) Hearing screening to all students within six (6) months of admission to the school and in grades Kindergarten, 1, 3, 5, 7 and 10, as well as at any other time deemed necessary. Screening shall include, but not be limited to, pure tone and threshold air conduction screening. The results of any such hearing tests shall be provided in writing to the student's parent or person in parental relation and to any teacher of the student.

The results of all health screenings (dental, hearing, vision and scoliosis) shall be recorded on appropriate forms signed by the health professional making the examination, include appropriate recommendations, and be kept on file in the school. The health records of individual students will be kept confidential in accordance with the federal Family Educational Rights and Privacy Act (FERPA) and any other applicable federal and State laws.

Accommodation for Religious Beliefs

No health examinations, health history, examinations for health appraisal, screening examinations for sickle cell anemia and/or other health screenings shall be required where a student or the parent or person in parental relation to such student objects thereto on the grounds that such examinations, health history and/or screenings conflict with their genuine and sincere religious beliefs. A written and signed statement from the student or the student's parent or person in parental relation that such person holds such beliefs shall be submitted to the Principal or Principal's designee, in which case the Principal or Principal's designee may require supporting documents.

Homeless Students

For homeless children, the enrolling school must immediately refer the parent or guardian of the student to the District's homeless liaison, who must assist them in obtaining the necessary medical records.

SUBJECT: ADMINISTRATION OF MEDICATION

The school's registered professional nurse may administer medication to a student during school hours under certain conditions. (For the purpose of this policy "medication" includes prescription and non-prescription.) Per New York State Education Department (NYSED) requirements, the school must receive the following before medication is given to a student:

- a) The original written order from the student's physician stating the name of the medication, precise dosage, frequency and time of administration;
- b) A written, signed consent from the student's parent or legal guardian requesting the administration of the medication, as prescribed by the physician, to the student in school; and
- c) The medication, properly labeled in its original container, must be delivered to the School Health Office by the student's parent or legal guardian. (The term "properly labeled" in the context of this policy means that the container must include the following information: the student's name, name of medication, dosage, frequency and prescribing physician.) A student is not permitted to carry any medication on his/her person in school, or on the school bus, or keep any medication in his/her school locker(s). An exception to this policy may apply for a student's asthma inhaler or EpiPen which a student may carry and use under certain conditions.

All medication orders must be reviewed annually or whenever there is a change in dosage.

Procedures governing the School District's receipt, storage and disposal of medication, as well as those pertaining to the administration of medication to a student after school hours and/or off school grounds during a school-sponsored activity will be in accordance with NYSED guidelines.

Emergency Medication

The administration of emergency medication (injectable, including "epi-pens," and/or oral) to a student for extreme hypersensitivity may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant *must* have trained the staff member to administer the emergency medication for that particular emergency situation (e.g., "epi-pen") and given him/her approval to assist the student in the event of an emergency anaphylactic reaction. Such a response would fall under the Good Samaritan exemption for rendering emergency care during a life threatening situation.

(Continued)

SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)**Use of Asthma Inhalers in Schools**

A student may carry and use an asthma inhaler if the School Health Office has the following on file:

- a) The physician's written order/diagnosis that the student has a severe asthma condition and may be subject to sudden and debilitating asthmatic attacks; and
- b) Written permission from the student's parent or legal guardian.

Upon written request of the student's parent or legal guardian, the school must allow a student to maintain an extra asthma inhaler in the care and custody of the school's registered professional nurse. (A School District is **not required** to hire a registered professional nurse solely for the purpose of maintaining a spare inhaler or to ensure that a registered professional nurse is available at all times in a school building for such purpose.)

Health Office personnel will maintain regular parental contact in order to monitor the effectiveness of such self-medication procedures and to clarify parental responsibility as to the daily monitoring of their child to ensure that the medication is being utilized in accordance with the physician's or provider's instructions. Additionally, the student will be required to report to the Health Office on a periodic basis as determined by Health Office personnel so as to maintain an ongoing evaluation of the student's management of such self-medication techniques, and to work cooperatively with the parents and the student regarding such self-care management.

Students who self-administer medication without proper authorization, under any circumstances, will be referred for counseling by school nursing personnel. Additionally, school administration and parents will be notified of such unauthorized use of medication by the student, and school administration may also be involved in determining the proper resolution of such student behavior.

Blood Glucose Monitoring

Children with diabetes have the right to care for their diabetes at school in accordance with the Individuals with Disabilities Education Act (IDEA) and Section 504 of the Rehabilitation Act of 1973 which provide protection against discrimination for children with disabilities, including diabetes.

Accordingly, blood glucose monitoring must be allowed in the school setting at any time, within any place, and by anyone necessitating such testing. Children must receive assistance if needed with the procedure.

The school nurse shall oversee any arrangements that need to be made for testing and a system to report the results to the nurse as needed. Proper arrangements should be made for the disposal of sharps.

(Continued)

SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)**Alcohol-Based Hand Sanitizers**

Alcohol-based hand sanitizers are considered over-the-counter (OTC) drugs by the United States Food and Drug Administration. However, due to the fact that careful hand-washing and sanitation is the most effective way to control the recent spread of Methicillin-Resistant Staphylococcus Aureus (MRSA) in schools, the New York State Education Department (NYSED) has allowed a medical exemption to the requirements for OTC preparations in the school setting to permit the use of alcohol-based hand sanitizers.

The School Medical Director may approve and permit the use of alcohol-based hand sanitizers in the District's schools without a physician's order. Parents may provide written notification to the school in the event that they do not wish to have their child use this product.

It should be noted that hand sanitizers which contain alcohol are flammable and shall not be placed in hallways or near an open flame or source of sparks.

Sunscreen

Overexposure to ultraviolet (UV) radiation from the sun may cause sunburn, skin damage and increases the risk of skin cancer, especially exposure in the first fifteen (15) years of life. Although the FDA technically considers sunscreen an over-the-counter drug which would require a doctor's prescription in addition to parental permission, the New York State Education Department (NYSED) has issued an updated guidance document that will allow the use of sunscreen without a physician's order.

The District allows students to carry and use sunscreen in school if:

- a) The sunscreen is used for the purpose of avoiding overexposure to the sun and not for medical treatment of an injury or illness;
- b) The sunscreen is approved by the FDA for over-the-counter use; and
- c) The student's parent or guardian provides written permission for the student to carry and use sunscreen.

A student who is unable to physically apply sunscreen may be assisted by unlicensed personnel when directed to do so by the student, if permitted by a parent/guardian and authorized by the school. Parents/guardians are responsible for providing the sunscreen to be used at school.

(Continued)

SUBJECT: ADMINISTRATION OF MEDICATION (Cont'd.)**Disposal of Unused Medication**

Any unused medication (including, but not limited to expired prescription and nonprescription drugs) must be returned to the parent/person in parental relation by the end of each school year. If the parent/person in parental relation does not retrieve the unused medication by the end of the school year, then the School Nurse or designated School Health Office personnel must document that the medication was abandoned and dispose of the unused medication.

SUBJECT: STUDENT HEALTH RECORDS

The School shall keep a convenient, accurate, and up-to-date health record of every student. Insofar as the health records include confidential disclosures or findings, they shall be kept confidential.

The Family Educational Rights and Privacy Act (FERPA) is a federal law that protects the privacy of students' "education records." For Pre-K through grade 12 students, health records maintained by the School District, including immunization records and school nurse records, generally are considered "education records" subject to FERPA. In addition, records that the District or School maintains on special education students, including records on services provided to students under the Individuals with Disabilities Education Act (IDEA) are considered "education records" under FERPA because they are:

- a) Directly related to a student;
- b) Maintained by the School or a party acting for the School; and
- c) Not excluded from the definition of "education records."

Since student health and medical information in education records is protected by FERPA, the Health Insurance Portability and Accountability Act of 1996 (HIPAA) Privacy Rule excludes such information from its coverage.

Generally, these records may not be shared with third parties without written parental consent unless the disclosure meets one of the exceptions to FERPA's general consent requirement. One exception permits the disclosure of education records, without parental consent, to appropriate parties in connection with an emergency, if knowledge of the information is necessary to protect the health or safety of the student or other individuals.

Parents have a right under FERPA to inspect and review those health and medical records that are considered "education records" under FERPA. Individual records may be interpreted by the school's registered professional nurse to administrators, teachers and other school officials, consistent with law.

SUBJECT: ACCIDENTS AND MEDICAL EMERGENCIES

Procedures shall be established and maintained by the Superintendent for the handling of student injuries and medical emergencies that occur on school property and during school activities.

Student Emergency Treatment

All staff members of the School District are responsible to obtain first aid care for students who are injured or become ill while under school supervision.

In most instances first aid should be rendered, and then the parent should be contacted to come to school and transport the student to the family physician. Beyond first aid, the medical care of the student is the parent's responsibility. However, the student's welfare is always the primary concern, and it is the responsibility of school personnel to exercise good judgment and care under all circumstances.

The Board of Education encourages all staff members to become qualified to give emergency treatment through instruction in first aid, Cardiopulmonary Resuscitation (CPR) and Automated External Defibrillators (AEDs).

Transporting an Ill or Injured Student

In the event of an illness or injury to a student, an ambulance may be called if warranted. This solution will be used after other alternatives, including parent/person in parental relation contact, have been made.

Insurance

The Board of Education shall approve provisions for all students to be covered by group insurance.

Such student accident insurance policies are to be a co-insurance with family coverage(s) as primary.

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS

Students come to school with diverse medical conditions which may impact their learning as well as their health. Some of these conditions are serious and may be life-threatening.

Students, parents, school personnel and health care providers must all work together to provide the necessary information and training to allow children with chronic health problems to participate as fully and safely as possible in the school experience.

All students within the District with known life-threatening conditions should have a comprehensive plan of care in place or Individualized Healthcare Plan (IHP), and if appropriate an Individualized Education Plan (IEP) or Section 504 Plan.

School Health Team

The District has identified the following as important members of the School Health Team to ensure that health information is complete, appropriate accommodations are prepared, and any necessary medication and environmental protocols are in place for students with life-threatening health conditions:

- a) Parents/Guardians and Students;
- b) School District Administration;
- c) School Medical Physician;
- d) School Nurse;
- e) Teachers;
- f) Guidance Counselor/Social Worker;
- g) Other staff as needed.

Anaphylaxis

Although anaphylaxis can affect almost any part of the body and cause various symptoms, the most dangerous symptoms include breathing difficulties and a drop in blood pressure or shock which are potentially fatal. Treatment for anaphylaxis includes immediate removal of the allergen, and treating the rapidly progressing effects of histamine release in the body with epinephrine and antihistamines.

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)

Particularly for those students with chronic life-threatening conditions such as diabetes, seizure disorders, asthma and allergies (food, insect sting, latex, medications, etc.) which may result in severe, life-threatening reactions to various environmental triggers, it is necessary that the District work cooperatively with the parent(s) and the healthcare provider to:

- a) Immediately develop a plan for each at risk student to ensure that all appropriate personnel are aware of the student's potential for a life-threatening reaction;
- b) If appropriate, develop an Individualized Healthcare Plan that includes all necessary treatments, medications, training and educational requirements for the student. If the student is eligible for accommodations based upon the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Act of 1973 or the Americans with Disabilities Act, the appropriate procedures will be followed regarding evaluation and identification;
- c) Provide training by licensed medical personnel (e.g., registered professional nurse) for all adults in a supervisory role in the recognition and emergency management of a specific medical condition for specific students;
- d) Obtain specific legal documents duly executed in accordance with New York State law; appropriate health care provider authorization in writing for specific students that includes the frequency and conditions for any testing and/or treatment, symptoms, and treatment of any conditions associated with the health problem; and directions for emergencies;
- e) Secure written parent permission and discuss parental responsibility that includes providing the health care provider's orders, providing any necessary equipment, and participation in the education and co-management of the child as he/she works toward self-management;
- f) Allow self-directed students, as assessed by the school nurse, to carry life-saving medication with prior approval by the medical provider, and according to health practice and procedures, as long as duplicate life-saving medication is also maintained in the health office in the event the self-carrying student misplaces their medication;
- g) Assure appropriate and reasonable building accommodations are in place within a reasonable degree of medical certainty.

In addition, the District will:

- a) Provide training for all staff in the recognition of an anaphylactic reaction;
- b) Have standing emergency medical protocols for nursing;

(Continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)

- c) Request the School Medical Director to write a non-patient specific order for anaphylaxis treatment agents for the school's registered professional nurse to administer in the event of an unanticipated anaphylactic episode;
- d) As permitted by New York State law, maintain stock supplies of life saving emergency medications such as epinephrine and antihistamine in all health offices for use in first time emergencies;
- e) Ensure that Building-level and District-wide school safety plans include appropriate accommodations for students with life-threatening health conditions;
- f) Encourage families to obtain medic-alert bracelets for at risk students.

Creating an Allergen-Safe School Environment

Avoidance of exposure to allergens is the key to preventing a life-threatening anaphylactic reaction. Educating the entire school community about life-threatening allergies is crucial in keeping students with such allergies safe. The risk of accidental exposure or cross-contamination is always present, particularly for students with food allergies. The school setting is a high-risk environment for accidental ingestion of a food allergen due to the presence of a large number of students, increased exposure to food allergens, and cross-contamination of tables, desks and other surfaces.

To guard against accidental exposure to allergens, monitoring of the following high-risk areas and activities is crucial:

- a) Cafeteria;
- b) Food sharing;
- c) Classrooms;
- d) Field trips.

Use of Epinephrine Auto-Injector Devices (Epi-Pens) in the School Setting

The administration of epinephrine by epi-pen to a student with a known severe allergy needing an anaphylactic treatment agent may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant *must* have trained the staff member to administer the epi-pen for that emergency situation and given him/her approval to assist the student in the event of an anaphylactic reaction.

(Continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS (Cont'd.)

Documentation of training must be maintained in the Anaphylaxis Protocol for Non-Licensed School Staff Members for each affected student. The emergency response by non-licensed school staff members is permitted under the Medical Practice Act (Education Law Section 6527(4)(a)) and the Nurse Practice Act (Education Law Section 6908 (1)(a)(iv)) and is covered by the "Good Samaritan Law" (Public Health Law Section 3000-a).

Medication Self-Management

The District will work toward assisting students in the self-management of their chronic health condition based upon the student's knowledge level and skill by:

- a) Adequately training all staff involved in the care of the child;
- b) Assuring the availability of the necessary equipment and/or medications;
- c) Providing appropriately trained licensed persons as required by law;
- d) Providing additional appropriately trained adults to complete delegated tasks as allowed by law;
- e) Developing an emergency plan for the student; and
- f) Providing ongoing staff and student education.

SUBJECT: CONCUSSION MANAGEMENT

The Board of Education recognizes that concussions and head injuries are the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. The physical and mental well-being of our students is a primary concern. Therefore, the Fillmore Central School District adopts the following Policy to support the proper evaluation and management of concussion injuries.

A concussion is a mild traumatic brain injury (MTBI). A concussion occurs when normal brain functioning is disrupted by a blow or jolt to the head or body that causes the head and brain to move rapidly back and forth. Recovery from concussion and its symptoms will vary. Avoiding re-injury and over-exertion until fully recovered are the cornerstones of proper concussion management. Concussions can impact a student's academics as well as their athletic pursuits.

Concussion Management Team (CMT)

In accordance with the Concussion Management and Awareness Act, the School District is authorized, at its discretion, to establish a Concussion Management Team (CMT) which may be composed of the certified athletic director, a school nurse, the school physician, a coach of an interscholastic team, a certified athletic trainer or such other appropriate personnel as designated by the School District. The Concussion Management Team shall oversee and implement the School District's concussion policy and regulations, including the requirement that all school coaches, physical education teachers, nurses and certified athletic trainers who work with and/or provide instruction to pupils engaged in school-sponsored athletic activities complete training relating to mild traumatic brain injuries. Furthermore, every concussion management team may establish and implement a program which provides information on mild traumatic brain injuries to parents and persons in parental relation throughout each school year.

Staff Training/Course of Instruction

Each school coach, physical education teacher, school nurse and certified athletic trainer who works with and/or provides instruction to students in school sponsored athletic activities shall complete a course of instruction every two (2) years relating to recognizing the symptoms of concussions or MTBIs and monitoring and seeking proper medical treatment for students who suffer from a concussion or MTBI.

Components of the training will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;
- c) How MTBIs may occur;

(Continued)

SUBJECT: CONCUSSION MANAGEMENT (Cont'd.)

- d) Practices regarding prevention; and
- e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The course can be completed by means of instruction approved by State Education Department (SED) which include, but are not limited to, courses provided online and by teleconference.

Information to Parents

The District shall include the following information on concussion in any permission or consent form or similar document that may be required from a parent/person in parental relation for a student's participation in interscholastic sports. Information will include:

- a) The definition of MTBI;
- b) Signs and symptoms of MTBI;
- c) How MTBIs may occur;
- d) Practices regarding prevention; and
- e) Guidelines for the return to school and school activities for a student who has suffered an MTBI, even if the injury occurred outside of school.

The District will provide a link on its website, if one exists, to the above list of information on the State Education Department's and Department of Health's websites.

Identification of Concussion and Removal from Athletic Activities

The District shall require the immediate removal from all athletic activities of any student who has sustained, or is believed to have sustained, a mild traumatic brain injury (MTBI) or concussion. Any student demonstrating signs, symptoms or behaviors consistent with a concussion while participating in a class, extracurricular activity, or interscholastic athletic activity shall be removed from the class, game or activity and must be evaluated as soon as possible by an appropriate health care professional. Such removal must occur based on display of symptoms regardless of whether such injury occurred inside or outside of school. If there is any doubt as to whether the student has sustained a concussion, it shall be presumed that the student has been injured until proven otherwise. The District shall notify the student's parents or guardians and recommend appropriate evaluation and monitoring.

(Continued)

SUBJECT: CONCUSSION MANAGEMENT (Cont'd.)

The School District may choose to allow credentialed District staff to use validated neurocognitive computerized testing as a concussion assessment tool to obtain baseline and post-concussion performance data. These tools are not a replacement for a medical evaluation to diagnose and treat a concussion.

Return to School Activities and Athletics

The student shall not return to physical activity (including athletics, physical education class and recess) until he/she has been symptom-free for not less than twenty-four (24) hours, and has been evaluated and received written authorization from a licensed physician. In accordance with Commissioner's Regulations, the School District's Medical Director will give final clearance on a return to activity for extra-class athletics. All such authorizations shall be kept on file in the student's permanent health record. The standards for return to athletic activity will also apply to injuries that occur outside of school. School staff should be aware that students may exhibit concussion symptoms caused by injuries from outside activities and that these visible symptoms also indicate a removal from play.

The District shall follow any directives issued by the student's treating physician with regard to limitations and restrictions on school and athletic activities for the student. The District's Medical Director may also formulate a standard protocol for treatment of students with concussions during the school day.

In accordance with New York State Education Department (NYSED) guidelines, this Policy shall be reviewed periodically and updated as necessary in accordance with New York State Education Department guidelines. The Superintendent, in consultation with the District's Medical Director and other appropriate staff, may develop regulations and protocols for strategies to prevent concussions, the identification of concussions, and procedures for removal from and return to activities or academics.

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT**Familial Child Abuse**

The School District subscribes to all of the provisions of Title 6 - Child Protective Services of the Social Services Law Sections 411-428. Our purpose is to provide protective services to abused and neglected/maltreated children as described by the law, and to make all school personnel within the District aware of our legal responsibilities under this law.

Regulations shall be developed, maintained and disseminated by administration regarding the:

- a) Mandatory reporting of suspected child abuse or neglect/maltreatment;
- b) Reporting procedures and obligations of persons required to report;
- c) Provisions for taking a child into protective custody;
- d) Mandatory reporting of deaths;
- e) Immunity from liability and penalties for failure to report;
- f) Obligations for provision of services and procedures necessary to safeguard the life of a child; and
- g) Provision of information in recognizing signs of unlawful methamphetamine laboratories for all current and new school officials (i.e., "mandated reporters") who, as part of their usual responsibilities, visit children's homes.

Additionally, an annual training program for all current and new school officials shall be established and implemented to enable such staff to carry out their reporting responsibilities.

School Officials Required to Report

The definition of a "school official" who is mandated to report cases of child abuse or neglect/maltreatment to the State Central Register (SCR) pursuant to Social Services Law Section 413(1) includes, but is not limited to, school teachers, school guidance counselors, school psychologists, school social workers, school nurses, school administrators or other school personnel required to hold a teaching or administrative license or certificate.

All mandated reporters shall make the report themselves and then immediately notify the Building Principal or his/her designee. The Building Principal or his/her designee shall be responsible for all subsequent administration necessitated by the report.

(Continued)

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Any report shall include the name, title and contact information for every staff member who is believed to have direct knowledge of the allegations in the report.

Prohibition of Retaliatory Personnel Action

Social Services Law Section 413(1) also prohibits a school from taking any retaliatory personnel action against an employee because such employee believes that he/she has reasonable cause to suspect that a child is an abused or neglected/maltreated child and that employee makes a report to SCR pursuant to Social Services Law. Further, no school or school official shall impose any conditions, including prior approval or prior notification, upon any staff member specifically designated a mandated reporter.

Pursuant to Labor Law Section 740(1)(e), "retaliatory personnel action" means the discharge, suspension or demotion of an employee, or other adverse employment action taken against an employee in the terms and conditions of employment.

"Educational setting" shall mean the building(s) and grounds of the School District; the vehicles provided by the School District for the transportation of students to and from school buildings, field trips, co-curricular and extracurricular activities both on and off School District grounds; all co-curricular and extracurricular activity sites; and any other location where direct contact between an employee or volunteer and a child has allegedly occurred.

In any case where an oral or written allegation is made to a teacher, school's registered professional nurse, school guidance counselor, school psychologist, school social worker, school administrator, School Board member, or other school personnel required to hold a teaching or administrative license or certificate, that a child (defined in the law as a person under the age of twenty-one (21) years enrolled in a school district in this state) has been subjected to child abuse by an employee or volunteer in an educational setting, that person shall upon receipt of such allegation:

- a) Promptly complete a written report of such allegation including the full name of the child alleged to be abused; the name of the child's parent; the identity of the person making the allegation and their relationship to the alleged child victim; the name of the employee or volunteer against whom the allegation was made; and a listing of the specific allegations of child abuse in an educational setting. Such written report shall be completed on a form as prescribed by the Commissioner of Education.
- b) Except where the school administrator is the person receiving such an oral or written allegation, the employee completing the written report must promptly *personally deliver* a copy of that written report to the school administrator of the school in which the child abuse allegedly occurred (subject to the following paragraph).

In any case where it is alleged the child was abused by an employee or volunteer of a school other than a school within the school district of the child's attendance, the report of such allegations shall be promptly forwarded to the Superintendent of Schools of the school district of the child's attendance and the school district where the abuse allegedly occurred.

Any employee or volunteer who reasonably and in good faith makes a report of allegations of child abuse in an educational setting in accordance with the reporting requirements of the law shall have immunity from civil liability which might otherwise result by reason of such actions.

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Upon receipt of a written report alleging child abuse in an educational setting, the school administrator or Superintendent must then determine whether there is "reasonable suspicion" to believe that such an act of child abuse has occurred. Where there has been a determination as to the existence of such reasonable suspicion, the school administrator or Superintendent must follow the notification/reporting procedures mandated in law and further enumerated in administrative regulations including parental notification. When the school administrator receives a written report, he/she shall promptly provide a copy of such report to the Superintendent.

Where the school administrator or Superintendent has forwarded a written report of child abuse in an educational setting to law enforcement authorities, the Superintendent shall also refer such report to the Commissioner of Education where the employee or volunteer alleged to have committed such an act of child abuse holds a certification or license issued by the State Education Department.

Any school administrator or Superintendent who reasonably and in good faith makes a report of allegations of child abuse in an educational setting, or reasonably and in good faith transmits such a report to a person or agency as required by law, shall have immunity from civil liability which might otherwise result by reason of such actions.

Reports and other written material submitted pursuant to law with regard to allegations of child abuse in an educational setting, and photographs taken concerning such reports that are in the possession of any person legally authorized to receive such information, *shall be confidential and shall not be redisclosed except* to law enforcement authorities involved in an investigation of child abuse in an educational setting or as expressly authorized by law or pursuant to a court-ordered subpoena. School administrators and the Superintendent shall exercise reasonable care in preventing such unauthorized disclosure.

Additionally, teachers and all other school officials shall be provided an annual written explanation concerning the reporting of child abuse in an educational setting, including the immunity provisions as enumerated in law. Further, the Commissioner of Education shall furnish the District with required information, including rules and regulations for training necessary to implement District/staff responsibilities under the law.

Prohibition of "Silent" (Unreported) Resignations

The Superintendent and other school administrators are prohibited from withholding from law enforcement authorities, the Superintendent or the Commissioner of Education, where appropriate, information concerning allegations of child abuse in an educational setting against an employee or volunteer in exchange for that individual's resignation or voluntary suspension from his/her position.

SUBJECT: CHILD ABUSE AND NEGLECT/MALTREATMENT (Cont'd.)

Superintendents (or a designated administrator) who reasonably and in good faith report to law enforcement officials information regarding allegations of child abuse or a resignation as required pursuant to the law shall have immunity from any liability, civil or criminal, which might otherwise result by reason of such actions.

SUBJECT: SUICIDE

The suicide of a student has an extremely disturbing effect on the school and the local community. Unfortunately, there has been a significant increase in the number of adolescents who choose suicide as a way to resolve their problems. It is the intent of this District to alert school personnel to the implications of suicide by a student, to help the school and the community cope with the aftermath of such a tragic event should it occur, to recommend ways of identifying children and adolescents at risk of attempting suicide and to suggest ways to prevent such occurrences.

Suicide prevention will be incorporated into the curriculum to make students aware of this growing problem. This will be done in a manner so as not to glamorize the situation but to educate students in regard to this policy.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been developed by the administration.

Students

SUBJECT: DIGNITY FOR ALL STUDENTS ACT

The Board of Education recognizes that learning environments that are safe and supportive can increase student attendance and improve academic achievement. A student's ability to learn and achieve high academic standards, and a school's ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting and intimidation. Therefore, in accordance with the Dignity for All Students Act, Education Law, Article 2, the District will strive to create an environment free of bullying, discrimination and/or harassment and will foster civility in the schools to prevent and prohibit conduct which is inconsistent with the District's educational mission. Since cyberbullying is a form of bullying, the term "bullying" as used in this policy will implicitly include cyberbullying even if it is not explicitly stated.

The District condemns and prohibits all forms of bullying, discrimination and/or harassment of students based on actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender, or sex by school employees or students on school property and at school-sponsored activities and events that take place at locations off school property. In addition, any act of bullying, discrimination and/or harassment, outside of school sponsored events, which can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline.

Dignity Act Coordinator

At least one (1) employee at every school shall be designated as the Dignity Act Coordinator(s). The Dignity Act Coordinator(s) will be thoroughly trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression) and sex. The Board of Education shall appoint the Dignity Act Coordinator(s) and share the name(s) and contact information with all school personnel, students, and parents/persons in parental relation, which shall include, but is not limited to, providing the name, designated school and contact information by:

- a) Listing such information in the *Code of Conduct* and updates posted on the Internet website, if available;
- b) Including such information in the plain language summary of the *Code of Conduct* provided to all persons in parental relation to students before the beginning of each school year;
- c) Providing such information to parents and persons of parental relation in at least one (1) District or school mailing or other method of distribution including, but not limited to, sending such information home with each student and, if such information changes, in at least one subsequent District or school mailing or other such method of distribution as soon as practicable thereafter;

(Continued)

Students

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (Cont'd.)

- d) Posting such information in highly visible areas of school buildings;
- e) Making such information available at the District and school-level administrative offices.

If a Dignity Act Coordinator vacates his/her position, another school employee shall immediately be designated for an interim appointment as Coordinator, pending approval from the Board of Education, within thirty (30) days of the date the position was vacated. In the event a Coordinator is unable to perform the duties of the position for an extended period of time, another school employee shall immediately be designated for an interim appointment as Coordinator, pending return of the previous Coordinator to the position.

Training and Awareness

Each District and Charter School shall establish guidelines for training which shall be approved by the Board of Education. Training will be provided each school year for all District employees in conjunction with existing professional development training to raise staff awareness and sensitivity of bullying, discrimination and/or harassment directed at students that are committed by students or school employees on school property or at a school function. Training will include ways to promote a supportive school environment that is free from bullying, discrimination and/or harassment, emphasize positive relationships, and demonstrate prevention and intervention techniques to assist employees in recognizing and responding to bullying, discrimination and/or harassment, as well as ensuring the safety of the victims.

Instruction in grades Kindergarten through 12 shall include a component on civility, citizenship and character education. Such component shall instruct students on the principles of honesty, tolerance, personal responsibility, respect for others, observance of laws and rules, courtesy, dignity and other traits which will enhance the quality of their experiences in, and contributions to, the community. For the purposes of this policy, "tolerance," "respect for others" and "dignity" shall include awareness and sensitivity to bullying, discrimination and/or harassment and civility in the relations of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, genders and sexes.

Rules against bullying, discrimination and/or harassment will be included in the *Code of Conduct*, publicized District-wide and disseminated to all staff and parents. An age-appropriate summary shall be distributed to all students at a school assembly at the beginning of each school year.

Reports and Investigations of Bullying, Discrimination and/or Harassment

The District will investigate all complaints of bullying, discrimination and/or harassment, either formal or informal, and take prompt corrective measures, as necessary. Complaints will be investigated in accordance with applicable policies and regulations. If, after an appropriate

(Continued)

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (Cont'd.)

investigation, the District finds that this policy has been violated, corrective action will be taken in accordance with District policies and regulations, the *Code of Conduct*, and all appropriate federal or state laws.

The District will annually report material incidents of bullying, discrimination and/or harassment which occurred during the school year to the State Education Department. Such report shall be submitted in a manner prescribed by the Commissioner, on or before the basic educational data system (BEDS) reporting deadline or such other date as determined by the Commissioner. SED has developed a form for gathering data titled, "Reports of Incidents Concerning School Safety and the Educational Climate" which can be found on the NYSED website.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

Any person who has reasonable cause to suspect that a student has been subjected to bullying, discrimination and/or harassment by an employee or student, on school grounds or at a school function, who acts reasonably and in good faith and reports such information to school officials or law enforcement authorities, shall have immunity from any civil liability that may arise from making such report. The Board prohibits any retaliatory behavior directed at complainants, victims, witnesses and/or any other individuals who participated in the investigation of a complaint of bullying, discrimination and/or harassment.

SUBJECT: SEXUAL HARASSMENT OF STUDENTS

The Board of Education affirms its commitment to non-discrimination and recognizes its responsibility to provide for all District students an environment that is free of sexual harassment and intimidation. Sexual harassment is a violation of law and stands in direct opposition to District policy. Therefore, the Board prohibits and condemns all forms of sexual harassment by employees, school volunteers, students, and non-employees such as contractors and vendors which occur on school grounds, on a school bus and at all school-sponsored events, programs and activities including those that take place at locations off school premises or in another state. Since sexual violence is a form of sexual harassment, the term, "sexual harassment" in this policy will implicitly include sexual violence even if it is not explicitly stated.

Sexual Harassment

Generally, sexual harassment is defined as unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct or communication of a sexual nature when:

- a) Submission to or rejection of such sexually harassing conduct and/or communication by a student affects decisions regarding any aspect of the student's education, including participation in school-sponsored activities;
- b) Conditions exist within the school environment that allow or foster obscene pictures, lewd jokes, sexual advances, requests for sexual favors or other harassing activities of a sexual nature; and
- c) Such conduct and/or communication has the purpose or effect of substantially or unreasonably interfering with a student's academic performance or participation in an educational or extracurricular activity, or creating an intimidating, hostile or offensive learning environment; and/or effectively bars the student's access to an educational opportunity or benefit.

Sexual Violence

Sexual violence is defined by New York Penal Law as physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. Sexual violence includes but is not limited to acts such as:

- a) Rape;
- b) Sexual assault;
- c) Sexual battery;
- d) Sexual coercion.

(Continued)

Students

SUBJECT: SEXUAL HARASSMENT OF STUDENTS (Cont'd.)

A person may be unable to consent to a sexual act due to his/her age, use of drugs or alcohol or due to intellectual or other disability. In order to encourage victims of sexual violence to come forward, a District must inform students that the District's primary concern is with their safety. The school should assure victims that any broken rules or violations made by them will be addressed separately from the sexual harassment allegation. For example, victims need to know that their use of alcohol or drugs never makes them at fault for sexual violence.

The Board acknowledges that in determining whether sexual harassment has occurred the totality of the circumstances, expectations, and relationships should be evaluated including, but not limited to, the ages of the offender and the victim; the number of individuals involved; and the type, frequency and duration of the conduct. A single incident of sexual harassment may be sufficiently severe to create a hostile environment in the school and a student may experience the continuing effects from off-campus sexual harassment when in the school setting. The Board recognizes that sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from a third party such as a school visitor, volunteer, or vendor, or any other individual associated with the School District. Sexual harassment may occur from student-to-student, from staff-to-student, from student-to-staff, as well as staff-to-staff. The District will designate, at a minimum, two (2) Compliance Officers, one of each gender.

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, should immediately report such alleged harassment. Such report shall be directed to or forwarded to the District's designated Compliance Officers through informal and/or formal complaint procedures as developed by the District. Such complaints are recommended to be in writing, although verbal complaints of alleged sexual harassment will also be promptly investigated in accordance with the terms of this policy. In the event that the Compliance Officer is the alleged offender, the report will be directed to the next level of supervisory authority.

Upon receipt of an informal/formal complaint (even an anonymous complaint), the District will conduct a prompt, equitable, and thorough investigation of the charges. However, even in the absence of a complaint, if the District has knowledge of or has reason to know of or suspect any occurrence of sexual harassment, the District will investigate such conduct promptly, equitably and thoroughly. To the extent possible, within legal constraints, all complaints will be treated as confidentially and privately as possible. However, disclosure may be necessary to complete a thorough investigation of the charges, and any disclosure will be provided on a "need to know" basis. The Superintendent will inform the Board of Education of investigations involving findings of harassment.

Based upon the results of the investigation, if the District determines that an employee and/or student has violated the terms of this policy and/or accompanying regulations, immediate corrective action will be taken as warranted. Should the offending individual be a student, appropriate

disciplinary measures will be applied, up to and including suspension, in accordance with District policy and regulation, the Code of Conduct, and applicable laws and/or regulations. Should the offending individual be a school employee, appropriate disciplinary measures will be applied, up to and including termination of the offender's employment, in accordance with legal guidelines, District policy and regulation, the Code of Conduct and the applicable collective bargaining agreement(s). Third parties (such as school volunteers, vendors, etc.) who are found to have violated this policy and/or accompanying regulations will be subject to appropriate sanctions as warranted and in compliance with law.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Follow-up inquiries shall be made to ensure that sexual harassment has not resumed and that all those involved in the investigation of the sexual harassment complaint have not suffered retaliation.

Finding That Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Compliance Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to District policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that harassment did not occur.

Knowingly Makes False Accusations

Employees and/or students who *knowingly* make false accusations against another individual as to allegations of harassment may also face appropriate disciplinary action.

Privacy Rights

As part of the investigation, the District has the right to search all school property and equipment including District computers. Rooms, desks, cabinets, lockers, computers, etc. are provided by the District for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

(Continued)

SUBJECT: SEXUAL HARASSMENT OF STUDENTS (Cont'd.)**Development and Dissemination of Administrative Regulations**

Regulations will be developed for reporting, investigating and remedying allegations of sexual harassment. An appeal procedure will also be provided to address any unresolved complaints and/or unsatisfactory prior determinations by the applicable Compliance Officer(s).

Such regulations will be developed in accordance with federal and state law as well as any applicable collective bargaining agreement(s).

The Superintendent/designee(s) will affirmatively discuss the topic of sexual harassment with all employees and students, express the District's condemnation of such conduct, and explain the sanctions for such harassment. Appropriate training and/or "awareness" programs will be established for staff and students to help ensure knowledge of and familiarity with the issues pertaining to sexual harassment in the schools, and to disseminate preventative measures to help reduce such incidents of prohibited conduct. Furthermore, special training will be provided for designated supervisors and managerial employees, as may be necessary, for training in the investigation of sexual harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and may be posted at various locations in each school building. The District's policy and regulations on sexual harassment will be published in appropriate school publications such as teacher/employee handbooks, student handbooks, and/or school calendars.

SUBJECT: BULLYING IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses, and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three (3) forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Although this Policy focuses on the bullying of a student by another student, it should be noted that bullying against any individual is strictly prohibited. This includes bullying of staff members against students, students against staff members, all employees against other employees, and bullying by or against any parents, persons in parental relation, volunteers, visitors or vendors who may be on school property or at school sponsored events as defined above.

Engages in Cyberbullying Behavior

As with other forms of bullying, cyberbullying is an attempt to display power and control over someone perceived as weaker. Cyberbullying involving District students may occur both on campus and off school grounds and may involve student use of the District Internet system or student use of personal digital devices while at school, such as cell phones, digital cameras, and personal computers to engage in bullying.

Cyberbullying includes, but is not limited to, the following misuses of technology: harassing, teasing, intimidating, threatening, or terrorizing another student or staff member by way of any technological tool, such as sending or posting inappropriate or derogatory email messages, instant messages, text messages, digital pictures or images, or website postings (including blogs).

(Continued)

Students

SUBJECT: BULLYING IN THE SCHOOLS (Cont'd.)

Cyberbullying has the effect of:

- a) Physically, emotionally or mentally harming a student;
- b) Placing a student in reasonable fear of physical, emotional or mental harm;
- c) Placing a student in reasonable fear of damage to or loss of personal property; and
- d) Creating an intimidating or hostile environment that substantially interferes with a student's educational opportunities.

Also, cyberbullying that occurs off-campus, that causes or threatens to cause a material or substantial disruption in the school, could allow school officials to apply the "*Tinker* standard" where a student's off-campus "speech" may be subject to formal discipline by school officials when it is determined that the off-campus speech did cause a substantial disruption or threat thereof within the school setting [*Tinker v. Des Moines Indep. Sch. Dist.* 393 U.S. 503 (1969)]. Such conduct could also be subject to appropriate disciplinary action in accordance with the *District Code of Conduct* and possible referral to local law enforcement authorities.

Reports of Allegations of Bullying/Cyberbullying Behavior

Any student who believes that he/she is being subjected to bullying/cyberbullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the Building Principal. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses bullying behavior) shall promptly, thoroughly and equitably investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly and equitably investigated and will be treated as confidential and private to the extent possible within legal constraints.

Prevention and Intervention

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

(Continued)

Students

SUBJECT: BULLYING IN THE SCHOOLS (Cont'd.)

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

Students

SUBJECT: HAZING OF STUDENTS

The Board of Education is committed to providing a safe, productive and positive learning environment within its schools. Hazing activities are demeaning, abusive and/or illegal behaviors that harm victims, and are inconsistent with the educational goals of the District by negatively impacting the school environment. Hazing of a student by another student or group of students is strictly prohibited on school property; in school buildings; on school buses; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Hazing of a student refers to soliciting, encouraging, aiding, or engaging in "hazing" behavior as defined pursuant to District policy, regulation and/or law. The Board of Education shall require the prohibition of hazing - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "*hazing among students is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate.*" Hazing behaviors include, but are not limited to, the following general categories:

- a) Humiliation: socially offensive, isolating or uncooperative behaviors.
- b) Substance abuse: abuse of tobacco, alcohol or illegal drugs.
- c) Dangerous hazing: hurtful, aggressive, destructive, and disruptive behaviors.

Incorporated within this definition are various forms of physical, emotional and/or sexual abuse which may range in severity from teasing/embarrassing activities to life threatening actions.

Even if the hazing victim participated "willingly" in the activity, or there was no "intent" by the hazer to harm or injure another individual, hazing is still hazing and against District policy, the *District Code of Conduct* and may be in violation of New York State Law. However, hazing of students does not need to rise to the level of criminal activity for such conduct to be in violation of District rules and subject to appropriate disciplinary sanctions. Any hazing activity, whether by an individual or a group, shall be presumed a forced activity and in violation of Board policy, regardless of the "willingness" of the student to participate.

Any student who believes that he/she is being subjected to hazing behavior, as well as students, school employees or third parties who have knowledge of or witness any possible occurrence of hazing, shall report the incident to any staff member or the Building Principal. Anonymous student complaints of hazing behavior will also be investigated by the District. The staff member/Building Principal to whom the report is made (or the staff member/Building Principal who witnesses hazing behavior) shall investigate the complaint/incident and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of hazing. Investigations of allegations of hazing shall follow the procedures utilized for complaints of harassment within the School District. Allegations of hazing shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

(Continued)

Students

SUBJECT: HAZING OF STUDENTS (Cont'd.)**Prohibition of Retaliatory Behavior (Commonly Known as "Whistle Blower" Protection)**

The Board of Education prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participate in the investigation of allegations of hazing. Follow-up inquiries and/or appropriate monitoring of the alleged hazer(s) and victim(s) shall be made to ensure that hazing behavior has not resumed and that all those involved in the investigation of allegations of hazing have not suffered retaliation. Any act of retaliation is subject to appropriate disciplinary action by the District.

Knowingly Makes False Accusations

Students who *knowingly* make false accusations against another individual as to allegations of hazing may also face appropriate disciplinary action.

District Responsibility/Training

Personnel at all levels are responsible for taking corrective action to prevent hazing behavior of which they have been made aware at School District sites; by school sponsored groups, clubs or teams; and at school sponsored events and/or activities whether occurring on or off-campus. Further, as may be applicable, personnel are to report such hazing behavior to their immediate supervisor. Staff training shall be provided to raise awareness of the problem of hazing within the schools and to facilitate staff identification of, and response to, such hazing behavior among students.

Prevention and intervention techniques within the District to help prevent hazing behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to hazers, victims and their parents to help ensure that the hazing stops.

Rules against hazing shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents. Disciplinary sanctions for violation of this policy shall be outlined in the *District Code of Conduct* and may also be incorporated in staff and student handbooks. In addition, allegations of hazing behavior may result in referral to law enforcement officials as necessary.

SUBJECT: NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted in order to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well-being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties including, but not limited to, Building Principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers, and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data in order to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable Building Principal/designee or supervisor.

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law (FOIL).

Special Circumstances Whereby Sex Offenders May Enter Upon School Grounds

As a mandatory condition of the sentence for sex offenders placed on probation or conditional discharge whose victim was under the age of eighteen (18) or who has been designated a Level 3 sex offender, the court requires that such sentenced offender refrain from knowingly entering into or upon school grounds or any other facility or institution primarily used for the care or treatment of persons under the age of eighteen (18) while one or more of such persons are present.

- a) The offender is a registered student, participant or employee of the facility;
- b) The offender is an employee of an entity contracted by the facility;
- c) The offender has a family member enrolled in the facility; or
- d) If the school is the offender's designated polling place and he/she enters solely to vote.

SUBJECT: SUPERVISION OF STUDENTS

Students working on any activity must be supervised by the teacher or staff member in charge of the activity. This applies to all in school and extracurricular activities as well as sports activities and events. Permission to hold practices or meetings must not be granted unless a teacher or staff member is definitely in charge.

- a) District personnel will be fully responsible for the supervision of all students in either their class or their after school activities.
- b) Coaches will maintain supervision over the dressing rooms by personally being present during the dressing periods. Coaches are responsible for the supervision of their athletes at the end of practice. This may entail bus duty, or making sure students have transportation home.
- c) Teachers and/or assigned school personnel in the elementary grades will be responsible for the playground supervision of all the children under their jurisdiction during the recess periods and before the regular afternoon sessions. The Principal will distribute the responsibility so that the playground situation will be properly controlled.

SUBJECT: SPECIAL EDUCATION: DISTRICT PLAN

A District plan shall be developed describing the Special Education program in the Fillmore Central School District. The District plan shall include the following:

- a) A description of the nature and scope of special education programs and services currently available to students (including preschool students) residing in the District, including but not limited to descriptions of the District's resource room programs and each special class program provided by the District in terms of group size and composition.
- b) The method to be used to evaluate the extent to which the objectives of the program have been achieved.
- c) A description of the policies and practices of the Board of Education to ensure the allocation of appropriate space within the District for special education programs that meet the needs of students and preschool children with disabilities.
- d) A description of the policies and practices of the Board of Education to ensure that appropriate space will be continually available to meet the needs of resident students and preschool students with disabilities who attend special education programs provided by Boards of Cooperative Educational Services.
- e) A description of how the District intends to ensure that all instructional materials to be used in the schools of the District will be made available in a usable alternative format for each student with a disability at the same time as such instructional materials are available to non-disabled students. The alternative format must meet the National Instructional Materials Accessibility Standard defined in federal law.
- f) The date on which such plan was adopted by the Board of Education.
- g) A description of how the District plan is consistent with the special education space requirements plan for the region as developed by the Board of Cooperative Educational Services.

The District plan, with personally identifiable student information deleted, shall be filed and available for public inspection and review by the Commissioner.

SUBJECT: CHILDREN WITH DISABILITIES

A child with a disability means a student under the age of twenty-one (21) who is entitled to attend public schools and who, because of mental, physical or emotional reasons can only receive appropriate educational opportunities from a program of special education. A child is not considered as having a disability if his/her educational needs are due primarily to unfamiliarity with the English language; environmental, cultural or economic factors; or lack of appropriate instruction in reading or mathematics.

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a system of services offered in the least restrictive environment for children with disabilities which includes:

- a) Education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, home instruction and education in a residential setting.
- b) Providing for the education of students with disabilities with non-disabled peers to the extent appropriate.
- c) Establishing the following guidelines for the provision of appropriate accommodations necessary to measure the academic achievement and functional performance of the student in the administration of District-wide assessments:
 1. Ensure that necessary accommodations are specified on individualized education program (IEP) and implemented in accordance with the IEP;
 2. Review the need for accommodations at Committee on Special Education (CSE) evaluations/re-evaluations.
- d) To the extent feasible, using universal design principles (defined as a concept or philosophy for designing and delivering products and services that are usable by people with the widest range of functional capabilities, which include products and services that are directly usable without requiring assistive technologies and products and services that are made usable with assistive technologies) in developing and administering District-wide assessment programs by:
 1. Addressing appropriate universal design principles in IEP;
 2. Ensuring that instructional materials and activities allow learning goals to be achievable by individuals with wide differences in abilities;
 3. Ensuring that flexible curricular materials and activities are built into the instructional design and operating systems;

(Continued)

Students

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

4. Ensuring that instruction is diversified to deliver the general education curriculum to every student and diversify ways students may respond to that curriculum.
- e) Adoption of written policies and procedures ensuring that students with disabilities are provided appropriate opportunities to earn a high school diploma in accordance with Commissioner's Regulations.
- f) Allocation of appropriate space within the District for special education programs that meet the needs of students with disabilities.
- g) Assurance that appropriate space will be available to meet the needs of resident students with disabilities who attend special education programs provided by BOCES.

Provision of Special Education Services to Nonpublic School Students with Disabilities who are Parentally Placed

The **district of location** is responsible for child find, including individual evaluations, Committee on Special Education (CSE) meetings, provision of special education services, and due process to parentally placed nonpublic school students attending nonpublic schools located in the geographic region of the public school district.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools or to Charter schools.

The actual cost for Committee on Special Education (CSE) administration, evaluations and special education services provided to a student with a disability who is a resident of New York State, but a nonresident to the district of location, may be recovered from the student's school district of residence. Because federal regulations require parental consent before any personally identifiable information about the student relating to special education is shared between officials in the public school district of location and officials in the public school district of residence, parent consent to share special education information between the two (2) public school districts is required before billing a district of residence for the cost of special education services provided to the student by the district of location.

Parental consent must be obtained by the school district of location before any personally identifiable information about the student is shared between officials in the public school district of residence and officials in the public school district of location.

(Continued)

SUBJECT: CHILDREN WITH DISABILITIES (Cont'd.)

The school district of location must consult with nonpublic school representatives and representatives of parents of parentally placed nonpublic school students with disabilities enrolled in nonpublic elementary and secondary schools located within the boundaries of the school district. The school district must engage in consultation regarding the child find process and services generally; consultation is not specific to individual students. Individual services are determined by the CSE.

The consultation process must be timely and meaningful and include discussion of:

- a) Child Find;
- b) Provision of Special Education Services; and
- c) Use of Federal Funds.

The school district of location must provide, as appropriate, special education services to an eligible student who legally resides in another state and who is parentally placed in a nonpublic school located in New York State. The services to be provided to out-of-state students must be documented on a services plan that is developed by the CSE of the district of location. The services plan is the written plan that describes the specific special education and related service that the district of location will provide to the student consistent with the services that the school district of location has determined through the consultation process and in relation to the proportionate shares of federal IDEA Part B dollars, to be provided to the student.

Tuition Reimbursement Claims for Disabled Nonpublic School Students

The parent must comply with the IDEA's pre-hearing notice requirement for tuition reimbursement claims. Specifically, the IDEA directs that at least ten (10) business days before submitting a request for an impartial due process hearing for tuition reimbursement, the parent must give the District written notice of intent to enroll the child in private school at public expense. The purpose of this requirement is to give the public school district's CSE the opportunity to meet and develop a new IEP for the student that addresses the parent's concerns. *A parent who does not provide such written notice within ten (10) days may have his request for reimbursement reduced or denied. In most cases, a parent's failure to satisfy these notice requirements is a complete bar to recovery.*

SUBJECT: GROUPING BY SIMILARITY OF NEEDS

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

- a) That each student with a disability shall be identified, evaluated and placed as determined by the Committee on Special Education (CSE).
- b) The CSE shall determine written goals, including academic and functional goals, for each student with a disability by considering the special and individual needs of each student with a disability. Short-term instructional objectives and/or benchmarks will be created for each preschool student with a disability and for students who take New York State alternate assessments.
- c) The CSE shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.
- d) The CSE shall provide information to those teachers and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results.
- e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.
- f) Students with disabilities may be grouped according to:
 1. Academic achievement, functional performance and learning characteristics;
 2. Social development;
 3. Physical development; and
 4. Management needs.
- g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.
- h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

**SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S
INDIVIDUALIZED EDUCATION PROGRAM**

The Board of Education shall establish at least one (1) Committee on Special Education (CSE) and one (1) Committee on Preschool Special Education (CPSE). The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the recommendations of the CSE, arrange for the appropriate special education programs and services to be provided to a student with a disability. The Board shall notify the parent/guardian of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) school days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one (1) of the following procedures:

- a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the individualized education program (IEP) where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the timelines as outlined above; or, in the alternative,
- b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or

concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians with written notice and a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

Committee on Preschool Special Education

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the preschool student with a disability; in that case, such services shall be provided no later than thirty (30) days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

Subcommittee on Special Education

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

Each Subcommittee may perform the functions for which the CSE is responsible, except:

- a) When a student is considered for initial placement in a special class; or
- b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or

**SUBJECT: THE ROLE OF THE BOARD IN IMPLEMENTING A STUDENT'S
INDIVIDUALIZED EDUCATION PROGRAM (Cont'd.)**

- c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report annually to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent or person in parental relation to a student, the Subcommittee shall refer to the CSE any matter in which the parent disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

- a) Ensure the timely evaluation and placement of each preschool child with a disability residing in the District so the child has the opportunity to participate in preschool programs.
- b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.
- c) Ensure that parents have received and understand the request for consent for evaluation and re-evaluation of a preschool aged child.

Evaluations for Preschool Children with Disabilities

The District is required to collect entry assessment data in the three (3) outcome areas on all preschool children who receive an initial evaluation. As currently required by Commissioner's Regulation Section 200.5, a parent must be fully informed about the proposed initial evaluation and must provide consent for an initial evaluation. This would include a description of the proposed evaluation.

The CPSE will receive entry-level assessment results in the three (3) outcome areas from approved preschool evaluators conducting initial evaluations on all preschool children suspected of having disabilities. The CPSE will then meet to determine the child's eligibility for preschool education programs and/or services and complete the Child Outcomes Summary Form to determine the child's entry level of functioning in the three (3) outcome areas for all preschool children evaluated and found to be eligible. The form is to be kept in the student's record until the exit assessment information is due as a way to summarize complex assessment information in a format so that the data can be aggregated and reported to the State Education Department (SED).

SUBJECT: LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

- a) Provide the special education and related services, as well as supplementary aids and services, needed by the student. The term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device; and
- b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

- a) Placement is based on the student's individualized education program and determined at least annually;
- b) In selecting the least restrictive environment, consideration will be given to any potential harmful effect on the student or on the quality of services that he/she needs; and
- c) A student with a disability will not be removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

The District shall ensure that a continuum of alternative placements, in accordance with law and/or regulation, will be available to meet the needs of students with disabilities. To enable students with disabilities to be educated with nondisabled students to the maximum extent appropriate, specially designed instruction and supplementary services may be provided in the regular class, including, as appropriate, related services, consultant teacher services, paraprofessional support, resource room services, integrated co-teaching, and special class programs within the general education classroom.

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION)**

The School District shall establish a plan for implementing schoolwide approaches and prereferral interventions in order to remediate a student's performance *prior to referral* for special education. This plan may include a Response to Intervention (RTI) process.

The provision of programs and/or services for students starts with consideration/implementation of instruction in the general education curriculum, with appropriate supports and/or modifications as may be necessary. In implementing prereferral intervention strategies, the District may utilize resources/strategies already in place for qualified students including, but not limited to, services available through Section 504 of the Rehabilitation Act of 1973, and Educationally Related Support Services and Academic Intervention Services as defined in Education Law and/or Commissioner's Regulations. All of these programs may be considered as possible components of Prereferral/Intervention Instructional Support Plans. The District will ensure that they have a system in place, with appropriate personnel, for developing, implementing and evaluating prereferral intervention strategies.

The District will provide general education support services, instructional modifications, alternative instructional approaches, or alternative program options to address a student's performance prior to a referral to a Committee on Special Education (CSE). Formal Instructional Support Teams (IST) will be formed in accordance with law and/or regulations as may be applicable as well as District guidelines. The IST will include representatives from general and special education as well as other disciplines and include individuals with classroom experience. Parents/persons in parental relation to students will be involved in developing prereferral strategies to address the educational needs of their child. Additionally, the District will seek collaboration between outside agencies and the school prior to a referral of the student to the CSE in order to address necessary student support services.

Administration shall ensure that appropriate opportunities exist for collaboration between general educators and special educators, and that consultation and support are available to teachers and other school personnel to assist parents/persons in parental relation to students and teachers in exploring alternative approaches for meeting the individual needs of any student prior to formal referral for special education.

The determination of prevention and prereferral intervention strategies/services shall consider the student's strengths, environment, social history, language and cultural diversity in addition to the teacher's concerns. The building administrator will further ensure that all staff are familiar with intervention procedures and procedures for operating an IST.

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd.)**

Prereferral/Intervention Instructional Support Plans shall be proactive in their strategies to meet the broad range of student needs and to improve student performance. Prereferral/Intervention strategies and/or Instructional Support Plans are to be reviewed and evaluated to determine their effectiveness, and modified as may be appropriate. Appropriate documentation of the prevention and/or intervention strategies implemented shall be maintained.

However, should a referral be made to the CSE during the course of implementing prereferral/intervention instructional support services, the CSE is obligated in accordance with law to continue its duties and functions, and must meet mandatory time lines in evaluating the student for special education services and implementation of an individualized education program, if applicable.

Educational Related Support Services

Educational related support services (ERSS) means curriculum and instructional modification services; direct student support team services; assessment and non-career counseling services; special instruction to eligible students with disabilities as defined in Education Law Section 4401, which does not generate excess cost aid including related services but excluding transportation and transition services; and to eligible, qualified students pursuant to Section 504 of the Rehabilitation Act of 1973. These services are provided to eligible students, individually or in groups, and may include those related consultation services provided to their families and related school personnel in order to enhance the academic achievement and attendance of such students. Educational related support services shall also mean speech and language improvement services as defined in Commissioner's Regulations.

ERSS may be utilized as a component of any Prereferral/Intervention Instructional Support Plan.

Section 504 of the Rehabilitation Act of 1973

For students who are qualified for services pursuant to Section 504 of the Rehabilitation Act, but are not classified as students with disabilities as defined in Education Law Section 4401, Section 504 Accommodation Plans may address instructional support services that can be utilized as components of any prereferral/intervention strategies as deemed necessary and/or appropriate.

Academic Intervention Services

Academic intervention services means additional instruction which supplements the instruction provided in the general education curriculum and assists students in meeting the State learning standards as defined in Commissioner's Regulations and/or student support services which may include guidance, counseling, attendance, and study skills which are needed to support improved academic performance.

(Continued)

**SUBJECT: PREREFERRAL INTERVENTION STRATEGIES IN GENERAL EDUCATION
(PRIOR TO A REFERRAL FOR SPECIAL EDUCATION) (Cont'd.)**

However, such services shall not include services provided to students with limited English proficiency pursuant to Commissioner's Regulations or special education services and programs as defined in Education Law Section 4401. Academic intervention services are intended to assist students who are at risk of not achieving the State learning standards in English language arts, mathematics, social studies and/or science, or who are at risk of not gaining the knowledge and skills needed to meet or exceed designated performance levels on State assessments.

The District has developed a description of the academic intervention services offered to grades K through 12 students in need of such services. The District will review and revise this description every two (2) years based on student performance results.

Parental notification of students who have been determined to need academic intervention services will be provided as per Commissioner's Regulations.

In implementing prevention and/or prereferral intervention support strategies in order to remediate a student's performance prior to referral for special education, the utilization of academic intervention services, as enumerated in Commissioner's Regulations, may be included as a component of any such Prereferral/Intervention Instructional Support Plan.

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

- a) The regular consideration for declassifying students when appropriate;
- b) A reevaluation of the student prior to declassification; and
- c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent at no cost to the parent. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's individualized education program (IEP).

Prior to the reevaluation, the School District shall obtain informed written parental consent unless otherwise authorized pursuant to law and/or regulation. Parental consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents fail to respond. The District must have a record of its attempts to obtain parental consent. Should the student's parents refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents with deafness or whose native language is other than English.

Graduation/Aging Out

The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the District must provide the student with a summary (Student Exit Summary) of the student's academic achievement and functional performance, including recommendations on how to assist the student in meeting his/her post-secondary goals. Although not required to do so, the District will also provide this Student Exit Summary (see website: <http://www.vesid.nysed.gov/specialed/idea/studentexit.htm>) to students exiting with a High School Equivalency Diploma.

(Continued)

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES (Cont'd.)

In addition, the parent must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before he/she receives an Individualized Education Program (IEP) diploma. If the student will be graduating with an IEP diploma, this prior written notice must indicate that the student continues to be eligible for a free appropriate public education until the end of the school year in which the student turns twenty-one (21) or until receipt of a regular high school diploma. However, New York State Law does not grant a child who has reached the age of majority all rights previously granted to parents under IDEA.

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

- a) Identify the declassification support services, if any, to be provided to the student; and/or the student's teachers; and
- b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

Declassification support services means those services provided to the student or the student's teacher(s) to aid in the student's transition from special education to full-time regular education. These services are provided by persons certified or licensed in the appropriate area of service pursuant to Commissioner's Regulations Part 80. Such services include:

- a) For the student: psychological services, social work services, speech and language improvement services, noncareer counseling, and other appropriate support services; and
- b) For the student's teacher(s): the assistance of supplementary school personnel and consultations with appropriate personnel.

SUBJECT: SECTION 504 OF THE REHABILITATION ACT OF 1973

The Board of Education affirms its compliance with those sections of the Rehabilitation Act of 1973 dealing with program accessibility.

Section 504 of the Rehabilitation Act prohibits discrimination against qualified individuals with disabilities in federally assisted programs or activities solely on the basis of disability. The District shall make its program and facilities accessible to all its students with disabilities.

The District shall also identify, evaluate and extend to every qualified student with a disability under Section 504 a free, appropriate public education, including modifications, accommodations, specialized instruction or related aids and services, as deemed necessary to meet their educational needs as adequately as the needs of non-disabled students are met.

The District official responsible for coordination of activities relating to compliance with Section 504 is the Superintendent of Schools. This official shall provide information, including complaint procedures, to any person who feels his/her rights under Section 504 have been violated by the District or its officials.

Prohibition Against Disability-Based Discrimination in Accelerated Programs

The practice of denying, on the basis of disability, a qualified student with a disability the opportunity to participate in an accelerated program violates both Section 504 and Title II. A school district may not impose or apply eligibility criteria that screens out or tends to screen out a student with a disability from fully and equally enjoying any service, program, or activity, unless such criteria can be shown to be necessary.

It is also unlawful to deny a student with a disability admission to an accelerated class or program solely because of his/her need for special education or related aids or services (i.e., related services, supplementary aids and services, program modification and supports for school personnel) or because the student has an Individualized Education Program (IEP) or a plan under Section 504.

Schools may employ appropriate eligibility requirements or criteria in determining whether to admit students, including students with disabilities, into accelerated classes or programs. Additionally, nothing in Section 504 or Title II requires schools to admit into accelerated classes or programs students with disabilities who would not otherwise be qualified for these classes or programs.

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION****Development of Individualized Education Program**

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

Such an Individualized Education Program (IEP) will be developed by the CSE or CPSE upon referral, and reviewed or revised, whichever is appropriate, for every child with a disability at least annually or in the event that the program no longer appears to be appropriate to meet the student's needs and ability level.

The District shall ensure that each student with a disability has an IEP in effect at the beginning of each school year.

Functional Behavioral Assessments/Behavioral Intervention Plans

A functional behavioral assessment (FBA) is an integral part of the evaluation and reevaluation of a student with a disability which should be used throughout the process of developing, reviewing and revising a student's IEP when the student's behavior impedes learning of the child or others. The FBA is the process of determining why a student engages in challenging behavior and how the student's behavior relates to the environment. An FBA for a student with a disability is an evaluation requiring parental consent, pursuant to Commissioner's Regulation 200.5(b).

The FBA provides a baseline of the student's problem behaviors with regard to frequency, duration, intensity and/or latency across activities, settings, people and times of the day and includes:

- a) The identification of the problem behavior,
- b) The definition of the behavior in concrete terms,
- c) The identification of the contextual factors that contribute to the behavior (including cognitive and affective factors), and
- d) The formulation of a hypothesis regarding the general conditions under which a behavior usually occurs and probable consequences that serve to maintain it.

The FBA must, as appropriate, be based on multiple sources of data such as structured discussions, behavior ratings scales, standardized assessments and checklists. It must include, but is not limited to:

- a) Information obtained from direct observation of the student;

(Continued)

Students

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

- b) Information from the student, the student's teacher(s) and/or related service providers; and
- c) A review of available data and information from the student's record and other sources including any relevant information provided by the student's parent.

The FBA can't be based solely on the student's history of presenting problem behavior.

The CSE/CPSE will ensure that functional behavioral assessments, when appropriate, are conducted and reviewed to:

- a) Identify supplementary aids and services, modifications and/or related services appropriate to address the identified behaviors to promote the student's involvement and progress in the general curriculum;
- b) Determine a student's eligibility for special education services;
- c) Develop the IEP which includes behavioral goals and objectives and positive behavioral supports and strategies.

In the case of a student whose behavior impedes his/her learning or that of others, the CSE/CPSE shall consider strategies, including positive behavioral interventions and supports and other strategies to address that behavior. The need for a behavioral intervention plan (BIP) shall be documented on the IEP and such plan shall be reviewed at least annually by the CSE/CPSE. In addition, regular progress monitoring of the frequency, duration and intensity of the behavioral interventions shall be conducted at scheduled intervals, documented and reported to the parents and CSE/CPSE.

A behavioral intervention plan may not include the use of aversive interventions or time out rooms except in accordance with specific Board policy regulating these techniques.

Individual Evaluations

Parental consent must be provided for an initial evaluation. If such consent is not received within thirty (30) calendar days of receipt of the referral, the CSE/CPSE Chairperson will document all attempts made to obtain the consent and, if appropriate, advise the Board of its right to utilize the due process procedures to conduct an evaluation without parental consent.

Unless a referral is withdrawn, an individual evaluation at no cost to the parent will be completed by the CSE/CPSE within sixty (60) calendar days after written parental consent has been obtained or a parental refusal to consent is overridden, unless:

(Continued)

Students

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

- a) An extension is mutually agreed to by the parent and the CSE/CPSE for the following situations:
 - 1. Transfer students: A student enrolls in the District after sixty (60) days and prior to a determination by the student's previous school district as to whether the student has a disability, but only if the new school district is making sufficient progress to ensure a prompt completion of the evaluation and the parent and the new district agree in writing to a specific timeframe for completion; or
 - 2. Students suspected of having learning disabilities; or
- b) The parent or student repeatedly fails or refuses to produce the student for evaluation.

No student shall be required to obtain a prescription for a drug or other substance identified as a controlled substance by the federal Controlled Substances Act as a condition of receiving an evaluation.

The individual evaluation will include a variety of assessment tools and strategies, including information provided by the parent. The purpose of the evaluation is to gather relevant functional, developmental and academic information that may assist in determining whether the student is a student with a disability and the content of the student's IEP. This shall include information relating to enabling the student to participate and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities).

As part of any evaluation, a group that includes the CSE/CPSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents of the student, current classroom-based assessments, local or state assessments, classroom-based observations, and observations by teachers and related services providers. In addition, the group will consider information about the student's physical condition, social or cultural background, and adaptive behavior.

On the basis of that review, and input from the student's parents, the group shall identify what additional data, if any, are needed to determine:

- a) Whether the student has or continues to have a disability;
- b) The present levels of academic achievement and related developmental needs of the student, including:
 - 1. Academic achievement, functional performance, and learning characteristics;
 - 2. Social development;

(Continued)

Students

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

3. Physical development; and
 4. Management needs.
- c) In the case of a reevaluation of a student, whether the student continues to need special education; and
 - d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goals set out in the IEP of the student and to participate, as appropriate, in the general education curriculum.

If additional data are not needed, the District must notify the parents of that determination and the reasons for it and of the right of the parents to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability and to determine the student's educational needs. The District is not required to conduct the assessment unless requested to do so by the student's parents.

The determination that a student has a learning disability will be made in accordance with the procedures outlined in Section 200.4(j) of Commissioner's Regulations.

Individual Re-evaluations

A CSE/CPSE shall arrange for an appropriate re-evaluation of each student with a disability:

- a) If the District determines that the educational or related services needs, including improved academic achievement and functional performance of the student warrant re-evaluation;
- b) If the student's parent or teacher request a re-evaluation;
- c) At least once every three (3) years, unless the District and the parent/person in parental relation agree in writing that such re-evaluation is unnecessary.

A re-evaluation shall not be conducted more frequently than once a year unless the parent and the District representative appointed to the CSE/CPSE agree otherwise.

The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

(Continued)

Students

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION (Cont'd.)**

To the extent possible, the District shall encourage the consolidation of re-evaluation meetings for the student and other CSE/CPSE meetings for the student.

Amendments to the IEP

Amendments to the IEP made after the annual review by the CSE/CPSE may be made by reconvening the CSE/CPSE and rewriting the IEP or by developing a written document to amend or modify the student's current IEP, provided that:

- a) The parents/persons in parental relation request an amendment to the IEP and the District and parents/persons in parental relation agree to the amendment in writing; or
- b) The District provides the parents/persons in parental relation a written proposal to amend a provision or provisions of the IEP conveyed in language understandable to the parents/persons in parental relation in their native language or other dominant mode of communication, informs and allows the parents/persons in parental relation the opportunity to consult with the appropriate personnel or related service providers concerning the proposed changes, and the parents/persons in parental relation agree in writing to the amendments.

If the parents/persons in parental relation agree to amend the IEP without a meeting, they shall be provided prior written notice (notice of recommendation) of the changes to the IEP and the Committee notified of the changes. If the changes are made by rewriting the entire IEP, the District shall provide the parents/persons in parental relation a copy of the rewritten IEP. If the amendment is made without rewriting the entire document, the District shall provide a copy of the document that amends the IEP or, upon request, a revised copy of the entire IEP with the amendments incorporated.

Use of Recording Equipment at IEP Meetings

The Board of Education shall allow recording equipment to be used at meetings regarding individualized education programs for students with disabilities.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is *provided a paper or electronic copy of such student's IEP (including amendments to the IEP) prior to the implementation of such program*. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of Cooperative Educational Services (BOCES) or school enumerated in Education Law Articles 81, 85 or

89 where the student receives or will receive IEP services. Further, the District will designate at least one school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

Any copy of a student's IEP shall remain confidential in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

The Chairperson of the CSE, CSE subcommittee, or CPSE *shall designate* for each student one or, as appropriate, more than one professional employee of the School District with knowledge of the student's disability and education program *who will be responsible to, prior to the implementation of the IEP, inform* each regular education teacher, special education teacher, related service provider, other service provider, supplementary school personnel (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP. In selecting the professional staff person(s), the Chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has *the opportunity to review* a copy of the student's IEP (including amendments) prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have *ongoing access* to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the supplementary school personnel or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents at no cost to the student's parents.

Beginning not later than the first Individualized Education Program (IEP) to be in effect when the student is age fifteen (15) (and at a younger age, if determined appropriate), and updated annually, the student's IEP must include:

- a) A statement of the student's needs taking into account the student's strengths, preferences and interests as they relate to transition from school to post-school activities;
- b) Appropriate measurable postsecondary goals based upon age appropriate transition assessments relating to training, education, employment and, where appropriate, independent living skills;
- c) A statement of transition service needs that focuses on the student's courses of study, such as participation in advanced-placement courses or a vocational educational program;
- d) Needed activities to facilitate the student's movement from school to post-school activities, including instruction, related services, community experiences, the development of employment and other post-school adult living objectives and, when appropriate, acquisition of daily living skills and functional vocational evaluation; and
- e) A statement of the responsibilities of the District and participating agencies, when applicable, for the provision of such services and activities, before the student leaves the school setting, that promote movement from school to post-school opportunities.

In accordance with the Code of Federal Regulations, the District must invite a child with a disability to attend the child's Committee on Special Education (CSE) meeting if a purpose of the meeting will be the consideration of the postsecondary goals for the child and the transition services needed to assist the child in reaching those goals. If the child does not attend the CSE meeting, the District must take other steps to ensure that the child's preference and interests are considered. To the extent appropriate, with the consent of the parent or a child who has reached the age of majority, the District must also invite a representative of any participating agency that is likely to be responsible for providing or paying for transition services.

As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within a results-oriented process that is focused on improving the academic and functional achievement of the student with a disability to facilitate movement from school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational education, integrated employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the student's strengths, preferences and interests and shall include needed activities in the following areas:

- b) Related services (the term "related services" does not include a medical device that is surgically implanted, the optimization of the device's functioning (e.g., mapping), maintenance of, or the replacement of such device);
- c) Community experiences;
- d) The development of employment and other post-school adult living objectives; and
- e) When appropriate, acquisition of daily living skills and provision of a functional vocational evaluation.

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS

The School District shall provide, directly or by contract, special services and/or programs during July and August (i.e., extended school year) to those students whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration in order to prevent substantial regression as determined by the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE). Written consent of the parent is required prior to initial provision of special education services in a twelve (12) month special service and/or program.

The CSE/CPSE must determine whether a student requires extended school year special education services and/or programs in order to prevent substantial regression. Substantial regression would be indicated by a student's inability to maintain developmental levels due to a loss of skill, set of skill competencies or knowledge during the months of July and August. In accordance with Commissioner's Regulations, students must be considered for twelve (12) month special services and/or programs to prevent substantial regression if they are:

- a) Students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention and who are placed in special classes; or

Preschool students whose management needs are determined to be highly intensive and require a high degree of individualized attention and intervention;

- b) Students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment and are placed in special classes; or

Preschool students with severe multiple disabilities, whose programs consist primarily of habilitation and treatment;

- c) Students who are recommended for home and/or hospital instruction whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment; or

Preschool students whose special education needs are determined to be highly intensive and require a high degree of individualized attention and intervention or who have severe multiple disabilities and require primarily habilitation and treatment in the home;

- d) Students, including preschool students, whose needs are so severe that they can be met only in a seven (7) day residential program; or

SUBJECT: EXTENDED SCHOOL YEAR (JULY/AUGUST) SERVICES AND/OR PROGRAMS (Cont'd.)

- e) Students who are not in programs as described in subparagraphs (a) through (d) above during the period from September through June and who, because of their disabilities, exhibit the need for a twelve (12) month special service and/or program provided in a structured learning environment of up to twelve (12) months duration in order to prevent substantial regression as determined by the CSE; or

Preschool students who are not described in subparagraphs (a) through (d) above whose disabilities are severe enough to exhibit the need for a structured learning environment of twelve (12) months duration to prevent substantial regression as determined by the Preschool Committee on Special Education (CPSE).

For students eligible for twelve (12) month service and/or program, per Commissioner's Regulations Section 200.4(d)(2)(x), the student's Individualized Education Program (IEP) shall indicate the identity of the provider of services during the months of July and August, and, for preschool students determined by the CPSE to require a structured learning environment of twelve (12) months duration to prevent substantial regression, a statement of the reasons for such recommendation.

The IEP shall indicate the projected date of the review of the student's need for such services and shall indicate the recommended placement.

The State Education Department (SED) is authorized to approve programs and to establish State Aid reimbursement rates for all special services and programs provided during July and August, both public and private. Therefore, if the School District plans to operate a July/August program, the District must first apply to SED for approval in accordance with SED guidelines/procedures.

SUBJECT: TRANSFER STUDENTS WITH DISABILITIES

To facilitate the transition of students with disabilities transferring into or out of the District the District shall:

- a) As the district of origin take reasonable steps to promptly respond to all requests from the new school district.
- b) As the new school district take reasonable steps to promptly obtain the student's records from the previous school, including the Individualized Education Program (IEP), supporting documents and any other records relating to the provision of special education services.
- c) Provide to a student with a disability (as defined in Section 200.1(zz) of Commissioner's Regulations) who transfers school districts within the same school year a free appropriate education including services comparable to those described in the student's previous IEP.
 1. For transfers within New York State, the previously held IEP will be followed in consultation with the parents until the District adopts the previously held IEP or develops, adopts and implements a new IEP consistent with federal and State law and regulation.
 2. For transfers from outside New York State, in consultation with the parents the previously held IEP will be followed until the District conducts an evaluation and, if appropriate, develops a new IEP consistent with federal and State law and regulation.

**SUBJECT: IDENTIFICATION AND REGISTER OF CHILDREN WITH DISABILITIES
(CHILD FIND)**

The school district of residence is required to locate and identify all students with disabilities who reside in the district, including students who do not attend public school (with the exception of students with disabilities who are parentally placed in nonpublic schools outside the district of residence). Therefore, it is the policy of the Board of Education to identify all children with disabilities within its jurisdiction under the age of twenty-one (21) identified, located and evaluated, including children of preschool age, homeless children, children who are wards of the State as defined in Commissioner's Regulations and children in all public and private agencies and institutions.

Any student suspected of having a disability is to be referred to the applicable Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) for evaluation and possible identification as a student with disability.

The CSE/CPSE will maintain and revise annually a register and related summary reports containing the data requirements indicated in Commissioner's Regulations.

Nonpublic School Students with Disabilities Who are Parentally Placed

If the School District boundaries encompass a nonpublic school, the District, as the district of location, must develop and implement methods to identify, locate and ensure the identification and evaluation of students with disabilities who have been, or are going to be, parentally placed in such nonpublic school.

The child find activities must be similar to activities for students with disabilities in the public schools and must be completed in a time period comparable to that for other students attending public schools in the School District.

As the public school district of location, the District must consult with the nonpublic schools where students are parentally placed to determine an accurate count of students with disabilities attending such schools and receiving special education services.

These requirements only pertain to students with disabilities parentally placed in elementary and secondary nonpublic schools, not to parental placements of preschool children with disabilities in private day care or preschool programs; or to CSE placements of students with disabilities in approved private schools, Special Act School Districts, State-supported or State-operated schools; or to Charter schools.

Provision of Special Education Services for Child under Age Seven (7)

It is the responsibility of the Committee on Special Education (CSE) to provide special education services to a child with a disability under the age of seven (7) who is eligible for school-age services, not subject to compulsory attendance requirements and not on a regular school attendance register.

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES

The Board of Education recognizes the rights of the parent/guardian to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and children in the Commissioner's Regulations shall be observed by the School District.

Definition of Parent

Parent means a birth or adoptive parent, a legally appointed guardian generally authorized to act as the child's parent or authorized to make educational decisions for the child, a person in parental relation to the child as defined in Education Law Section 3212, an individual designated as a person in parental relation pursuant to General Obligations Law Title 15-A including an individual so designated who is acting in the place of a birth or adoptive parent (including a grandparent, stepparent or other relative with whom the child resides), or a surrogate parent who has been appointed in accordance with Section 200.5(n) of Commissioner's Regulations. The term does not include the State if the student is a ward of the State.

A foster parent may act as a parent unless State law, regulations or contractual obligations with a State or local entity prohibit the foster parent from acting as a parent.

Unless a judicial decree identifies a specific person(s) to act as the parent or make educational decisions for the student, if one or more parties is qualified to act as a parent, the birth or adoptive parent is presumed to be the parent unless they do not have the legal authority to do so.

Surrogate Parents

It is the duty of the School District to determine whether a child needs a surrogate parent and to assign a surrogate parent in the manner permitted under New York State law. This determination shall be completed within a reasonable time following the receipt of a referral for an initial evaluation or re-evaluation.

In the event that no parent or guardian for a child with a disability can be identified; or after reasonable efforts the whereabouts of the parent or guardian cannot be determined; or the student is an unaccompanied homeless youth; or the child with a disability is a ward of the State and does not have a "parent" as defined above; or the rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law; the Board shall assign an individual to act as a surrogate for the parents or guardians.

Alternatively, the surrogate parent may be appointed by a judge overseeing the child's case.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

The person selected as a surrogate shall have no interest that conflicts with the interest of the child he/she represents, and shall have knowledge and skills that ensure adequate representation of the child.

Prior Written Notice (Notice of Recommendation)

Prior written notice (notice of recommendation) must be given to parents of a student with a disability a reasonable time before the District proposes to, or refuses to, initiate or change the identification, evaluation, educational placement of the student or the provision of a free appropriate public education to the student. Prior written notice must also be provided informing the parents when no additional data is required to determine the student's educational needs, the reasons for this determination and their right to request an assessment.

If the prior written notice relates to a proposed action that also requires parental consent, the District must give notice at the same time it requests parental consent. The prior written notice will contain all elements required by Commissioner's Regulations.

A parent may elect to receive prior written notice and other required notifications by electronic mail (email) communication if the District makes this option available.

Parent Participation in Meetings

The School District must take steps to ensure that one or both of the custodial parent or parents of a child with a disability are present at each Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) meeting or are afforded the opportunity to participate in a mutually agreed upon time and place. The School District must document its attempts to involve parents, such as:

- a) Detailed records of telephone calls made or attempted and the results of these calls;
- b) Copies of correspondence sent to the parents and any responses received; and
- c) Detailed records of visits made to the parent's home or place of employment and the results of those visits.

A meeting may be conducted without a parent in attendance if the School District is unable to convince the parents that they should attend.

Additionally, the School District must take whatever action is necessary to ensure the parent understands the proceedings of this meeting including arranging for an interpreter for parents with deafness or whose native language is other than English.

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)**Parental Consent**

In accordance with due process, a parent (as defined in Commissioner's Regulations Section 200.1(l)) of a special education student or a student suspected of having a disability must provide informed consent before the School District can take certain actions. The District will make reasonable efforts to obtain written informed consent and will maintain a detailed record of its attempts and the results of the attempts.

In New York State, a noncustodial parent does not have the right to control educational decisions for his/her child. However, a noncustodial parent is afforded this right if, and only if, this right is expressly included in a custody order.

Additionally, absent supporting language in a custody order, a non-custodial parent lacks standing under IDEA to bring a claim to assert control over his/her child's educational program. Until recent revisions to New York law, consent for an initial evaluation, reevaluation, or the provision of special education services needed to be provided by a parent (i.e., the custodial or noncustodial parent). As it now stands, the decision to provide consent for a CSE- or CPSE-related activity is considered an education-related decision designated exclusively to custodial parents unless a court order specifically states the contrary.

Consent for Evaluations

The parent or guardian must provide informed consent to the initial evaluation, or reevaluations in accordance with law and/or regulations. If a parent does not provide consent for an initial evaluation, the School District *may* pursue the evaluation by commencing a due process hearing to override the refusal to provide consent.

Parental consent for a reevaluation is not needed if the District can demonstrate that it has taken reasonable measures to obtain consent, but the parents or guardians have failed to respond.

Consent for the Initial Provision of Services

Parental consent is also required for the initial provision of special education services. Consent for an initial evaluation does not constitute consent for the initial provision of services. If a parent does not provide consent for the initial provision of services, the School District *shall not* provide the special education programs and services to the student and shall not use the due process procedures to challenge the parent's refusal to consent. The School District shall not be considered to be in violation of the requirements to provide a free appropriate public education (FAPE), shall not be required to convene a meeting of the committee on special education or develop an individualized education program (IEP).

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)Consent for Other Actions

Prior written consent must also be provided:

- a) Prior to releasing any personally identifiable information; and
- b) Prior to each time the District proposes to access a parent's private or public insurance. A Medicaid application does not meet the IDEA parent consent requirements. The District must obtain an annual parental consent to request Medicaid reimbursement.

A sample Medicaid Consent Form may be found at:

<http://www.vesid.nysed.gov/specialed/publications/sampleconsent.htm>

Consent for an Unaccompanied Homeless Youth

Consent may be provided by a surrogate parent. However, until a surrogate parent is appointed, consent may be provided on a temporary basis by an employee of a temporary housing facility operated or approved by a local social services district or a residential facility for runaway and homeless youth.

Consent for a Ward of the State

A ward of the State means a child or youth under the age of twenty-one (21):

- a) Who has been placed or remanded pursuant to Social Services Law or the Family Court Act or freed for adoption pursuant to Social Services Law; or
- b) Who is in the custody of the Commissioner of Social Services or the Office of Children and Family Services; or
- c) Who is a destitute child under Social Services Law.

In the event that a child is a ward of the State, the School District shall make reasonable efforts to obtain the informed consent from the parent of the child for an initial evaluation to determine whether the child is a child with a disability.

The School District is not required to obtain informed consent if:

- a) Despite reasonable efforts to do so, the School District cannot discover the whereabouts of the parent of the student, including consulting with the agency responsible for the care of the student; or

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

- b) The rights of the parents of the student have been terminated in accordance with State law; or
- c) The rights of the parent to make educational decisions have been subrogated by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the student.

Consent for a Student Who is Home Instructed or Parentally Placed in a Private School at the Parent's Expense

If a parent of a student who is home instructed or placed in a private school by their parents at their own expense does not provide consent for an initial evaluation or reevaluation, or the parent fails to respond to a request to provide consent, the District may not continue to pursue those evaluations by using the due process procedures and the District is not required to consider the student as eligible for special education services.

Parental Revocation of Consent

Parental revocation of consent for continued provision of special education and related services must be in writing. When the parent revokes such consent, the District still must provide the parent with the usual written notice of its intentions with respect to the child.

If the parent of a student with a disability revokes his/her consent in writing for the continued provision of special education and related services to the student at any time subsequent to the initial provision of special education and related services, the District:

- a) Shall not continue to provide special education and related services to the student, but must provide prior written notice to the parent before ceasing the provisions of special education and related services;
- b) Shall not use due process procedures (i.e., mediation, resolution meeting, and/or impartial due process hearing) in order to obtain agreement or a ruling that the services may be provided to the student without parental consent;
- c) Shall not be considered to be in violation of the requirement to make a free and appropriate public education (FAPE) available to the student because of the failure to provide the student with further special education and related services following revocation of consent;
- d) Is not required to convene a meeting of the Committee on Special Education or develop an IEP for the student for further provision of special education programs and related services upon receipt of written revocation of consent; and

(Continued)

SUBJECT: PARENT INVOLVEMENT FOR CHILDREN WITH DISABILITIES (Cont'd.)

- e) Is not required to amend the student's education records to remove any references to the student's receipt of special education programs and services because of the revocation of consent.

Procedural Safeguards Notice

The School District will provide the procedural safeguards notice prescribed by the Commissioner of Education to the parents of a student with a disability at least one time per year and also:

- a) Upon initial referral or parental request for evaluation;
- b) Upon the first filing of a due process complaint notice to request mediation or an impartial due process hearing;
- c) Upon request by a parent;
- d) Upon a decision to impose a suspension or removal that constitutes a disciplinary change in placement; and
- e) Upon first receipt of a State complaint.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The parent/person in parental relation of a student with a disability may file a written request with the Board for an impartial due process hearing with respect to any matter relating to the identification, evaluation, educational placement, provision of a free appropriate public education, manifestation determination or other matter relating to discipline. The Board may also initiate such hearing.

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. Mediation will be available to resolve disputes involving any matter, including matters arising prior to the filing of a request for an impartial due process hearing. In addition, the District may establish procedures providing the opportunity to meet with a disinterested party from a community dispute resolution center for an explanation of the benefits of the mediation process.

For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The Impartial Hearing Officer (IHO) renders a written decision after the parties present and refute evidence before him/her. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Due Process Hearing Process

The request for an impartial due process hearing must be submitted within two (2) years of the date the parent or the District knew or should have known about the alleged action forming the basis of the complaint. However, the two (2) year timeline does not apply if the parent was prevented from requesting the hearing due to specific misrepresentations by the District that it had resolved the problem or the District's withholding of information from the parent that is required by Commissioner's Regulations.

The following is an overview of the impartial due process hearing process/prehearing conference:

a) Due Process Complaint Notification

1. The parent or the School District may request an impartial due process hearing by first submitting a due process complaint notice.

A hearing may not be held until a due process complaint notice is filed. Either the parent, the District, or the attorney representing either party may present a complaint with respect to any matter relating to the identification, evaluation or educational placement of a student with a disability or a student suspected of having a disability, or the provision of a free appropriate public education to such student.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

This written due process complaint notice must include:

- (a) The name of the student;
 - (b) The address of the student's residence or, in the case of a homeless student, available contact information;
 - (c) The name of the school the child is attending;
 - (d) A description of the nature of the problem of the student relating to the proposed or refused initiation or change, including facts relating to the problem; and
 - (e) A proposed resolution of the problem to the extent known and available to the party at the time.
2. The due process complaint notice will be deemed sufficient unless the party receiving the notice notifies the other party and the IHO in writing within fifteen (15) days of receiving the notice that they believe the notice requirements have not been met.
 3. Within five (5) days of the receipt of the notice of insufficiency, the IHO shall make a determination on the face of the notice of whether the notification meets the notice requirements and shall immediately notify the parties in writing of the determination.
 4. If the District has not sent a prior written notice (notice of recommendation) to the parent regarding the subject matter of the complaint notice, the District will send a response to the parent within ten (10) days of receiving the complaint which includes:
 - (a) An explanation of why the District proposed or refused to take the action raised in the complaint;
 - (b) A description of other options the Committee on Special Education (CSE)/Committee on Preschool Special Education (CPSE) considered and why those options were rejected;
 - (c) A description of each evaluation procedure, assessment, record, or report the District used as a basis for the proposed or refused action; and
 - (d) A description of the factors relevant to the District's proposal or refusal.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

5. Upon receipt or filing of the due process complaint notice, the District will provide the procedural safeguards notice to the parents. The District will also inform parents in writing of the availability of mediation and of any free or low-cost legal and other relevant services available in the area.
6. Within ten (10) days of receiving the complaint notice, the non-complaining party must send a response specifically addressing the issues raised in the notice.
7. A party may amend its due process complaint notice only if:
 - (a) The other party consents in writing and is given the opportunity to resolve the complaint through a resolution process;
 - (b) The IHO grants permission, but not later than five (5) days before the impartial due process hearing commences.

Applicable timelines for the impartial due process hearing will recommence at the time of the filing of the amended notice.

8. No issues may be raised at the impartial due process hearing that were not raised in the due process complaint notice.

b) Resolution Process

1. Within fifteen (15) days of receiving the due process complaint notice from the parent and prior to the due process hearing itself, the District shall convene a meeting with the parents and relevant members of the CSE/CPSE, as determined by the District and the parent, who have specific knowledge of the facts identified in the complaint. A representative of the District who has decision-making authority must attend. The attorney for the District may not attend unless the parent is accompanied by an attorney. At this resolution meeting, the District has the opportunity to resolve the complaint after the parents discuss their complaint and the facts forming its basis.

The District will take steps to ensure that one or both of the parents of the student with a disability are present at the resolution meeting, including notifying parents of the meeting early enough to ensure that they will have the opportunity to attend and scheduling the resolution meeting at a mutually agreed on time and place and in a location that is physically accessible to the parents.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

2. When conducting meetings and carrying out administrative matters (such as scheduling), the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.
 3. The parent and District may agree in writing to waive the resolution process or agree to use the mediation process to resolve the dispute.
 4. If a settlement is reached, the parties shall execute a legally binding agreement signed by the parent and the representative of the District who has authority to bind the District. This agreement is enforceable in court. However, either party may void the agreement within three (3) business days of the agreement's execution.
 5. If the District has not resolved the due process complaint to the satisfaction of the parents within thirty (30) days of receipt of the complaint notice, the impartial hearing process may begin.
 6. Except where the parties have jointly agreed to waive the resolution process or use mediation, the failure of a parent filing a due process complaint to participate in the resolution meeting will delay the timeline for the resolution process and due process hearing until the meeting is held:
 - (a) If the District is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented), the District may, at the conclusion of the thirty-day period, request that an IHO dismiss the parent's due process complaint.
 - (b) If the District fails to hold the resolution meeting within fifteen (15) days of receipt of the parent's due process complaint or fails to participate in the resolution meeting, the parent may seek the intervention of the IHO to begin the due process hearing timeline.
- c) Pre-Hearing Conference
- A pre-hearing conference (which may take place via telephone) may be scheduled by the IHO to simplify or clarify issues; establish dates for the completion of the hearing; identify evidence to be entered into the record; identify witnesses expected to provide testimony; and/or address other administrative issues. A transcript or written summary shall be entered into the record by the IHO.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)d) Impartial Due Process Hearing

In the event the complaint is not resolved in a resolution process, the Board will arrange for an impartial due process hearing to be conducted. When carrying out administrative matters relating to an impartial due process hearing, such as scheduling, exchange of witness lists and status conferences, the parent and District may agree to use alternative means of meeting participation such as video conferences or conference calls.

1. The District must immediately (but not later than two (2) business days after receipt of the due process complaint notice or mailing of the due process complaint notice to the parent) initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory timelines. The Superintendent's Secretary/District Clerk will be responsible for contacting IHOs and maintaining appropriate records.
2. The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint him/her. To expedite this process, the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.
3. The IHO may not accept appointment unless he/she is available to make a determination of sufficiency of a due process complaint notice within five (5) days of receiving such a request and (unless an extension is granted) to initiate the hearing in a timely fashion.
 - (a) When the District files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after the date the IHO is appointed;
 - (b) When a parent files the due process complaint notice, the hearing or pre-hearing conference must commence within the first fourteen (14) days after whichever of the following occurs first:
 - 1) The date the IHO receives the parties' written waiver of the resolution meeting; or
 - 2) The IHO receives the parties' written confirmation that a mediation or resolution meeting was held but no agreement could be reached; or

- 3) The expiration of the thirty-day resolution period unless the parties agree in writing to continue mediation at the end of the thirty-day resolution period. In such case, the hearing or pre-hearing conference will commence within the first fourteen (14) days after the IHO is notified in writing that either party withdrew from mediation.
4. The hearing, or a prehearing conference, shall commence within the timeframe specified in c) above, unless an extension is granted pursuant to Commissioner's Regulations. The parties to the proceeding may be accompanied and advised by legal counsel and by individuals with special knowledge or training with respect to the problems of students with disabilities. Notably, if a parent prevails at an impartial due process hearing, he/she is entitled to reasonable attorney's fees, but not fees for his/her non-attorney advocate. Such fees are considered "expert fees" and are not recoverable under the current IDEA.
5. Each party must disclose to all parties all evaluations completed by that date and recommendations based on the offering party's evaluation that they intend to use at the hearing not less than five (5) days prior to the hearing. The IHO may bar any party that fails to comply with this requirement from introducing the relevant evaluation or recommendation at the hearing without the consent of the other party.
6. In New York State, a party to an impartial due process hearing may be "represented" by a non-attorney. Commissioner's Regulation directs that parents, school authorities, and their respective counsel or "representative" shall have an opportunity to present evidence, compel the attendance of witnesses and to confront and question all witnesses at the hearing. Each party shall have the right to prohibit the introduction of any evidence, the substance of which has not been disclosed to all parties at least five (5) business days prior to the due process hearing.
7. The hearing will be conducted at a time and location that is reasonable and convenient to the parent and the student involved. The hearing shall be closed to the public unless the parent requests an open hearing.
8. The role and responsibilities of the IHO will be as enumerated in Commissioner's Regulations. At all stages of the proceeding, the IHO may assist an unrepresented party by providing information relating only to the hearing process. However, nothing shall impair or limit the authority of the IHO to ask questions of counsel or witnesses for the purpose of clarification or completeness of the record.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

9. The student shall remain in his/her current placement during the pendency of the impartial due process hearing unless both parties agree or accept as otherwise provided for expedited impartial due process hearings for certain disciplinary suspensions or removals of a student. For a preschool child not currently receiving special education services and programs, he/she may, during any impartial due process hearings or appeals, receive special education services and programs if the parent/person in parental relation and the District agree. However, during the pendency of an appeal for a preschool child who is transitioning from an Early Intervention (EI) program and is no longer eligible for the EI program due to age, the District is not required to provide the services the child had been receiving under EI. If found eligible for special education as a preschool student with a disability, and if the parent consents to the initial provision of services, the District will provide those programs and services that are not in dispute.
10. The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory timelines but not later than forty-five (45) days from the date required for commencement of the impartial due process hearing specified in c) above. For expedited hearings the deadline is within ten (10) school days after the hearing; for preschool hearings the timeframe is thirty (30) days after the receipt by the Board of a request for a hearing or after the initiation of such hearing by the Board.
11. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Burden of Proof

In accordance with New York State law, the burden of proof and persuasion in an impartial due process hearing dispute relative to a student's special education placement rests upon the school district. However, a parent/person in parental relation seeking tuition reimbursement for a unilateral parental placement shall have the burden of persuasion as to the appropriateness of the placement.

Recordkeeping and Reporting

The District will utilize the New York State Education Department's Impartial Hearing Reporting System (IHRS) to access the alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial due process hearings according to the manner and schedule specified by the Department. The Superintendent shall designate a staff member(s) who will be responsible for reporting such information as required relating to the impartial hearing process into the State Education Department's web-based reporting system.

SUBJECT: IMPARTIAL DUE PROCESS HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS (Cont'd.)

Compensation of Impartial Hearing Officers

The District will be responsible for compensating the IHO for prehearing, hearing and post-hearing activities at the rate agreed upon at the time of the IHO's appointment. The rate of compensation may not exceed the maximum rate approved by the Director of the Division of the Budget. The District will also reimburse the IHO for travel and other hearing-related expenses (e.g., duplication and telephone costs) pursuant to an annually determined schedule. On an annual basis, the District will forward a copy of its compensation rates to each IHO on the District's rotational list.

At the completion of the impartial due process hearing, the IHO shall submit an itemized bill of hourly charges and expenses, which will be promptly paid by the District.

Mediation

The District will inform the parent in writing of the availability of mediation and any free or low-cost legal and other relevant services available in the area at the request of the parent or when an impartial due process hearing is requested.

Mediation is voluntary and does not deny or delay a parent's right to an impartial due process hearing. If mediation is initiated after a request for an impartial due process hearing has been received, the impartial due process hearing must continue unless the request for the impartial due process hearing is withdrawn. However, a party may request an extension to an impartial due process hearing in order to pursue mediation.

Guardians ad Litem at Impartial Due Process Hearings

Unless a surrogate parent has been previously appointed, the IHO must appoint a guardian ad litem when he/she determines that the interests of the parent(s) are opposed to or are inconsistent with those of the student or whenever the interests of the student would be best protected by such appointment.

Confidentiality

All issues relating to a request for and conduct of an impartial due process hearing must be kept confidential by all District staff.

Administrative Procedures

Administrative procedures will be developed for the selection and appointment of an IHO consistent with regulatory requirements.

Parents of children with disabilities have the right under Federal and State regulations to obtain an independent educational evaluation (IEE) at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(g). Additionally, the Federal Regulations (34 Code of Federal Regulations [CFR] 300.502) specify requirements for an independent evaluation.

A parent is entitled to only one (1) IEE at public expense each time the District conducts an evaluation with which the parent disagrees.

Administrative regulations on independent evaluations will be developed in order to explain the rights of parents and the responsibilities of school districts with regard to independent evaluations, and also to avoid any misunderstandings.

SUBJECT: SPECIAL EDUCATION MEDIATION

The District will offer mediation to resolve any disputes involving any matter for which an impartial due process hearing may be brought, including matters arising prior to the filing of a due process complaint notice.

Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of any school district or State agency that is involved in the education or care of the student who is the subject of the mediation process. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process and should be knowledgeable in laws and regulations relating to the provision of special education services.

Parents or persons in parental relation to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial due process hearing procedures in accordance with Federal and State law and regulations. If the parent and District agree, alternative means of meeting participation may be utilized, such as video conferences and conference calls.

Discussions during the mediation process must be confidential and may not be used as evidence in any subsequent due process hearing or civil proceedings.

If resolution to the complaint is reached through mediation, the parent and the representative of the District who has the authority to bind the District will execute a legally binding written agreement specifying the resolution and stating that all discussions occurring during the mediation process are confidential and may not be used as evidence in any subsequent due process hearing or civil proceeding of any Federal or State court. If the written agreement is inconsistent with the student's current individualized education programs (IEP), the IEP must be immediately amended to reflect the mediation agreement.

The mediation process is voluntary and will not operate to diminish or limit any rights provided for in law, including the right of the parent or person in parental relation to request an impartial due process hearing subsequent to mediation. Parents or persons in parental relation to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent or person in parental relation from requesting an impartial due process hearing without having first utilized mediation procedures set forth in Education Law.

Each teacher has the privilege of initiating improvement, as well as responding constructively to changing conditions, and the Principals shall be involved in curriculum development.

From the staff, the Superintendent may appoint curriculum study committees; and their findings, as well as the collective judgments of the staff about the pertinence of various possible changes, shall be submitted by the Superintendent to the Board of Education for consideration in the forming of curriculum policy.

Curriculum Evaluation

The Board of Education shall direct a continuing evaluation of the curriculum as part of a program of instructional improvement. All aspects of the curriculum shall be subjected to a searching and critical analysis in an attempt to improve the learning and growth of students.

The administrative staff shall evaluate the curriculum in a systematic manner involving school personnel and others as appropriate and make periodic recommendations for action by the Board. The Board of Education from time to time may invite teachers or others to discuss the curriculum.

Evaluation of the Instructional Program

The Board of Education expects staff members to maintain a continual program of evaluation at every level to determine the extent of progress toward the schools' objectives. The Board of Education will periodically request the Superintendent to present factual information that it considers necessary to evaluate the effectiveness of the School System.

SUBJECT: ANIMALS IN THE SCHOOL (INSTRUCTIONAL PURPOSES)

Observation and experimentation with living organisms and animals gives students unique perspectives of life processes. Animals and animal materials should be used respectfully and for the purpose of meeting course objectives.

The Board of Education, in recognizing the educational uses of animals in the classroom, requires that permission be obtained from the Building Principal before animals are brought into the school or classrooms. It is the Principal's responsibility to ensure that there is an appropriate educational purpose if any animal is housed in a classroom. Animals are not to be transported on school buses with the exception of animals certified to assist persons with disabilities.

Study and Care of Live Animals

It shall be the responsibility of the Principal or his/her designee to develop a plan of care for those animals housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session.

Dissection of Animals

Any student expressing a moral or religious objection to the performance or witnessing of the dissection of an animal, either wholly or in part, shall be provided the opportunity to undertake and complete an alternative project approved by the student's teacher; provided, however, that such objection is substantiated in writing by the student's parent or legal guardian. An alternate activity clearly related to and of comparable rigor will be assigned in lieu of laboratory dissection. Some examples of alternate activities include the use of computer simulations or research. Students who perform alternative projects shall not be penalized.

Effective July 1, 2011, the District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

Instruction in the Humane Treatment of Animals

Students in elementary school must receive instruction in the humane treatment and protection of animals and the importance of the part they play in the economy of nature as well as the necessity of controlling the proliferation of animals that are subsequently abandoned and caused to suffer extreme cruelty. Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

Instruction

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY

In compliance with the Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this Internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the Internet) on all District computers with Internet access. Such technology protection measures apply to Internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. The District will provide for the education of students regarding appropriate online behavior including interacting with other individuals on social networking websites and in chat rooms, and regarding cyberbullying awareness and response. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the Internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the Internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- a) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the Internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, instant messaging and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of email, chat rooms, as well as social networking websites, may be blocked as deemed necessary to ensure the safety of such students;
- b) Monitoring logs of access in order to keep track of the websites visited by students as a measure to restrict access to materials harmful to minors;
- c) In compliance with this Internet Safety Policy as well as the District's Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and
- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal identification information regarding such students.

(Continued)

Instruction

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY (Cont'd.)

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor, or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with Internet access.

Internet Safety Instruction

In accordance with New York State Education Law, the School District may provide, to students in grades K through 12, instruction designed to promote the proper and safe use of the Internet. The Commissioner shall provide technical assistance to assist in the development of curricula for such course of study which shall be age appropriate and developed according to the needs and abilities of students at successive grade levels in order to provide awareness, skills, information and support to aid in the safe usage of the Internet.

Under the Protecting Children in the 21st Century Act, students will also be educated on appropriate interactions with other individuals on social networking websites and in chat rooms, as well as cyberbullying awareness and response.

Access to Inappropriate Content/Material and Use of Personal Technology or Electronic Devices

Despite the existence of District policy, regulations and guidelines, it is virtually impossible to completely prevent access to content or material that may be considered inappropriate for students. Students may have the ability to access such content or material from their home, other locations off school premises and/or with a student's own personal technology or electronic device on school grounds or at school events. Students are not permitted to bring and use their personal computer without academic administrative approval.

Instruction

SUBJECT: INTERNET SAFETY/INTERNET CONTENT FILTERING POLICY (Cont'd.)

The District is not responsible for inappropriate content or material accessed via a student's own personal technology or electronic device or via an unfiltered Internet connection received through a student's own personal technology or electronic device.

Consent for Student Use

The District's Acceptable Use Policy and accompanying Regulations will be disseminated to parents and students in order to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

Student use of the District's computer system (DCS) is conditioned upon written agreement by all students and their parents/guardians that student use of the DCS will conform to the requirements of this policy and any regulations adopted to ensure acceptable use of the DCS. All such agreements shall be kept on file in the District Office. ("Affirmative consent")

Notification/Authorization

The District has provided reasonable public notice and has held at least one (1) public hearing or meeting to address the proposed Internet Safety/Internet Content Filtering Policy prior to Board adoption. Additional public notice and a hearing or meeting is not necessary when amendments are made to the Internet Safety Policy in the future.

The District's Internet Safety/Internet Content Filtering Policy must be made available to the FCC upon request. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of this policy as well as any other District policies relating to the use of technology.

The Internet Safety/Internet Content Filtering Policy is required to be retained by the school for at least five (5) years after the funding year in which the policy was relied upon to obtain E-rate funding.

Teachers wishing to call upon outside speakers in the presentation of controversial issues are required to obtain the approval of the Principal who shall keep in mind the obligation for presenting opposing views as well, and who shall inform the Superintendent prior to the presentation.

**SUBJECT: TEXTBOOKS/WORKBOOKS/CALCULATORS/INSTRUCTIONAL
COMPUTER HARDWARE****Textbooks**

The term "textbook" shall refer to a book supplied to a student for a fixed period of time for his/her personal use and basic to the study of a subject. The Board of Education shall make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent of Schools, the Board of Education shall designate the textbooks to be used. Textbooks, once designated, cannot be superseded within a period of five (5) years except by a three-fourths (3/4) vote of the Board.

Each school district has the option of participating in the National Instructional Materials Access Center (NIMAC). Whether a district does or does not participate in NIMAC, the district will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards (8 NYCRR Section 200.2(b)(10)). The New York State Education Department (NYSED) recommends that school districts choose to participate in NIMAC, because this national effort to centralize the distribution of instructional materials in alternate formats will help guarantee timely provision of such materials to students.

For school districts, Boards of Cooperative Educational Services (BOCES), State-operated schools, State-supported schools and approved private schools that choose to participate in NIMAC, **contracts with publishers executed on and after December 3, 2006** for textbooks and other printed core materials *must* include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

Workbooks

The term "workbook" shall refer to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook. COMPUTER HARDWARE (Cont'd.)****Calculators**

The District can require students to provide their own "supplies" (defined as something which is consumed in use, loses its appearance and shape in use, expendable, and inexpensive). Examples include pencils, pens, paper, etc. Calculators do not fall into this category and must be considered like classroom teaching materials for which the District is authorized to levy a tax. In addition, the District may purchase, and must still provide, calculators even if operating under a contingent budget if the calculators are required for participation in an educational program.

The New York State Education Department requires the use of calculators for intermediate and high school level mathematics and science assessments. To the extent that calculators are a necessary part of the educational program, the District must provide them. Under no circumstances should students be charged for a calculator or otherwise required to purchase one in order to participate in an educational program of the District.

Instructional Computer HardwareLoan to Students Attending Nonpublic Schools in the District

The School District shall loan, upon request of an individual or a group of individual students, to all students legally attending nonpublic elementary or secondary schools located in the School District, instructional computer hardware which is designated for use in any public elementary or secondary schools of the State or is approved by any school authorities as such term is defined in Education Law Section 2(12).

Such instructional computer hardware is to be loaned free to such children, subject to such rules and regulations as are or may be prescribed by the Board of Regents and school authorities and shall be required for use as a learning aid in a particular class or program. School authorities shall specify a date by which written requests for the purchase and loan of instructional computer hardware must be received by the District. Such date shall not be earlier than the first day of June of the school year prior to that for which such instructional computer hardware is being requested. For a child not attending a nonpublic school prior to June first, the parent/guardian may submit a written request for instructional computer hardware within thirty (30) days after such child is enrolled in the nonpublic school. In no event, however, shall a request made later than the times otherwise provided pursuant to Education Law Section 754 be denied where a reasonable explanation is given for the delay in making the request. SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three (3) concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

(Continued)

SUBJECT: RELIGIOUS EXPRESSION IN THE INSTRUCTIONAL PROGRAM (Cont'd.)**Music in the Schools**

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

Curriculum Areas in Conflict with Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program, or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations in order to ensure community, faculty, student, and parental/guardian awareness.

SUBJECT: SCHOOL CALENDAR AND SCHOOL DAY**School Calendar**

The Superintendent shall be responsible for the preparation of a school calendar to be presented to the Board for adoption.

School Day - General

The school day shall be set by the Superintendent with approval of the Board.

Senior Permission for Abbreviated School Day

Seniors who have a job or have parental permission may be excused for one-half (1/2) day providing schedule permits. A half-day is interpreted to be four (4) consecutive periods. Students may not leave after morning classes and return for afternoon classes. They may arrive late and take their scheduled classes and remain to the end of the day or they may take their scheduled classes in the morning and leave early. The only exception to this rule is for students who take courses at a college.

Students who have a normally scheduled study hall during the first or last periods of the day may be allowed to sign in late in the morning or leave early, at the discretion of the school administration and with parental permission. Student schedules should not be manipulated to make this situation occur. Students who are allowed to sign in after first period must call in before 8:30 a.m. to report an absence if they are going to be out for the day.

SUBJECT: INDEPENDENT STUDY

Independent study, for credit, will be available to meet the individual needs of students in grades 9 through 12. The Principal, after consultation with relevant faculty, shall award credit to the student based on successful completion of the independent study and demonstrated mastery of the learning outcomes of the subject.

Students enrolled in the District, may earn a maximum of three (3) units of elective credit towards a Regents diploma through independent study. The student's participation in independent study shall be approved by a school-based panel consisting of, at a minimum, the Principal, a teacher in the subject area for which independent credit is sought, and a guidance director or administrator.

Credit for independent study may be awarded for elective courses only and shall not be awarded for courses required for the Regents diploma as specified in Commissioner's Regulations.

SUBJECT: HOME TUTORING (HOMEBOUND INSTRUCTION)

Resident children attending public or nonpublic schools who are unable to attend school because of physical, mental or emotional illness or injury as substantiated by a licensed physician are eligible to be instructed at home or in a hospital by a tutor provided by the School District. These students will be provided with such instruction in accordance with New York State Education Law and Commissioner's Regulations.

Procedures for students requiring home tutoring shall be developed under the direction of the Superintendent or his/her designee.

Instruction

SUBJECT: FIELD TRIPS

The Board of Education recognizes that field trips are an educationally sound and important ingredient in the instructional program of the schools.

For purposes of this policy, a field trip shall be defined as any journey by a group of students away from the school premises, under the supervision of a teacher, which is an integral part of an approved course of study and conducted for the purpose of affording a first-hand educational experience not available in the classroom.

Field trips are a part of the curriculum of the schools, and student conduct and attendance on field trips are governed by the same rules that govern regular classroom activities. The School System shall obtain written parental/guardian permission for students going on school-sponsored field trips.

The Superintendent shall prepare procedures for the operation of a field trip activity. Field trip support shall be determined annually by the Board during its budget deliberations. Regardless of the fiscal support for field trips, the rules of the School District for approval and conduct of such trips shall apply.

The Superintendent/designee may cancel previously approved field trips due to extenuating circumstances.

Travel to a Foreign Country

Because of concerns regarding unforeseen violence (e.g., acts of terrorism) and uncertainty about liability (e.g., availability and spiraling costs of insurance) the School District will not sponsor student trips to a foreign country other than Canada.

NOTE: Refer also to Policies #3410 -- Code of Conduct on School Property

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

The School District will attempt to cooperate with parents who wish to provide home instruction for their children. The child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic, and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Primary responsibility for determining compliance with Commissioner's Regulations addressing home instruction rests with the Superintendent of Schools of the school district in which a home-instructed student resides.

Provision of Services to Home-Instructed Students

They are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

a) Extracurricular Participation

Students instructed at home are *not* eligible to participate in interscholastic sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports. Further, the District *does not* permit home-instructed students to participate in any extracurricular activities.

b) Textbooks and Materials

The District *shall not* provide textbooks and other materials to home-instructed students.

c) Health Services

The School District is *not required* to furnish health services.

d) Remedial Programs

The District *is not responsible* for providing remedial programs.

e) Career and Technical/Gifted Education

The District is *not authorized* to provide Occupational and Vocational Education programs (career and technical education) nor programs for the Gifted to home-instructed students.
